Department 505. PROFESSIONAL STANDARDS COMMISSION

Chapter 505-3. EDUCATOR PREPARATION RULES

505-3-01 Requirements and Standards for Approving Educator Preparation Providers and Educator Preparation Programs

(1) **Purpose.** This rule states requirements and standards for the approval of educator preparation providers (EPPs) and programs for the initial and continuing preparation of educators in Georgia.

(2) **Definitions.**

(a) **Accreditation:** (1) A process for assessing and enhancing academic and educational quality through external, often voluntary, peer review. (2) A decision awarded and process certified by an accrediting organization. For the purposes of educator preparation provider (EPP) and program approval, GaPSC recognizes three types of accreditation: Regional Accreditation, National Accreditation, and Specialized Accreditation. Each type of accreditation is defined in subsequent definitions.

(b) **Advanced Preparation/Degree-Only Program:** An educator preparation program at the post-baccalaureate level for the continuing education of educators who have previously completed initial preparation and are certified in the program’s subject area or field of certification. Advanced preparation programs commonly award graduate credit and include master’s, specialist, and doctoral degree programs. Although GaPSC-approved EPPs must provide data on advanced preparation programs in reports required by the state and for national accreditation, they are neither reviewed nor approved by GaPSC.

(c) **Approval:** A process for assessing and enhancing academic and educational quality through peer review and annual reporting, to assure the public an EPP and/or program has met and continues to meet institutional, state, and national standards of educational quality; also, a Georgia Professional Standards Commission (GaPSC) decision rendered when an EPP or program meets GaPSC standards and annual reporting requirements.

(d) **Approval Review:** Examination of evidence and interviews of stakeholders conducted by GaPSC site visitors and sometimes CAEP site visitors either on-site at an institution/agency, or electronically through the use of Internet and telephone conferencing systems as part of a Developmental, First Continuing, Continuing, Focused, or Probationary Review. Although not an approval review, the Substantive Change process is used when certain changes are made to the design or operations of approved program (see definition (ar)).

(e) **B/P-12:** Formerly P-12, the term B/P-12 references schools serving children aged birth to grade 12.

(f) **Branch Campus:** A campus that is physically detached from the parent university or college and has autonomous governance. A branch campus generally has full student and administrative services with a CEO and is regionally accredited separately from the parent campus. For approval purposes, GaPSC considers branch campuses distinct from the parent institution and therefore a separate EPP. For approval purposes, a branch campus located in the state of Georgia having an original, or main, campus located in another state or country is considered an out-of-state institution and is therefore ineligible to seek GaPSC approval as an EPP.

(g) **Candidates/Teacher Candidates:** Individuals enrolled in programs for the initial or advanced preparation of educators, programs for the continuing professional development of educators or programs for the preparation of other professional school personnel. Candidates are distinguished from students in B/P-12 schools. (The term enrolled is used in the GaPSC approval process to mean the candidate is admitted and taking classes.)

(h) **Clinical Educators:** All educator preparation provider (EPP) and P-12 school-based individuals, including classroom teachers, who assess, support, and develop a candidate’s knowledge, skills, or professional dispositions at some stage in the clinical experiences. The term Clinical Educators is intended to be inclusive of the roles of...
Mentor Teacher, B/P-12 Supervisor, and Faculty Supervisor. EPPs are expected to clearly define the roles and responsibilities of all clinical educators with whom candidates interact.

(i) **Clinical Practice**: Culminating residency (formerly referred to as student teaching) or internship experiences with candidates placed in classrooms for at least one full semester where they experience intensive and extensive practices in which they are fully immersed in the learning community and provided opportunities to develop and demonstrate competence in the professional roles for which they are preparing. In initial preparation programs in Service and Leadership fields, candidates will complete such culminating residency or internship experiences in placements that allow the knowledge, skills, and dispositions included in the programs to be practiced and applied. In non-traditional preparation programs, such as GaTAPP, clinical practice is job-embedded as candidates must be hired as a classroom teacher to be admitted to the program.

(j) **Content Knowledge**: The central concepts, tools of inquiry, and structures of a discipline (Source: CAEP Glossary).

(k) **Council for the Accreditation of Educator Preparation (CAEP)**: The national accreditation organization formed as a result of the unification of the National Council for the Accreditation of Teacher Education (NCATE) and the Teacher Education Accreditation Council (TEAC). CAEP advances excellence in educator preparation through evidence-based accreditation that assures quality and supports continuous improvement to strengthen B/P-12 student learning. CAEP accredits educator preparation providers (EPPs).

(l) **Dyslexia and Other Related Disorders**: Dyslexia is a specific learning disability that is neurological in origin, which is characterized by difficulties with accurate or fluent word recognition and by poor spelling and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede the growth of vocabulary and background knowledge. Other related disorders include aphasia, dyscalculia, and dysgraphia.

1. **Aphasia**: Aphasia is a condition characterized by either partial or total loss of the ability to communicate verbally or through written words. A person with aphasia may have difficulty speaking, reading, writing, recognizing the names of objects, or understanding what other people have said. The condition may be temporary or permanent and shall not include speech problems caused by loss of muscle control.

2. **Dyscalculia**: Dyscalculia is the inability to understand the meaning of numbers, the basic operations of addition and subtraction, or the complex operations of multiplication and division or to apply math principles to solve practical or abstract problems.

3. **Dysgraphia**: Dysgraphia is difficulty in automatically remembering and mastering the sequence of muscle motor movements needed to accurately write letters or numbers.

(m) **Dispositions**: Moral commitments and professional attitudes, values, and beliefs that underlie educator performance and are demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues, and communities.

(n) **Distance Learning**: A formal educational process in which instruction occurs when candidates and the instructor are not in the same place at the same time. Distance learning can occur through virtually any media including asynchronous or synchronous, electronic or printed communications.

(o) **Distance Learning Program**: A program delivered primarily (50% or more contact hours) through distance technology in which the instructor of record and candidates lack face-to-face contact and instruction is delivered asynchronously or synchronously (see definition (m)). These preparation programs include those offered by the EPP through a contract with an outside vendor or configured as a consortium with other EPPs, as well as those offered solely by the provider.

(p) **Diverse**: Showing a great deal of variety; very different, as in clinical placement (see definition (p)) (Source: CAEP Glossary).
(q) **Diversity**: Diversity is inclusive of individual differences and group differences. (1) Individual differences (e.g., personality, interests, learning modalities, and life experiences); and (2) group differences (e.g., race, ethnicity, ability, gender identity, gender expression, sexual orientation, nationality, language, religion, political affiliation, and socio-economic background) (Source: CAEP Glossary).

(r) **Educator Preparation Program**: A planned sequence of courses and experiences for preparing B/P-12 teachers and other professional school personnel. See the definitions for the three types of educator preparation programs: Initial (aa), Endorsement (s), and Advanced (b).

(s) **Educator Preparation Provider (EPP)**: The institution of higher education (IHE), college, school, department, agency, or other administrative body responsible for managing or coordinating all programs offered for the initial and continuing preparation of teachers and other school personnel, regardless of where these programs are administratively housed (formerly referred to as the professional education unit).

(t) **Endorsement Program**: A planned sequence of courses and experiences, typically three (3) to four (4) courses in length, designed to provide educators with an additional, specific set of knowledge and skills, or to expand and enhance existing knowledge and skills. Successful completion of an endorsement program results in the addition of the endorsement field to the Georgia educator certificate designating expertise in the field. Endorsement programs may be offered as non-credit bearing programs (or if applicable, as continuing education units), or they may lead to college credit; they must be approved by the GaPSC and administered by a GaPSC-approved EPP, and may be offered as either a stand-alone program or, unless otherwise specified in GaPSC Educator Preparation Rules 505-3-.82 through 505-3-.106, embedded in an initial preparation program. Depending on the needs of the individual educator, endorsement programs may also be included as a part of an educator’s professional learning plan/goals. See GaPSC Rule 505-2-.14, ENDORSEMENTS.

(u) **Field Experiences**: Activities that include organized and sequenced engagement of candidates in settings providing opportunities to observe, practice, and demonstrate the knowledge, skills, and dispositions delineated in institutional, state, and national standards. The experiences must be systematically designed and sequenced to increase the complexity and levels of engagement with which candidates apply, reflect upon, and expand their knowledge and skills. Since observation is a less rigorous method of learning, emphasis should be on field experience sequences requiring active professional practice or demonstration, and including substantive work with B/P-12 students and B/P-12 personnel as appropriate. In non-traditional preparation programs, such as GaTAPP, field experiences occur outside candidates’ classrooms with students with diverse learning needs and varied backgrounds in at least two settings during the clinical practice.

(v) **First Continuing Review**: Formerly called the *Initial Performance Review*, the First Continuing Review is conducted three years after a Developmental Review to determine if the EPP and/or initial educator preparation program(s) have evidence of meeting all applicable standards. For EPPs seeking CAEP accreditation, the First Continuing Review of an EPP will be conducted jointly by state and national (CAEP) site visitors in accordance with Georgia’s State Partnership Agreement with CAEP.

(w) **Franchise Program**: An endorsement program developed by and approved for one GaPSC-approved EPP (the franchise manager) and subsequently shared with other GaPSC-approved EPPs operating as franchisees.

(x) **Georgia Teacher Academy for Preparation and Pedagogy (GaTAPP)**: Georgia’s non-traditional preparation program for preparing career changers for certification as B/P-12 teachers. See GaPSC Rule 505-3-.05, GEORGIA TEACHER ACADEMY FOR PREPARATION AND PEDAGOGY (GaTAPP).

(y) **Grade Point Average (GPA)**: A quantitative indicator of candidate achievement. Letter grades are converted to numbers and averaged over a period of time.

(2) **Induction**: (1) The formal act or process of placing an individual into a new job or position and providing appropriate support during the first three years of employment. The Georgia Department of Education defines The Induction Phase Teacher as any teacher who has been hired into a new permanent position in any Georgia school. (2) A Georgia level of professional educator certification; for additional information see Rule 505-2-04, INDUCTION CERTIFICATE.
(aa) **Information Literacy**: An intellectual framework for understanding, finding, evaluating, and using information—activities which may be accomplished in part by fluency with information technology, in part by sound investigative methods, but most importantly, through critical discernment and reasoning (adopted from The Association of College and Research Libraries).

(ab) **Initial Preparation Program**: A program designed to prepare candidates for their first professional certificate in a teaching, leadership, or service field. Examples include degree programs at the baccalaureate, master’s, or higher levels; or post-baccalaureate programs, non-degree certification-only programs, and non-traditional programs such as the GaTAPP program. Programs leading to an educator’s first certificate in a particular field are considered initial preparation even if the educator is certified in one or more other fields.

(ac) **Local Unit of Administration (LUA)**: A local education agency, including but not limited to public, waiver, Investing in Educational Excellence (IE2), charter schools and private schools (i.e., faith-based schools, early learning centers, hospitals, juvenile detention centers, etc.). As referenced in GaPSC Certification Rule 505-2-.01, paragraph (2) (d) 1, for employment purposes GaPSC Certification Division staff consider all non-IHEs as LUAs.

(ad) **Media Literacy**: The ability to encode and decode the symbols transmitted via media and the ability to access, analyze, evaluate, and communicate information in a variety of forms, including print and non-print messages. Also known as the skillful application of literacy skills to media and technology messages (adopted from the National Association for Media Literacy Education).

(ae) **Mentor Teacher**: A B/P-12 employed teacher and an expert practitioner who supports the development of a pre-service or novice teacher by assessing and providing feedback on instructional practice; interactions with students, colleagues, and parents; classroom management; and professionalism. Mentor teachers are typically involved with faculty supervisors in the formal supervision and evaluation of pre-service clinical practice experiences (residency/internship). The term *Mentor Teacher* is often used synonymously with the terms *Cooperating Teacher* and *B/P-12 Supervisor*. See (as) for definitions of the terms *B/P-12 Supervisor* and *Faculty Supervisor*.

(af) **National Accreditation**: National accreditation is conducted by an accrediting organization which develops evaluation criteria and conducts peer evaluations to assess whether or not those criteria are met. National accrediting agencies operate throughout the country and review entire institutions. CAEP (see definition (k)) is an example of a national accrediting organization.

(ag) **Nationally Recognized Program**: A program that has met the standards of a national specialized professional association (SPA) that is a constituent member of CAEP. The term *National Recognition* signifies the highest level of SPA recognition awarded to programs.

(ah) **Non-traditional Preparation Program (GaTAPP)**: A program designed to prepare individuals who at admission hold an appropriate degree with verified content knowledge through a major or its equivalent in the content field or a passing score on the state-approved content assessment in the content field. If the state-approved content knowledge was not required at admission, it must be passed for program completion. Non-traditional preparation programs do not lead to a degree or college credit and:

1. Feature a flexible timeframe for completion;
2. Are job-embedded, allowing candidates to complete requirements while employed by a regionally accredited local unit of administration (school district or private school), a charter school approved by the Georgia State Charter School Commission, or a charter school approved by the Georgia Department of Education as a classroom teacher full-time or part-time for at least a half day;
3. **Require that candidates are supported by a Candidate Support Team**;
4. **Require an induction component that includes coaching and supervision**;
5. **Provide curriculum, performance-based instruction and assessment focused on the pedagogical knowledge, skills, and dispositions necessary for the candidate to teach his/her validated academic content knowledge**; and
6. Are individualized based on the needs of each candidate with respect to content knowledge, pedagogical skills, learning modalities, learning styles, interests, and readiness to teach. See Rule 505-3-.05, GEORGIA TEACHER ACADEMY FOR PREPARATION AND PEDAGOGY (GaTAPP).

(ii) Out-of-State Institution: An institution of higher education administratively based in a state within the United States other than Georgia, or another country.

(iii) Pedagogical Content Knowledge: A core part of content knowledge for teaching that includes: core activities of teaching, such as determining what students know; choosing and managing representations of ideas; appraising, selecting and modifying textbooks; and deciding among alternative courses of action and analyzing the subject matter knowledge and insight entailed in these activities (Source: adapted from the CAEP Glossary).

(ak) Pedagogical Knowledge: The broad principles and strategies of classroom instruction, management, and organization that transcend subject matter knowledge (Source: CAEP Glossary).

(al) Pedagogical Skills: An educator’s abilities or expertise to impart the specialized knowledge/content and skills of their subject area(s) (Source: CAEP Glossary).

(am) Preconditions: Fundamental requirements that undergird the GaPSC standards that must be met as a first step in the approval process and before an EPP is permitted to schedule a Developmental Approval Review.

(an) Preparation Program Effectiveness Measures (PPEMs): A set of common measures applied to all teacher and leader preparation programs leading to initial certification in a field. Teacher Preparation Program Effectiveness Measures (TPPEMs) and Leader Preparation Program Effectiveness Measures (LPPEMs) are further defined in GaPSC Rule 505-3-.02, EDUCATOR PREPARATION PROVIDER ANNUAL REPORTING AND EVALUATION.

(ao) Program Completer: A person who has met all the requirements of a GaPSC-approved or state-approved out-of-state educator preparation program.

(ap) Regional Accreditation: Regional accreditation is conducted by an accrediting organization that develops evaluation criteria and conducts peer evaluations to assess whether or not those criteria are met. Six regional accreditors operate in the United States to conduct educational accreditation of public, private, for-profit, and not-for-profit schools, colleges, and universities in their regions.

(aq) Specialized Accreditation: Specialized accrediting organizations operate throughout the country to review programs and some single-purpose institutions. Like national and regional accreditors, specialized accreditation organizations develop evaluation criteria and conduct peer evaluations to assess whether or not those criteria are met.

(ar) Specialized Professional Association (SPA): A constituent member of CAEP representing a particular disciplinary area that develops standards for the approval of educator preparation programs in that area and reviews programs for compliance with those standards.

(as) Substantive Change Procedure: Process used for EPPs to submit changes that are considered significant, including additional levels of program offerings and changes to key assessments or leadership personnel.

(at) Supervisor: An individual involved in the oversight and evaluation of educator preparation candidates during field and clinical experiences. In most cases one or more individuals are involved in the formal supervision of clinical experiences—a supervisor employed by the EPP and one or more supervisors employed by the B/P-12 site hosting a pre-service educator. The term Faculty Supervisor refers to the employee of the EPP and the term B/P-12 Supervisor (sometimes referred to as Mentor Teacher or Cooperating Teacher) refers to the school-based employee who hosts a pre-service educator for the culminating residency or internship.
(au) **Technology Literacy**: Using technology as a tool to research, organize, evaluate, and communicate information and understanding the ethical and legal issues surrounding the access and use of information.

(ay)** Traditional Preparation Program**: A credit-bearing program designed for the preparation of educators typically offered by institutes of higher education.

(aw)** Year-long Residency**: An extended clinical practice lasting the entire length of the B/P-12 school year, in the same school, in which candidates have more time to practice teaching skills with students under the close guidance of experienced and effective B/P-12 teachers licensed in the content area the candidate is preparing to teach. Candidates fully participate in the school as a member of the faculty, including faculty meetings, parent conferences, and professional learning activities spanning, if feasible, the beginning (e.g. pre-planning) and ending (post-planning) of the academic year. (Candidates may participate in post-planning at the end of the junior year if it is not possible for them to participate at the end of the senior year). These extended residencies also include supervision and mentoring by a representative of the preparation program who, along with the B/P-12 supervisor, ensures the candidate is ready for program completion and is eligible for state certification.

(3)** GENERAL REQUIREMENTS APPLICABLE TO ALL EDUCATOR PREPARATION PROVIDERS AND EDUCATOR PREPARATION PROGRAMS.**

(a)** Authorization for the Establishment of Georgia Educator Preparation Providers (EPPs)**

1. Regionally accredited institutions of higher education administratively based in the state of Georgia (as determined by the location of the office of the President or the single highest ranking executive officer of the institution), regionally accredited local units of administration with student enrollment over 30,000, Georgia Regional Educational Service Agencies (RESAs), and other education service organizations to include Georgia-based non-profit associations are eligible to seek GaPSC approval as an EPP for the purpose of preparing educators. Out-of-state institutions operating in the state of Georgia through a branch or satellite campus or by online delivery of programs, as well as for-profit organizations that are not regionally accredited institutions of higher education are not eligible to seek GaPSC approval as an EPP.

(b)** Accreditation of Institutions/Agencies with an Educator Preparation Provider (EPP)**

1. Institutions of higher education with a college, school, department or other entity that is a GaPSC-approved EPP shall be fully accredited by the Southern Association of Colleges and Schools (SACS), at the level(s) of degree(s) granted by the institution. The institution shall submit program(s) for GaPSC approval corresponding to the appropriate level of accreditation and in a field recognized for certification by the GaPSC. If an institution has submitted an application for change in degree level to a GaPSC-accredited regional accreditation agency, and is seeking Developmental Approval of a program(s) at the proposed new degree level by the GaPSC, the institution must be regionally accredited at the new degree level prior to approval review by the GaPSC. See GaPSC 505-2-.31, GAPSC-ACCEPTED ACCREDITATION; VALIDATION OF NON-ACCREDITED DEGREES.

2. Local education agencies, RESAs, or other approved, non-IHE providers shall admit candidates who hold degrees from a GaPSC-approved accredited institution of higher education appropriate for the certificate sought. GaPSC-approved EPPs offering Career Technical and Agricultural Education (CTAE) programs, including GaTAPP providers, may admit individuals who do not hold post-secondary degrees who are seeking CTAE certification in certain fields (see Rule 505-3-.05 Georgia Teacher Academy for Preparation and Pedagogy). See Rule, 505-2-.31, GAPSC-ACCEPTED ACCREDITATION; VALIDATION OF NON-ACCREDITED DEGREES for a list of acceptable accrediting agencies.

(c)** GaPSC Approval of Educator Preparation Providers (EPPs)**

1. An education institution or agency’s EPP (e.g. college/school/department of education) and/or program(s) shall be approved by its governing board prior to seeking GaPSC approval for the first time (Developmental Approval). Once an EPP is approved, subsequent submission of programs for approval may be made as long as governing board approval is in process and completed 45 days prior to the GaPSC program approval review.
2. GaPSC approval standards for EPPs and programs shall at a minimum be adapted from the most recent version of the standards of the Council for the Accreditation of Educator Preparation (CAEP).

3. CAEP accreditation of an EPP shall be accepted as a route to GaPSC approval of an EPP administratively based in the state of Georgia for which GaPSC has regulatory authority. Program approval is contingent upon EPP approval. If CAEP accreditation of the EPP is delayed, denied, or revoked, GaPSC will render a decision regarding EPP approval to offer educator preparation programs.

4. LUAs, qualifying organizations (see paragraph (3)(a)1.), and IHEs seeking GaPSC approval as an EPP shall follow all applicable GaPSC policies and procedures, e.g., preconditions to determine eligibility for a review, approval review requirements, post review requirements, Commission decisions, public disclosure policy, and annual reporting procedures. In order to maintain approval status, all GaPSC-approved EPPs must maintain regional or GaPSC-accepted accreditation and must comply with all applicable GaPSC rules and policies including, but not limited to, those regarding Preparation Program Effectiveness Measures, annual reporting, and data submission requirements. Failure by an approved provider to fully comply with GaPSC Educator Preparation, Certification, and Ethics Rules, Commission approval decisions, or agency procedures and/or requirements may result in changes in approval status that could include revocation of approval. Failure to comply with federal reporting requirements may result in fines.

5. The EPP must have completed the GaPSC approval process and be approved by the GaPSC before candidates are enrolled in educator preparation programs and begin taking classes.

6. For EPPs offering initial preparation programs leading to a Teaching, Leadership, or Service certificate, GaPSC EPP approval cycles shall include Developmental Approval valid for three (3) years and Continuing Approval valid for seven (7) years. The Developmental Approval Review is used to determine if a new EPP has the capacity to meet state standards and it is followed, in three to four years, by a First Continuing Review to determine if the EPP has evidence of meeting state standards. For IHEs seeking CAEP accreditation, the First Continuing Review will be conducted jointly by state and national (CAEP) site visitors in accordance with Georgia’s State Partnership Agreement with CAEP. Following the First Continuing Review, the GaPSC will conduct Continuing Reviews of the EPP and all preparation programs at seven (7) year intervals. For IHEs seeking to maintain CAEP accreditation, the Continuing Review will be conducted jointly by state and national (CAEP) site visitors. GaPSC and/or CAEP will require a Focused Approval Review or a Probationary Review of an approved or accredited EPP and/or its educator preparation programs in fewer than seven (7) years if annual performance data indicate standards are not being met, or if a previous approval review indicates pervasive problems exist that limit provider capacity to offer programs capable of meeting standards and requirements specified in GaPSC educator preparation and certification rules, or if GaPSC staff determine non-compliance with state rules.

7. For EPPs offering only endorsement programs, GaPSC EPP approval cycles shall include Developmental Approval valid for seven (7) years and Continuing Approval every seven (7) years thereafter.

8. GaPSC-approved EPPs shall comply with all GaPSC reporting requirements, to include the submission of data in all appropriate candidate-level, program-level, and EPP-level reporting systems (e.g. Traditional Program Management System (TPMS), Non-Traditional Reporting System (NTRS), Provider Reporting System (PRS), and federal annual reports on the performance of the EPP and all educator preparation programs). Out-of-state EPPs offering initial teacher preparation programs to Georgia residents and/or to residents of other states who fulfill field and clinical experiences in Georgia B/P-12 schools shall comply with all applicable GaPSC reporting requirements, to include the submission of data in TPMS and other systems that may become applicable. EPPs shall report according to the schedules and timelines published by GaPSC and shall accurately provide all data elements. Failure to report on-time and accurately may negatively impact EPP approval status. See GaPSC Rule 505-3-.02, EDUCATOR PREPARATION PROVIDER ANNUAL REPORTING AND EVALUATION.

9. GaPSC-approved EPPs shall notify all enrolled candidates when EPP and/or program approval status changes. Notification must be made within 60 days after a GaPSC decision is granted resulting in a change in approval status, in written form via letter or e-mail, and a copy must be provided to GaPSC by the EPP head. This notification must clearly outline the impact of the change in approval status on candidates and what options may be available to candidates. The EPP must maintain records of candidates’ acknowledgement of receipt of the notification.
(d) GaPSC Approval of Educator Preparation Programs

1. Educator preparation programs leading to Georgia educator certification shall be offered only by GaPSC-approved EPPs (reference paragraph (c) 3). All initial preparation programs and endorsement programs must be approved by the GaPSC.

2. GaPSC-approved EPPs seeking approval to add new preparation programs may submit the programs for GaPSC approval prior to receiving governing board approval, as long as governing board approval is granted forty-five (45) days prior to the scheduled pre-visit, which occurs thirty (30)-to-forty-five (45) days prior to the approval review.

3. GaPSC-approved EPPs seeking approval for preparation programs leading to Georgia educator certification shall follow all applicable GaPSC program approval policies and procedures in effect at the time of the requested approval and shall comply with revised policies in accordance with timelines published by the GaPSC.

4. Initial educator preparation programs and endorsement programs shall be approved by the GaPSC before candidates are enrolled and begin program coursework.

5. GaPSC-approved EPPs, in conjunction with preparations for an EPP approval review, shall submit program reports conforming to GaPSC program standards and program review requirements for evaluation either by the appropriate CAEP-accepted national Specialized Professional Association (SPA) or accrediting agency, or by GaPSC. If the highest level of recognition, in most cases National Recognition or Accreditation, is granted for a program, state approval procedures will be reduced to remove duplication in processes and will include only those procedures necessary to ensure Georgia-specific standards and requirements are met. Programs submitted for national recognition that are not granted National Recognition (e.g. granted Recognition with Conditions or any level of recognition lower than National Recognition) must comply with all applicable GaPSC program approval review procedures.

6. GaPSC educator preparation program approval shall include a Developmental Approval Review to determine if the new educator preparation program has the capacity to meet state standards. For initial preparation programs in Teaching, Leadership, and Service fields, Developmental Approval is valid for three (3)-to-four (4) years and is followed by a First Continuing Review to determine if the educator preparation program has evidence of meeting state standards. Following the First Continuing Review, the GaPSC will conduct Continuing Reviews of the educator preparation programs in conjunction with the EPP Continuing Review at seven (7) year intervals. For endorsement programs, Developmental Approval is valid for seven (7) years and is followed by a Continuing Review every seven years thereafter. The GaPSC will require a Focused Approval Review or a Probationary Review of an approved educator preparation program in fewer than seven (7) years if annual performance data indicate standards are not being met or if a previous approval review indicates pervasive problems exist, limiting program capacity to meet standards and requirements specified in GaPSC educator preparation and certification rules.

7. GaPSC-approved EPPs shall submit program(s) for GaPSC approval corresponding to the appropriate level of preparation (initial or endorsement) and in a certification field authorized in GaPSC Certification Rules. Although advanced/degree-only preparation programs are neither reviewed nor approved by GaPSC, those accepted by GaPSC for the purposes of certificate level upgrades must be listed in the GaPSC Certificate Upgrade Advisor.

8. GaPSC-approved EPPs shall make program decisions based upon program purpose, institutional mission, supply and demand data, and P-12 partner needs, and shall attempt to include a variety of options for program completion (e.g. multiple delivery models, degree options, and individualized programs; additional examples are provided in the guidance document accompanying this rule).

9. Ongoing GaPSC approval of educator preparation programs is contingent upon EPP approval status and shall be dependent upon the performance of the EPP and its programs. Upon the effective date of GaPSC Rule 505-3-.02, EDUCATOR PREPARATION PROVIDER ANNUAL REPORTING AND EVALUATION, and full implementation of Preparation Program Effectiveness Measures (PPEMs), PPEMs will be used as outlined in Rule 505-3-.02, as part of the approval process to determine ongoing approval of EPPs and educator preparation programs.
10. Out-of-state institutions offering initial teacher preparation programs to Georgia residents and/or to residents of other states who fulfill field and clinical experiences in Georgia B/P-12 schools shall ensure their candidates hold the Georgia Pre-Service Certificate prior to beginning any field and clinical experiences in any Georgia B/P-12 school required during program enrollment. The requirements for this certificate are outlined in GaPSC Rule 505-2-.03, PRE-SERVICE TEACHING CERTIFICATE. Out-of-state institutions preparing candidates for Georgia certification must also ensure their candidates meet all program completion assessment requirements outlined in this rule in paragraphs (3)(e) (5)(i) and (ii); the requirements specified in GaPSC Certification Rule 505-2-.22, CERTIFICATION BY STATE-APPROVED PROGRAM, paragraph (2) (d) 2.; and the requirements outlined in GaPSC Certification Rule 505-2-.04, INDUCTION CERTIFICATE, including the required amount of time spent in the culminating clinical experience (i.e. student teaching or internship occurring after, and not including, field experiences), and passing the ethics, content, and content pedagogy assessments.

11. Out-of-state institutions offering initial teacher preparation programs to Georgia residents and/or to residents of other states who fulfill field and clinical experiences in Georgia B/P-12 schools are subject to all applicable data collection requirements referenced in paragraph (c) 8. and described in GaPSC Rule 505-3-.02, EDUCATOR PREPARATION PROVIDER ANNUAL REPORTING AND EVALUATION.

(e) Educator Preparation Program Requirements

1. Admission Requirements

(i) GaPSC-approved EPPs shall ensure candidates enrolled in initial preparation programs at the baccalaureate level have a minimum undergraduate GPA of 2.5 on a 4.0 scale. EPPs offering non-traditional or traditional post-baccalaureate programs in teaching (T), service (S), or leadership (L) fields shall ensure enrolled candidates have a GPA of 2.5 or higher. There are no equivalent majors for the teaching fields of Elementary Education, Birth Through Kindergarten, or Special Education; therefore, candidates enrolling in these programs must have an overall GPA of 2.5. The provider shall ensure the average GPA of each enrolled cohort is 3.0 or higher. The term enrolled cohort refers to all candidates admitted to and enrolled in all initial preparation programs (across all T, S, and L fields as applicable) offered by the EPP in the GaPSC-defined reporting year (September 1 - August 31). EPPs may exempt individuals from the minimum GPA requirement under the following circumstances:

(I) if the prospective candidate’s most recent undergraduate GPA was obtained ten or more years prior to admission or

(II) if the prospective candidates did not complete undergraduate coursework (applicable only to CTAE programs).

Exempted GPAs are not included in the calculation of the average for the admitted cohort. As long as the average GPA of the admitted cohort meets the 3.0 minimum requirement, EPPs may accept up to 10% of the admitted cohort with GPAs lower than 2.5.

(ii) GaPSC-approved EPPs shall ensure candidates admitted into initial preparation programs meet the GaPSC Program Admission Assessment requirement. A passing score on the Program Admission Assessment (formerly the Basic Skills Assessment) or a qualifying exemption is required prior to enrollment in all initial preparation programs, with three exceptions:

(I) Military retirees or spouses of active-duty military personnel who do not exempt the requirement must attempt the Program Admission Assessment within the first year of program enrollment and must pass the assessment within two (2) years of program admission or prior to program completion, whichever occurs first (see GaPSC Rule 505-2-.46 MILITARY SUPPORT CERTIFICATE);

(II) Candidates seeking Career and Technical Specializations certification must either exempt the requirement or pass the Program Admission Assessment within three (3) years of program admission or prior to program completion, whichever occurs first; and
(III) Professionally certified educators (valid or expired) who enroll in initial preparation programs for the purpose of adding a new field of certification are not required to meet the Program Admission Assessment requirement.

(IV) Qualifying exemptions are available at http://www.gapsc.com/EducatorPreparation/Assessment/BasicSkillsInfo.aspx. See GaPSC Rule 505-2-.26, CERTIFICATION AND LICENSURE ASSESSMENTS for additional information related to program admission testing requirements and www.gapsc.com for Georgia educator assessment information, including qualifying exemption scores.

(iii) The appropriate state-approved Assessment of Educator Ethics – Program Entry is required to be completed prior to enrollment in a traditional or non-traditional initial educator preparation program and to qualify for the Pre-Service Teaching Certificate (see GaPSC Rule 505-2-.03, PRE-SERVICE TEACHING CERTIFICATE). Although a minimum score is not required for program admission, assessment results shall be used by EPPs to design appropriate ethics instruction needed for each candidate.

2. Pre-service Certificate Request

(i) EPPs must request the Pre-Service Certificate for all candidates admitted to traditional initial teacher preparation programs at the baccalaureate level or higher, except for candidates who hold a valid professional Georgia teaching certificate and are currently employed in a Georgia school. Out-of-state EPPs must request the Pre-Service Certificate for candidates enrolled in initial teacher preparation programs and completing field and clinical experiences in Georgia schools; such candidates must be enrolled in programs leading to a certification field offered by the GaPSC. See GaPSC Rule 505-2-.03, PRE-SERVICE CERTIFICATE for Pre-Service certification requirements.

(ii) Successful completion of a criminal record check is required to earn the Pre-Service Certificate. The Pre-Service Certificate is required for all candidates enrolled in traditional initial teacher preparation programs and participating in field and clinical experiences in Georgia B/P-12 schools (see GaPSC Rule 505-2-.03, PRE-SERVICE TEACHING CERTIFICATE).

3. Program Content and Curriculum Requirements

(i) Preparation programs for educators prepared as teachers shall incorporate the latest version of the InTASC Model Core Teaching Standards developed by the Interstate Teacher Assessment and Support Consortium. Preparation programs for educators prepared as leaders shall incorporate these standards into those courses related to instructional leadership to assure leadership candidates understand the InTASC standards as they apply to the preparation and continued growth and development of teachers.

(ii) GaPSC-approved EPPs shall require a major or equivalent in all secondary and P-12 fields, where appropriate. The equivalent of a major is defined for middle grades (4-8) as a minimum of 15 semester hours of coursework in the content field and for secondary (6-12) as a minimum of 21 semester hours of coursework in the content field. Content field coursework must meet expected levels of depth and breadth in the content area (i.e. courses above the General Education level) and shall address the program content standards required for the field as delineated in GaPSC Educator Preparation Rules 505-3-.19 through 505-3-.53.

(iii) GaPSC-approved EPPs shall ensure candidates in all initial preparation programs complete a sequence of courses and/or experiences in professional studies that includes knowledge about and application of professional ethics and behavior appropriate for school and community, ethical decision-making skills, and specific knowledge about the Georgia Code of Ethics for Educators. Candidates are expected to demonstrate knowledge and dispositions reflective of professional ethics and the standards and requirements delineated in the Georgia Code of Ethics for Educators. In addition to candidates meeting the state-approved ethics assessment requirements in 505-3-.01, (e) 1. (iv) and (e) 5. (iii) (see GaPSC Rule 505-2-.26 CERTIFICATION AND LICENSURE ASSESSMENTS), GaPSC-approved EPPs shall assess candidates’ knowledge of professional ethics and the Georgia Code of Ethics for Educators either separately or in conjunction with assessments of dispositions.
(iv) GaPSC-approved EPPs shall ensure candidates are prepared to implement Georgia state mandated standards (i.e., Georgia Performance Standards (GPS); Georgia Performance Standards (CCGPS), Georgia Standards of Excellence, College and Career Ready Standards, and all other GaDOE-approved standards) in each relevant content area. Within the context of core knowledge instruction, providers shall ensure candidates are prepared to develop and deliver instructional plans that incorporate critical thinking, problem solving, communication skills and opportunities for student collaboration. EPPs shall ensure candidates are also prepared to implement any Georgia mandated educator evaluation system. EPPs shall ensure educational leadership candidates understand all state standards and have the knowledge and skills necessary to lead successful implementation of standards in schools.

(v) GaPSC-approved EPPs shall require candidates seeking teacher certification to demonstrate knowledge of the definitions and characteristics of dyslexia and other related disorders; competence in the use of evidence-based interventions, structured multisensory approaches to teaching language and reading skills, and accommodations for students displaying characteristics of dyslexia and/or other related disorders; and competence in the use of a response-to-intervention framework addressing reading, writing, mathematics, and behavior, including:

(I) Universal screening;

(II) Scientific, research-based interventions;

(III) Progress monitoring of the effectiveness of interventions on student performance;

(IV) Data-based decision making procedures related to determining intervention effectiveness on student performance and the need to continue, alter, or discontinue interventions or conduct further evaluation of student needs; and

(V) Application and implementation of response-to-intervention and dyslexia and other related disorders instructional practices in the classroom setting.

(vi) GaPSC-approved EPPs shall require candidates seeking certification to demonstrate satisfactory proficiency in computer and other technology applications and skills, and satisfactory proficiency in integrating Information, Media and Technology Literacy into curricula and instruction, including incorporating B/P-12 student use of technology, and to use technology effectively to collect, manage, and analyze data for the purpose of improving teaching and learning. This requirement may be met through content embedded in courses and experiences throughout the preparation program and through demonstration of knowledge and skills during field and clinical experiences. At a minimum, candidates shall be exposed to the specialized knowledge and skills necessary for effective teaching in a distance learning environment.

(vii) GaPSC-approved EPPs shall require candidates seeking certification in a teaching field, educational leadership and/or the service fields of Media Specialist and School Counseling to complete either five (5) or more quarter hours or three (3) or more semester hours of coursework in the identification and education of children who have special educational needs or the equivalent through a Georgia-approved professional learning program. This requirement may be met in a separate course, or content may be embedded in courses and experiences throughout the preparation program (see Rule 505-2-.24, SPECIAL GEORGIA REQUIREMENTS). In addition, candidates in all fields must have a working knowledge of Georgia’s framework for the identification of differentiated learning needs of students and how to implement multi-tiered structures of support addressing the range of learning needs.

(viii) GaPSC-approved EPPs shall ensure candidates being prepared to teach in the fields of Elementary Education, Middle Grades Education, and the special education fields of General Curriculum, Adapted Curriculum, and General Curriculum/Elementary Education (P-5) demonstrate competence in the knowledge of methods of teaching reading.

(ix) GaPSC-approved EPPs offering endorsement programs shall ensure the programs are designed to result in candidates’ expanded knowledge and skills in creating challenging learning experiences, supporting learner ownership and responsibility for learning, and in strengthening analysis and reflection on the impact of planning to reach rigorous curriculum goals as specified in GaPSC Rules 505-3-.82 – 505-3-.111. Unless specified otherwise in GaPSC Rules 505-3-.82 through 505-3-.111, endorsement programs may be offered as a stand-alone program or embedded in initial preparation or degree-only programs. The GaPSC Continuing approval process for embedded
endorsement programs will require EPPs to provide evidence of meeting a minimum of two of the following three options:

(I) Option 1: Additional Coursework. Endorsement programs are typically comprised of three (3) or four (4) courses (the equivalent of nine (9) or twelve (12) semester hours). Although some endorsement standards may be required in initial preparation programs (e.g., Reading Endorsement standards must be addressed in Elementary Education programs) and in such cases some overlap of coursework is expected, it may be necessary to add endorsement courses to a program of study to fully address the additional knowledge and skills delineated in endorsement standards.

(II) Option 2: Additional Field Experiences. Endorsement programs require candidates to demonstrate knowledge and skills in classroom settings via field experiences. Candidates completing an embedded endorsement program may be required to complete additional field experiences (above and beyond those required for the initial preparation program) specifically to address endorsement standards and requirements.

(III) Option 3: Additional Assessment(s). Candidates’ demonstration of endorsement program knowledge and skills must be assessed by either initial preparation program assessments or via additional assessment instruments specifically designed to address endorsement program content.

See the guidelines accompanying this rule for further clarification of expectations for endorsement programs.

(x) GaPSC-approved EPPs shall provide information to each candidate on Georgia’s tiered certification structure, professional learning requirements, and employment options.

4. Requirements for Partnerships, and Field Experiences and Clinical Practice

(i) Effective partnerships with B/P-12 schools and/or school districts are central to the preparation of educators. At a minimum, GaPSC-approved EPPs shall establish and maintain collaborative relationships with B/P-12 schools, which are formalized as partnerships and focused on continuous school improvement and student growth and learning through the preparation of candidates, support of induction phase educators, and professional development of B/P-20 educators. EPPs are encouraged to establish and sustain partnerships meeting higher levels of effectiveness, as described in the guidance document accompanying this rule.

(ii) GaPSC-approved EPPs shall require in all programs leading to initial certification in teaching, leadership, or service fields, and endorsement programs, field experiences that include organized and sequenced engagement of candidates in settings providing them with opportunities to observe, practice, and demonstrate the knowledge, skills, and dispositions delineated in all applicable institutional, state, and national standards. The experiences must be systematically designed and sequenced to increase the complexity and levels of engagement with which candidates apply, reflect upon, and expand their knowledge and skills. Since observation is a less rigorous method of learning, emphasis should be on field experience sequences requiring active professional practice or demonstration and including substantive work with B/P-12 students or B/P-12 personnel as appropriate depending upon the preparation program. Field experience placements and sequencing will vary depending upon the program. In non-traditional preparation programs, such as GaTAPP, field experiences occur outside candidates’ classrooms with students with diverse learning needs and varied backgrounds in at least two settings during the clinical practice. Refer to the guidance document accompanying this rule for additional information related to field experiences and clinical practice.

(iii) GaPSC-approved EPPs shall ensure candidates complete supervised field experiences consistent with the grade levels of certification sought. For Birth Through Kindergarten programs, field experiences are required at three age levels: ages 0 to 2, ages 3 to 4, and kindergarten. For Elementary Education programs (P-5), field experiences are required in three grade levels: PK-K, 1-3, and 4-5. For middle grades education programs, field experiences are required in two grade levels: 4-5 and 6-8. Programs leading to P-12 certification shall require field experiences in four grade levels: PK-2, 3-5, 6-8, and 9-12; and secondary education programs (6-12) shall require field experiences in two grade levels: 6-8 and 9-12.
(iv) GaPSC-approved EPPs shall offer clinical practice (residency/internships) in those fields for which the EPP has been approved by the GaPSC. Clinical practice for all fields must occur in regionally accredited schools, charter schools approved by the Georgia State Charter School Commission, charter schools approved by the Georgia Department of Education, or in international settings meeting accreditation criteria specified in GaPSC Rule 505-2-.31, GaPSC-ACCEPTED ACCREDITATION; VALIDATION OF NON-ACCREDITED DEGREES. Candidates in Birth Through Kindergarten programs may participate in residencies or internships in regionally accredited schools or in pre-schools accredited by USDOE- or CHEA-accepted accrediting agencies. Candidates of GaPSC-approved EPPs must meet all applicable Pre-Service Certificate requirements, regardless of clinical practice placement location. Clinical practice must be designed and implemented cooperatively with B/P-12 partners and candidates’ experiences must allow them to demonstrate their developing effectiveness and positive impact on all students’ learning and development. Although year-long residencies/internships as defined herein (see paragraph (2) (av)) are recognized as most effective, teacher candidates must spend a minimum of one full semester or the equivalent in residencies or internships. GaPSC preparation program rules for service and leadership fields may require more than one full semester of clinical practice; see GaPSC Rules 505-3-.63 through 505-3-.81.

(v) B/P-12 educators who supervise candidates (mentors, cooperating teachers, leadership coaches/mentors, service field supervisors) in residencies or internships at Georgia schools shall meet the following requirements:

(I) B/P-12 supervisors shall have a minimum of three (3) years of experience in a teaching, service, or leadership role; and

(II) If the residency or internship is completed at a Georgia school requiring GaPSC certification, the B/P-12 supervisor shall hold renewable Professional Level Certification in the content area of the certification sought by the candidate. In cases where a B/P-12 supervisor holding certification in the content area is not available, the candidate may be placed with a Professionally Certified educator in a related field of certification (related fields are defined in the guidance document accompanying this rule). For teaching field candidates who are employed as the full-time teacher of record while completing residency or internship in a school requiring GaPSC certification, the B/P-12 supervisor must hold Professional Certification.

(III) If the residency or internship is completed at a Georgia school that has the legal authority to waive certification, the B/P-12 supervisor must hold a Clearance Certificate.

(IV) The Partnership Agreement shall describe training, evaluation, and ongoing support for B/P-12 supervisors and shall clearly delineate qualifications and selection criteria mutually agreed upon by the EPP and B/P-12 partner. The Partnership Agreement shall also include a principal or employer attestation assuring educators selected for supervision of residencies/internships are the best qualified and have received an annual summative performance evaluation rating of proficient/satisfactory or higher for the most recent year of experience.

(V) Certificate IDs (to include Clearance Certificate IDs as applicable) of B/P-12 supervisors must be entered in TPMS or NTRS prior to the completion of the residency or internship.

It is the responsibility of GaPSC-approved EPPs and out-of-state EPPs who place candidates intending to seek Georgia certification in Georgia schools for field and clinical experiences to ensure these requirements are met.

5. Assessment Requirements

(i) State-approved Content Assessment.

(I) Eligibility: EPPs shall determine traditional program candidates’ readiness for the state-approved content assessment and shall authorize candidates for testing only in their field(s) of initial preparation and only at the appropriate point in the preparation program.

(II) Attempts: GaPSC-approved EPPs shall require all enrolled candidates to attempt the state-approved content assessment (resulting in an official score on all parts of the assessment) within the content assessment window of time beginning on a date determined by the EPP after program admission and ending on August 31 in the year of program completion, and at least once prior to program completion. Candidates enrolled in a traditional (IHE-based), initial preparation program leading to Middle Grades certification must attempt the state-approved content
assessment in each of the two areas of concentration, as required for program completion and receive an official score on each assessment prior to program completion. For more information on Middle Grades areas of concentration, see GaPSC Rule 505-3-.19, MIDDLE GRADES EDUCATION PROGRAM.

(III) Passing Score: A passing score on all applicable state-approved content assessments is not required for program completion, except in the GaTAPP program, which is a non-traditional, certification-only program (See GaPSC Rule 505-3-.05); however, a passing score is required for state certification. See GaPSC Rule 505-2-.26, CERTIFICATION AND LICENSURE ASSESSMENTS, and GaPSC Rule 505-2-.048, PROVISIONAL CERTIFICATE.

(ii) State-approved Content Pedagogy Assessment.

(I) Eligibility: EPPs shall determine initial preparation program candidates’ readiness for the state-approved content pedagogy assessment and shall authorize candidates for testing only in their field(s) of preparation and only at the appropriate point in the preparation program.

(II) Attempts: GaPSC-approved EPPs shall require candidates enrolled in initial teacher preparation programs to attempt the state-approved content pedagogy assessment (resulting in an official score on all tasks within the assessment) prior to program completion. Educators who hold a Professional or Induction Certificate in a teaching field and enroll in an initial teacher preparation program for the purpose of adding a new field, as well as candidates who passed the content pedagogy assessment as part of a previous initial preparation program, are not required to submit the assessment for official scoring. See GaPSC Rule 505-2-.26, CERTIFICATION AND LICENSURE ASSESSMENTS, GaPSC Rule 505-2-.04, INDUCTION CERTIFICATE, and GaPSC Rule 505-2-.08 PROVISIONAL CERTIFICATE.

(III) Passing Score: A passing score on all applicable state-approved content pedagogy assessments is not required for program completion; however, a passing score is required for state certification. See GaPSC Rule 505-2-.26, CERTIFICATION AND LICENSURE ASSESSMENTS, and GaPSC Rule 505-2-.04, INDUCTION CERTIFICATE.

(iii) State-approved Performance-based Assessments.

(I) Eligibility: EPPs shall determine initial preparation program candidates’ readiness for the state-approved performance-based assessments in state-approved Teacher Leadership programs and Educational Leadership Tier II programs and shall authorize candidates for testing only in their field(s) of preparation and only at the appropriate point in the preparation program.

(II) Attempts: GaPSC-approved EPPs shall require candidates enrolled in state-approved Educational Leadership Tier II preparation programs to attempt the state-approved performance-based assessment (resulting in an official score on all tasks within the assessment) prior to program completion.

(III) Passing Score: A passing score on all applicable state-approved performance-based assessments is not required for program completion; however, a passing score is required for state certification. See GaPSC Rule 505-2-.26, CERTIFICATION AND LICENSURE ASSESSMENTS, Rule 505-2-.153 EDUCATIONAL LEADERSHIP, and 505-2-.149 TEACHER LEADERSHIP.

(iv) State-approved Educator Ethics Assessments.

(I) Program Admission:

A. Candidates who enroll in initial teacher preparation programs must complete, but do not have to pass, the Educator Ethics Assessment – Program Entry prior to beginning program coursework. Educators who hold a valid Induction, Professional, Lead Professional, or Advanced Professional Certificate are not required to attempt the assessment if they enroll in an initial preparation program for the purpose of adding a new teaching field.
B. Candidates who enroll in any GaPSC-approved Educational Leadership program must have completed, but do not have to pass, the Georgia Ethics for Educational Leadership Assessment – Program Entry prior to beginning program coursework.

(II) Program Exit:

A. Eligibility: EPPs shall determine candidates’ readiness for the appropriate state-approved program exit assessment of educator ethics and shall authorize candidates for testing at the appropriate point in the preparation program.

B. Attempts: Candidates in initial teacher or leader preparation programs must attempt the appropriate Educator Ethics Assessment – Program Exit prior to program completion. Educators who hold a valid Induction, Professional, Lead Professional, or Advanced Professional Certificate are not required to attempt the assessment if they enroll in an initial teacher preparation program for the purpose of adding a new teaching field.

C. Passing Score: A passing score on this assessment is not required for program completion; however, a passing score is required for state certification. See GaPSC Rule 505-2-.26, CERTIFICATION AND LICENSURE ASSESSMENTS, Rule 505-2-.04, INDUCTION CERTIFICATE, and Rule 505-2-.153, EDUCATIONAL LEADERSHIP.

6. Program Completion Requirements

(i) GaPSC-approved EPPs shall require candidates completing initial preparation programs to have a 2.5 or higher overall GPA on a 4.0 scale. Non-traditional (GaTAPP) program providers do not issue grades and therefore are not subject to this requirement; however, non-traditional EPPs must verify all program requirements are met as specified in GaPSC Rule 505-3-.05 GEORGIA TEACHER ACADEMY FOR PREPARATION AND PEDAGOGY.

(ii) GaPSC-approved EPPs may accept professional learning, prior coursework, or documented experience the EPP deems relevant to the program of study in lieu of requiring candidates to repeat the same or similar coursework for credit.

(iii) GaPSC-approved EPPs shall provide, at appropriate intervals, information to candidates about instructional policies and requirements needed for completing educator preparation programs, including all requirements necessary to meet each candidate’s certification objective(s), the availability of EPP services such as tutoring services, social and psychological counseling, job placement and market needs based on supply and demand data.

(iv) GaPSC-approved EPPs shall provide performance data to candidates that they may use to inform their individual professional learning needs during induction.

(f) Verification of Program Completion and Reporting of Ethics Violations

1. GaPSC-approved EPPs shall designate an official who will provide evidence to the GaPSC that program completers have met the requirements of approved programs, including all applicable Special Georgia Requirements, and thereby qualify for state certification.

2. GaPSC-approved EPPs shall, through appropriate GaPSC reporting systems (e.g. Traditional Program Management System (TPMS) or the Non-traditional Reporting System (NTRS)) notify the GaPSC of program completion or program withdrawal within sixty (60) days of the event. EPPs shall also submit, in a timely manner, any documentation required of them by the GaPSC Certification Division for program completers seeking GaPSC certification.

3. GaPSC-approved EPPs shall ensure program completers meet all requirements of the approved program in effect at the time the candidate was officially admitted to the program and any additional program requirements with effective dates after program admission, as described elsewhere in this rule.
4. Should program completers return to their GaPSC-approved EPP more than five years after completion to request verification of program completion, providers shall require those individuals to meet current preparation requirements to assure up-to-date knowledge in the field of certification sought.

5. GaPSC-approved EPPs shall immediately report to GaPSC any violations of the Georgia Code of Ethics for Educators by enrolled candidates. Failure to report ethical violations may result in changes in approval status that could include revocation of approval. Out-of-state EPPs placing candidates in Georgia schools for field and clinical experiences are expected to collaborate with Georgia B/P-12 partners to immediately report ethics violations. Procedures for reporting ethical violations are addressed in the guidance document accompanying this rule.

505-3-.05 Georgia Teacher Academy for Preparation and Pedagogy (GaTAPP)

(1) Purpose. This rule states specific content standards and requirements for approving non-traditional preparation programs designed for the initial preparation of transition teachers and supplements requirements in Rule 505-3-.01 REQUIREMENTS AND STANDARDS FOR APPROVING EDUCATOR PREPARATION PROVIDERS AND EDUCATOR PREPARATION PROGRAMS, 505-3-.02 EDUCATOR PREPARATION PROVIDER ANNUAL REPORTING AND EVALUATION, and Certification Rules 505-2-.01 GEORGIA EDUCATOR CERTIFICATION, 505-2-.08 PROVISIONAL CERTIFICATE and 505-2-.05 PROFESSIONAL CERTIFICATE. This rule also states specific content standards and requirements for approving non-traditional preparation programs that prepare professionally certified teachers to teach any subject in grades P-5. Field Specific requirements for the Elementary Education Certification-Only Program through GaTAPP (grades P-5) are described at www.gapsc.com FIELD SPECIFIC REQUIREMENTS. This extension to the GaTAPP rule supplements the requirements in rule 505-3-.14 ELEMENTARY EDUCATION (P-5) PROGRAM.

(2) Definitions.

(a) Academic Year (One): Consists of two (2) full semesters, one of which must include the beginning of a school year.

(b) Candidate Support Team (CST): A team of school-based leaders, mentors, Educator Preparation Provider (EPP) supervisors, and content specialists who monitor, assess, and coach candidates using performance assessment data to improve teaching performance in order to improve student learning;

(c) Coaching: Assisting candidates in transferring knowledge, skills, and understandings in the GaTAPP program into professional practice.

(d) Clinical Practice/Field Experiences:

1. Clinical Practice: Candidates are immersed in the learning community and provided opportunities to develop and demonstrate competence in the professional roles for which they are preparing while supported by the Candidate Support Team. The job-embedded, hands-on experiences provide candidates with an intensive and extensive opportunity to be monitored, assessed, and coached. Performance assessment data from these experiences inform the Individualized Induction Plan/ Professional Learning Plan.

2. Field Experiences: Various early and ongoing field-based opportunities, in which candidates may observe, assist, tutor, instruct, and/or conduct research. Field experiences occur outside the candidate’s classroom in settings such as schools, community centers, or homeless shelters.

(e) Dispositions: Moral commitments and professional attitudes, values, and beliefs that underlie educator performance and are demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues, and communities.

(f) Elementary Education Certification-Only Program: A one year supervised program administered through GaTAPP to prepare teachers with Professional teaching certification in any field issued by the GaPSC with the knowledge, skills, and dispositions to teach all subjects in grades P-5. This program requires an induction component that includes coaching and elementary pedagogical and content instruction for one full academic year. This program does not lead to a degree or college credit.

(g) Highly Qualified Status: Although no longer a federal mandate, candidates admitted into GaTAPP programs have a minimum of a bachelor's degree, Georgia Provisional teacher certification, and verified content knowledge in the subjects they teach. Candidates seeking certification in non-core academic teaching fields are not required to
meet "highly qualified requirements" and must complete the program to receive an Induction or Professional certificate by the end of the Provisional certificate validity period.

(h) **Individual Induction Plan (IIP):** A dynamic plan of action to improve candidate performance collaboratively developed by the CST and the candidate based on performance assessment data. The IIP will be used by the mentor/supervisor to coach the candidate in the twenty-four (24) competencies and dispositions delineated in this rule (also known as a Professional Learning Plan).

(i) **Induction:** A period of time (frequently up to three years) when educators are new to a teaching or leader position or new to the state, a school, or a school district. The State Induction Guidance Documents provide a framework for how school districts and their partners will structure a system of support for the novice teacher and new leader in their first years of service. In GaTAPP, Induction is the first three years as a newly employed classroom teacher who must receive mentoring/coaching from the Candidate Support Team throughout the induction period.

(j) **Non-traditional Preparation:** Post-baccalaureate programs designed for individuals who did not prepare as educators during their undergraduate studies. These preparation programs, designed to lead to an Educator Preparation Provider's recommendation for certification but not a degree, often accommodate the schedules of adults and recognize their earlier academic preparation and life experiences. In most instances, candidates are employed as educators while enrolled. An example is the Georgia Teacher Academy for Preparation and Pedagogy (GaTAPP) where employment is required for enrollment.

(k) **Regionally Accredited:** A process for assessing and enhancing academic and educational quality through voluntary peer review by a regionally accepted accrediting body to ensure the school district is meeting its standards of educational quality.

(l) **Special Education Consultative Teacher:** A Special Education teacher who works collaboratively with a content area teacher of record in all content and is not responsible for final scores for students. Candidates in the GaTAPP program are required to develop unit and/or lesson plans based on the Georgia state-approved P-12 performance standards in an academic content area(s) of concentration and to implement those plans in the classroom.

(m) **Special Education Teacher of Record:** A Special Education teacher who is responsible for the curriculum, instruction, assessment, and record maintenance for the P-12 learner in any of the five academic content concentrations, regular or remedial.

(n) **Transition teachers:** Individuals who wish to transition into teaching from another career path, did not complete a teacher education program, and who have never held a professional teaching certificate in any state or country.

3. **General Requirements.**

(a) Educator Preparation Provider Requirements.

1. **Eligible Program Providers:** GaTAPP programs may be proposed by any GaPSC-approved EPP that can verify, through the program approval process, the ability to provide non-traditional preparation that complies with the definition of GaTAPP and to provide programs that meet all requirements and standards delineated in this rule. GaPSC-approved EPPs at local education agencies shall offer GaTAPP only to those candidates employed by that school system.

Such Rules will be available for inspection by the public on the Department's website either as a part of the Department's Transportation Rulebook or otherwise.

(5) In the Federal Motor Carrier Safety Regulations adopted by reference in this Rule and applicable throughout this Chapter, any reference to the "Operations Manager" and/or "Associate Administrator, Federal Motor Carrier Safety Administration," shall be interpreted to mean Commissioner, Georgia Department of Public Safety, except insofar as

All references to "interstate" commerce in the Federal Motor Carrier Safety Regulations adopted hereby shall be interpreted for the purposes of this Chapter to mean "intrastate" commerce in Georgia. It is the intent of the Department that the Rules of this Chapter and rules, regulations, and orders promulgated in accordance with this Chapter (including its motor carrier safety rules) shall apply only to intrastate carriers and operations.

(d) The form includes a legible policy number; and

(e) The form includes a legible counter-signature.
(8) To the extent that the Department is authorized or required by law to establish minimum adequate insurance amounts for an applicant or certificate holder but those amounts are not established elsewhere in this Chapter, the applicant or certificate holder shall be required to secure and have in effect a policy of insurance issued by an insurance company licensed to do business in this state, which policy provides for the protection of passengers, property, and the public against injury proximately caused by the negligence of such motor carrier, its servants, or its agents in an amount equal to or greater than the following:

(10) The Department may, upon becoming aware that a motor carrier has fallen out of compliance with this Rule, suspend or revoke the certificate of any holder of a certificate under this Subchapter in accordance with Rule 570-38-2.13 or deny the application of an applicant for a certificate under this Subchapter in accordance with Rule 570-38-2.09, or take any other action against the motor carrier authorized by law.

(11) A certificate holder whose certificate has been suspended as a result of a lapse in insurance coverage will not be entitled to have their certificate reinstated until and unless that certificate holder provides acceptable proof of minimum insurance as required by this Rule. Subject to the requirements of Rule 570-38-2.13, the Department shall be entitled to revoke without any further action any certificate that has been suspended for six months or more due to a certificate holders' lapse in insurance and continued failure to provide acceptable proof of minimum insurance as required by this Rule.

(b) Except where otherwise provided by law or these Rules or to the extent a carrier and customer have otherwise agreed, customers shall be responsible for preparing and packing all small household goods of less than one cubic foot displacement into boxes, packages, cartons, or other containers of sufficient size and strength to make loading, transportation, and unloading of such goods and containers reasonably safe and practicable. Customers who have prepared and/or packed articles for transportation or arranged for a person or entity other than the carrier providing transportation in accordance with these Rules to prepare and/or pack articles for transportation shall cause boxes, packages, or cartons to be properly identified and marked with the general contents when such contents are not otherwise readily apparent.

(c) Articles that are required to be prepared and packed in a container shall be securely enclosed in such container by the person(s) preparing and packing the container so that no ends or other parts protrude and in a manner that will provide reasonable protection from damage to or loss of such articles.

(d) Subparagraph (a) of this paragraph notwithstanding, a household goods carrier may offer to prepare and pack a customer's articles for transportation and may charge a customer for such service in accordance with the Department's maximum rate tariff. In the event such inspection is not possible or feasible, the carrier may require that other evidence be provided which demonstrates the actual character of the article or contents of the article in

question. A carrier shall not be required to transport or perform any services relating to an article for which a requested inspection cannot be performed or is refused or for which insufficient evidence demonstrating the actual character of the article or contents of the article in question is provided.

(f) Unless otherwise provided by law, these Rules, or the agreement of the customer and the carrier, a carrier is not obligated to transport any articles that the customer was obligated to prepare or pack for transportation if said customer has not properly prepared or packed such articles in a manner that will provide reasonable protection for such articles from damage or loss and provide for reasonably safe transportation of such articles.

(2) Transportation of Goods Likely to Cause Damage

Notwithstanding the requirements of Rule 570-38-3-.03 and any duty established thereby,

(a) No household goods carrier shall be required to accept for shipment any articles which are reasonably likely to damage the carrier's equipment or other property;

(b) No household goods carrier shall be required to perform pickup or delivery or render any services at a place or places from or to which it is impracticable to operate vehicles because of the condition of roads, streets, driveways, alleys, or approaches thereto, inadequate loading or unloading facilities, or any other reason not caused by the action or inaction of the carrier; and

(c) No household goods carrier shall accept for shipment any articles which cannot be removed from the premises at which they are located without damage to the articles or the premises.

(3) Impossible or Impractical Delivery; Delivery Contingent Upon Payment

(a) A carrier shall make reasonable efforts to ascertain the characteristics and accessibility of each point of origin, delivery location, and the articles comprising a shipment to determine the possibility, practicability, and labor required for loading, transportation, and unloading of such articles. Such efforts shall be made prior to providing an estimate or bill of lading to a customer and prior to performing any transportation or ancillary services. A carrier that fails to make such efforts but nevertheless provides transportation or ancillary services to a customer shall not be entitled to charge a customer for any ancillary services in accordance with this paragraph but shall be obligated to complete loading, transportation, and unloading of the customer's shipment as agreed and without additional charge to the extent such loading, transportation, and unloading is possible. To the extent such loading, transportation, and unloading is not possible, the carrier may take other actions in accordance with subparagraphs (b) and (c) of this paragraph, but shall not be entitled to charge a customer for any such actions taken or services provided.

(b) In the event a household goods carrier determines after complying with its duty under subparagraph (a) of this paragraph or arrives at a point of origin and determines that loading of some or all of the articles of the shipment directly from the point of origin to the transporting vehicle is physically impractical, impossible, or will require additional labor due to inaccessibility of the building, its structure, the nature of an article or articles included with the shipment, the carrier may:

1. Decline to load those articles for which loading is impossible or impractical and otherwise complete loading as agreed;

2. Decline to provide or reschedule transportation or ancillary services, in which case the customer shall be refunded for any services not utilized;

3. If (1) the carrier has complied with subparagraph (a) of this paragraph; (2) the carrier is capable of doing so; and (3) the customer so agrees, load the affected articles by ancillary means, in which case the carrier will be authorized to charge the customer for any such ancillary services in accordance with these Rules and the Department's maximum rate tariff.

4. Resolve the matter by any other agreement mutually acceptable to the carrier and the customer.
(c) In the event a household goods carrier determines after complying with its duty under subparagraph (a) of this paragraph or transports a shipment to a destination address in accordance with these Rules and determines that delivery of some or all of the articles of the shipment directly from the transporting vehicle to the destination is physically impractical, impossible, or will require additional labor due to inaccessibility of the building, its structure, the nature of an article or articles included with the shipment, the carrier may:

1. Deliver the portion of the shipment for which delivery is physically impractical or impossible to its warehouse or the warehouse of a designee in accordance with the provisions of Rule 570-38-3-.10;

2. Deliver the portion of the shipment for which delivery is physically impractical or impossible to the nearest point of approach to the customer's desired location; or

3. If (1) the carrier has complied with subparagraph (a) of this paragraph; (2) the carrier is capable of doing so; and (3) the customer so agrees, complete delivery to the desired location by ancillary means from the transporting vehicle to the customer's desired location, in which case the carrier will be authorized to charge the customer for any such ancillary delivery and services in accordance with these Rules and the Department's maximum rate tariff.

4. Resolve the matter by any other agreement mutually acceptable to the carrier and the customer.

(d) In the event a household goods carrier transports a shipment to a destination address in accordance with these Rules and determines that a customer is unable or unwilling to pay or arrange for payment in accordance with the requirements of these Rules before the carrier completes delivery or relinquishes possession of the articles it transported, the carrier may take the actions described in paragraph (2) of Rule 570-38-3-.15.

(4) Hoisting Service

For the purposes of this paragraph, the term "hoisting service" means a service by which a load is lifted and/or lowered by means of a drum or lift-wheel around which one or more ropes, chains, cables, or similar instrumentalities are wrapped, regardless of the means by which such device is operated. The following regulations shall apply with respect to hoisting services:

(a) A household goods carrier shall only perform hoisting service if the carrier possesses necessary equipment and personnel and conditions are such to properly perform such service without reasonable likelihood of causing damage to any property or endangering the health or safety of any person.

(b) In the event the customer of a household goods carrier requests hoisting service but the carrier does not possess the necessary equipment or personnel for such service, the carrier may arrange for qualified hoisting service at the customer's expense if it is available. In such circumstances the carrier may advance the amount necessary to perform the hoisting service, which the customer shall reimburse to the carrier upon proof of payment by the carrier. The carrier shall not be responsible for damage to the property of the customer caused by the use of a third-party hoisting service utilized in conjunction with this subparagraph.

(c) If some or all of a customer's articles requires a hoisting service for delivery, but the transporting household goods carrier cannot perform a hoisting service in accordance with this Rule and cannot arrange for qualified hoisting service at the customer's expense, the carrier may deliver the articles in accordance with the rules for impossible or impractical delivery established in paragraph (2) of this Rule.

(5) Frozen or Refrigerated Goods

(b) Subparagraph (a) of this paragraph notwithstanding, a carrier shall wrap, cover, or otherwise protect from damage articles have surfaces that are liable to damage by scratching, marring, or chafing but are of sufficient strength that a carrier can pack other articles against or on top of such articles in a reasonably safe and practicable manner. Such wrapping, covering, or protection shall be provided using furniture pads, covers, burlaps, or other wrappers that are provided by the carrier and a part of the carrier's regular equipment, and shall be included at no additional cost to the customer in the rates for transportation provided by the Department's maximum rate tariff.

(7) **Musical Instruments**

Musical instruments that require more protection during transportation than the level afforded by the carrier's normal equipment in accordance with subparagraph (6)(b) of this Rule must be packed by the customer in the instrument's designed case or other adequate container that provides reasonable protection for the purposes of transportation.

(8) **Mechanical Equipment**

Except to the extent otherwise agreed by the customer and household goods carrier, mechanical equipment and other articles of a similar nature including but not limited to appliances, stereo equipment, electronics, power tools, and any other articles the surface of which can be reasonably protected by the carrier's regular equipment in accordance with subparagraph (6)(b) of this Rule must have all motors, mechanical parts, loose accessories and ornamentation securely fastened, bolted, or tied down by the customer in a manner that can reasonably be expected to prevent loss, damage, or impairment of functions while being transported or handled by the carrier.

(b) The articles shall be stored at the warehouse or storage facility in the name of the customer subject to a lien for transportation charges and other charges authorized by the Department's maximum rate tariff;

(d) In accordance with Rule 570-38-3-.17(9), the carrier's liability with respect to such articles shall cease upon the unloading of the articles at the warehouse or storage facility.

(10) **Third-Party Services Ordered by Carrier at Specific Request of Customer**

In such circumstances,

(a) The customer shall be responsible for actual charges assessed for any such service to the extent the customer directs the carrier to obtain such service from a third party and the carrier does so arrange;

(b) The carrier shall not be responsible for the quality of products furnished, services performed, or damages to property or premises as a result of engaging any such third party; and

570-38-3-.06 Maximum Rates Established by the Department

(1) The Department shall establish a maximum rate tariff applicable to carriers transporting household goods in this State.

(2) The maximum rate tariff established by the Department shall be available to household goods carriers at the Department's website, and the Section shall make available to household goods carriers a copy of the maximum rate tariff upon reasonable request.

(3) In accordance with the Department's authority under O.C.G.A. § 40-1-8(c)(1), the maximum rate tariff established by the Department pursuant to this Rule may include and impose upon household goods carriers additional rules, regulations, restrictions, duties, and other provisions relevant to the operation of household goods carriers and their compliance with the maximum rates established by the Department. 570-38-3-.07 Rules Pertaining to Application of Maximum Rate Tariff

Household goods carriers subject to the Department's Maximum Rate Tariff ("tariff") shall be subject to the following rules:

(1) Method for Determining Distances Relating to Rates or Fares

(a) To the extent the tariff contains rates based upon travelled or projected mileage, the applicable distance used to calculate charges based upon that rate shall be determined by use of any of the following sources:

1. Google Maps or a similar internet-based mapping service which provides the shortest driving directions;

2. Rand McNally mileage & routing software or a similar mileage and routing software for motor carriers which provides the shortest driving directions for commercial motor vehicle operators; or

3. Upon written approval from the Department, any other source when the methods provided in subparagraphs (1) and (2) are not available or not feasible for use.

(b) When, at the specific request of a customer, a carrier travels a route that results in mileage that exceeds that calculated under subparagraph (a) of this paragraph, said carrier may use the actual mileage travelled to calculate charges based upon actual or projected mileage. In addition, such carrier may add up to a 10% surcharge to such rate if the transportation of the shipment could have been accomplished over a shorter distance without unreasonable risk of damage or loss to the customer's or other property and use of such shorter route was otherwise feasible.

(2) Disposition of Fractions of Cents and Hours

(a) When application of the tariff will result in a charge to a customer which includes a fraction or portion of one cent, that fraction or portion of a cent shall be rounded down to the nearest cent if it is less than one half of a cent or up to the nearest cent if it is one half of a cent or more.

(b) When calculating rates and charges based upon time, the following rules shall apply to periods of time less than an hour to which rates and charges are to be calculated:

1. Actual time spent of 15 minutes or less shall be charged as one-quarter of an hour;

2. Actual time spent of more than 15 minutes but no more than 30 minutes shall be charged as one half of an hour;

3. Actual time spent of more than 30 minutes but no more than 45 minutes shall be charged as three quarters of an hour; and

4. Actual time spent of more than 45 minutes but less than 60 minutes shall be charged as one hour.

(3) Determining Charges Based Upon Hourly Rates for Transportation

(a) Except as provided in subparagraph (b) of this Rule, the time charged in accordance with the hourly rates for transportation shall begin with the arrival of the vehicle(s) and personnel at the designated origin or pick-up location and shall end with the completion of all of the carrier's services at the final destination or drop-off point.

(b) A carrier charging a customer in accordance with the Department's hourly rates for transportation shall be entitled to charge a customer for up to one hour of travel time to a service location at a rate not to exceed the applicable hourly rate for transportation established in the Department's maximum rate tariff.

(c) A carrier who communicates to a customer that a certain number of vehicles and personnel will be used to perform transportation and services relating to a shipment shall not be entitled to charge a customer at rates corresponding to a larger number of vehicles or personnel unless the carrier receives written authorization to do so from the customer prior to the commencement of services and/or transportation at the increased rate(s).
(d) Household goods carriers subject to this Chapter which are utilizing the hourly rates for transportation in the Department’s maximum rate tariff are authorized to require customers to commit to a minimum of two hours of services governed by such hourly rates on non-holiday weekdays and a minimum of three hours of services governed by such rates on weekends and state or federal holidays.

(e) Rates for ancillary non-transportation services performed by a carrier at the request of a customer shall not exceed the hourly rates for transportation described in the Department’s maximum rate tariff if the transportation of the shipment involved is also governed by those rates.

(4) Minimum Weight When Utilizing Weight and Distance Rates

Except as otherwise provided by law or in these Rules, a household goods carrier transporting any shipment of household goods weighing less than 1,000 pounds is authorized to use a constructive shipment weight of up to 1,000 pounds for the purposes of calculating charges for said shipment using the weight and distance tariff rates.

(5) Determining Weight of Household Goods for Transportation

(a) To the extent that a household goods carrier is required to determine the weight of articles in order to apply a rate or charge a customer in accordance with the Department's maximum rate tariff, the following procedure shall be used by the carrier:

1. A tare weight of the vehicle(s) which will transport the articles in question shall be calculated by having the vehicle weighed prior to the transportation or loading onto the vehicle of the articles. The vehicle(s) shall be weighed while unoccupied, with a full gasoline tank or as close to a full tank as possible. In accordance with subparagraph (e) of this Rule, tare weights shall include the weight of any articles being transported during the same trip that do not belong to the customer for whom a net weight is being calculated.

2. After the vehicle has been loaded with the customer's articles, a gross vehicle weight shall be determined by weighing the vehicle(s) again prior to delivery of the articles.

3. The net weight of the articles shall be determined by subtracting the tare weight from the gross weight. This net weight shall be used for the purposes of applying rates and charges based upon the weight of the customer's articles.

(b) Vehicles weighed for the purposes of determining their tare weight or gross weight shall contain all blankets, pads, chains, dollies, hand trucks, and other equipment needed for the transportation and services contracted by the customer. Such vehicles shall be weighed by a certified weigh-master or weight inspector on a certified scale.

(c) If no scale conforming to the requirements of this Rule is available at the point of origin where articles are to be loaded upon a household goods carrier's vehicle for transportation or within a 10-mile radius of such point, a constructive net weight may be used for the purposes of determining the weight of the household goods. Such weight shall be calculated at a rate of seven pounds per cubic foot of properly loaded space.

(d) The gross weight, tare weight, and net weight or constructive net weight of articles transported shall be shown upon the Bill of Lading and Freight Bill pertaining to the transported articles whenever such weights are relevant to the rates or charges applied. All tare, gross, actual net weights, and constructive net weights shall be properly certified to by the person or persons who ascertained such weights. Except in circumstances in which a carrier is authorized to utilize a constructive weight for a customer's articles, a carrier must obtain a weight ticket which attests to the tare and gross weight used to calculate the weight of a customer's articles and such weight ticket must accompany the Bill of Lading and Freight Bill pertaining to those goods.

(e) As provided for in paragraph (4) of this Rule, a household goods motor carrier transporting any shipment of household goods weighing less than 1,000 pounds is authorized to use a constructive shipment weight of up to 1,000 pounds for the purposes of calculating charges for said shipment using the weight and distance tariff rates.
(f) Notwithstanding the other requirements of this paragraph, if a household goods carrier estimates that a customer's articles to be transported by a vehicle do not exceed 1,000 pounds, the net weight of those articles may be determined by weighing them independently on a scale that complies with the requirements of this paragraph.

(g) Notwithstanding the other requirements of this Rule, a household goods carrier shall include the weight of any articles not belonging to a particular customer in the tare weight of the vehicle when calculating the net weight of that customer's articles in any instance in which a vehicle used by a household goods carrier will carry the articles of more than one customer during a trip.

(h) Notwithstanding the other requirement of this paragraph, a carrier is authorized to utilize a constructive weight for a customer's articles as provided in paragraph (6) of this Rule under the circumstances described therein for the purposes of calculating charges for a shipment using the weight and distance tariff rates.

(i) A customer may request that one re-measurement each of a vehicle's tare and/or gross weight be taken in the customer's presence and at the customer's expense in accordance with the Department's maximum rate tariff. Such request must be made prior to delivery of the customer's shipment. A carrier shall not refuse to complete delivery or relinquish possession of any property it transported based upon a customer's refusal to pay or make payment arrangements for charges that were unexpectedly incurred and/or not included in the bill of lading prior to the provision of transportation or other services. 570-38-3-.17 Claims for Overage, Loss, or Damage

(1) A claim by a customer of a household goods carrier regulated under these Rules that said carrier charged in excess of the amount(s) authorized by these Rules or lost or damaged property of the customer must be submitted to the carrier in writing (print or electronic) no more than 90 days after delivery or - where the carrier failed to deliver such property - scheduled delivery. If a carrier represents to a customer that delivery is expected at a later date than originally scheduled, this 90-day period shall not commence until the later scheduled delivery date occurs.

(2) A carrier of household goods shall handle to completion all claims for overcharge, loss, or damage in a reasonably timely manner and within 90 days of the filing of the claim with the carrier to the extent feasible. To the extent that a carrier is not able to handle to completion a claim for overcharge, loss, or damage within 90 days of the filing of the claim with the carrier, the carrier shall be required to provide a reasonable explanation as to the cause of the delay, and shall still be required to handle the claim to completion within a reasonable time under the circumstances.
(3) For the purposes of this rule, "completion" means payment or refund of the claim to the claimant, notification to the claimant that the carrier has determined it does not own any amount to the claimant under the relevant law and/or agreement, return to value of any and all claimed lost or damaged property or damage either through replacement or repair, or any other method by which a claim is entirely addressed or the carrier notifies a claimant of the reason(s) why the complaint cannot or will not be entirely addressed.

(4) Except to the extent prohibited by law, claims for loss or damage shall be paid by the carrier at fault and claims for overage shall be paid by the carrier which collected the overage.

(5) Except as provided in paragraph (6) of this Rule, a carrier evaluating a claim for loss or damage shall inspect any and all reported damage and provide for repairs or compensation based on the level of liability selected and defined in the Addendum to Uniform Household Goods Bill of Lading (Shipper Declaration of Value) form. A customer filing a claim for loss or damage under this Rule shall give the carrier a reasonable opportunity to inspect any property alleged to be damaged or lost or else such customer shall not be entitled to full return to value in accordance with this Rule.

(6) Except to the extent prohibited by law, a customer may make a claim for damage or loss to the customer's dwelling or the location comprising the point-of-origin or destination for services provided by a household goods carrier governed by these Rules. Such claims may include damage to or loss of items including but not limited to walls, floors, steps, ceilings, rails, doors, driveways, lawns, fences, patios, or garages. Such items are not required to be listed in the Shipper's Declaration of Value form in order for a carrier to be held responsible for loss or damage to said items. Transit-related damage to a customer's dwelling or surrounding area is not subject to or governed by the Shipper's Declaration of Value form, which is only intended to relate to a customer's household goods articles. If any such damage is determined to be transit related, the carrier shall repair or restore to original condition or otherwise make whole the claimant by compensation.

(7) In no event shall the carrier's liability for lost or damaged property under this Rule exceed the cost of repairing or replacing the property lost or damaged with material of like kind and quality not exceeding the actual cash value of the property at the time and place of loss, nor shall the carrier's liability exceed the values established in accordance with Rule 570-38-3-.10.

(8) No carrier subject to regulation under this Subchapter shall collect or require a shipper to pay any charges relating to lost or damaged goods or articles when a shipment is completely or totally lost or destroyed in transit, provided however that the carrier shall be entitled to collect and the customer shall be required to pay any specific valuation charges that are due to the carrier for such shipment. This paragraph shall not apply to the extent that any such loss or destruction is due to the act or omission of the customer.

(9) Except to the extent otherwise required by law, in no event shall a carrier be liable for:

(a) Loss or damage to any property occurring after the property has been delivered to or received by the customer or the customer's agent;

(b) Loss or damage to any property occurring before the property has been handled or loaded by the carrier;

(c) Articles of extraordinary value including, but not limited to, documents, currency, money, jewelry, watches, precious stones, accounts, bills, deeds, evidences of debt, securities, notes, collectibles, articles of peculiarly inherent value, precious metals or articles manufactured therefrom, or any article with a value in excess of $100.00 per pound, except to the extent that such items are specifically listed in the bill of lading;

(d) Damage or loss to articles that were packed and/or prepared by the customer or the customer's agent to the extent the damage was caused by the negligence of the customer or the customer's agent in packing and/or preparing such articles for transportation; or

(e) The quality of products furnished, services performed, or damages to property or premises as a result of engaging any third person or persons in accordance with Rule 570-38-3-.05(10).
(f) Constructive damage to household goods articles that comprise part of a "matched set" of articles that did not actually receive damage. Except to the extent otherwise required by law, in instances in which a carrier is liable for one or more articles comprising a matched set or group of articles, the carrier shall only be liable for repair, compensation, or replacement of the lost or damaged article(s) and shall not be liable for repair, compensation, or replacement of the entire set or group of articles.

(1) The Department shall establish a maximum rate tariff applicable to towing and storage firms performing nonconsensual towing in this State.

(2) The maximum rate tariff established by the Department shall be available to towing and storage firms and the public at the Department's website, and the Section shall make available to towing and storage firms a copy of the maximum rate tariff upon reasonable request.

To the extent that a maximum rate tariff includes any such rules, regulations, restrictions, duties, and/or other provisions, it shall be adopted by administrative order in accordance with the requirements of O.C.G.A. § 40-1-8(c)(1).

(4) At least 30 days prior to any change in the maximum rate tariff established by this Rule, the Department shall make available a copy of the proposed revised tariff to NCT permit holders and the public and shall conspicuously note thereupon the expected effective date of the revised tariff. The Department may, but shall not be required to, modify the effective date of the proposed revised tariff in response to comments received and modifications made to the proposed revised tariff.

(5) No towing and storage firm performing nonconsensual towing services shall charge a rate higher than the rates prescribed by the Department's maximum rate tariff for any such services. A towing and storage firm that violates this rule is subject to adverse action pursuant to Rule 570-38-1-.09.

(6) No towing and storage firm shall charge or collect a storage fee or a fee that is effectively a storage fee:

(a) for the first 24-hour period from the time a motor vehicle is removed from private property;

(b) for any day on which the impound lot where a vehicle is stored is closed or the vehicle is otherwise unavailable to the vehicle owner for redemption; or

570-38-7-.14 Signs Specifications

(1) Owners of private property shall place signs that conform to the requirements of this Rule within 50 feet of each designated entrance to a parking lot or parking area where parking prohibitions apply and where they have authorized non-consensual towing, except that if it is not feasible to place such signs within 50 feet of such entrances due to terrain, landscaping, or other factors, such signs shall be placed as close as feasible to such entrances and shall otherwise comply with the requirements of this Rule. Where there is no designated entrance, such signs shall be posted so as to be clearly visible from each and every parking space. Such signs shall be a minimum of 12 inches by 18 inches with a minimum of ¾ inch lettering. The words "Private Parking" shall be printed in Bold with a minimum of 1½ inch lettering. Signs need not be visible from areas of private property that are not designed for parking of vehicles so long as the owner of such property has posted signs that are otherwise in compliance with this rule.

(2) Such signs located at a designated entrance to a parking lot shall be at least four feet above the site grade. Where there is no designated entrance, such signs shall be six feet above the site grade. Posted signs must be free of any natural or man-made interference and be clearly visible.

As such, a towing and storage firm shall not be entitled to charge in excess of its "minimum" fees as listed on a sign required by this Rule by virtue of the fact that rates applicable to towing and storage have increased from the rate listed upon such sign(s). Only the applicability of a higher rate due to the nature of the vehicle being towed or the service performed shall justify charges in excess of the listed "minimum."

(6) No vehicle shall be relocated from private property which does not, at the time of the tow and for at least 24 hours prior thereto, have signs posted which are in substantial compliance with the provisions of paragraphs (1)
through (5) above. The provisions of this paragraph shall not apply to owner(s) of private residential property containing four or less residential units.
