A dentist who represents himself or herself as an "endodontist," "specialist in endodontics" or similar term, has completed the educational requirements stated in the American Dental Association's specialty practice guidelines in existence at the time representation is made.

(c) Oral Pathology: Oral Pathology is that branch of science that deals with the nature of the diseases affecting the oral and adjacent regions, through study of its causes, its processes and its effect, together with the associated alterations of oral structure and function. The practice of oral pathology shall include the development and application of this knowledge through the use of clinical, microscopic, radiograph, biochemical or other such laboratory examinations or procedures as may be required to establish a diagnosis and/or gain other information necessary to maintain the health of the patient, or to correct the result of structural or functional changes produced by alterations from the normal. A dentist who represents himself or herself as an "oral pathologist," "specialist in oral pathology" or similar term has completed the educational requirements stated
in the American Dental Association's specialty practice guidelines in existence at the time the representation is made.

(d) Oral and Maxillofacial Surgery: Oral and maxillofacial surgery is the specialty of dentistry that includes the diagnosis, surgical and adjunctive treatment of diseases, injuries and defects involving both the functional and esthetic aspects of the hard and soft tissues of the oral and maxillofacial region. A dentist who represents himself or herself as an "oral and/or maxillofacial surgeon," "specialist in oral and/or maxillofacial surgery" or similar term has completed the educational requirements stated in the American Dental Association's specialty practice guidelines in existence at the time the representation is made.

(e) Orthodontics: Orthodontics is that area of dentistry concerned with the supervision, guidance and correction of the growing of mature dentofacial structures, including the conditions that require movement of teeth or correction of malrelationships and malformations of their related structures and the adjustment of relationships between and among teeth and facial bones by the application of forces and/or the stimulation and redirection of functional forces within the craniofacial complex. Major responsibilities of orthodontic practice include the diagnosis, prevention, interception and treatment of all forms of malocclusion of the teeth and associated alterations in their surrounding structures; the design, application and control of functional and corrective appliances; and the guidance of the dentition and its supporting structures to attain and maintain optimum occlusal relations in physiologic and esthetic harmony among facial and cranial structures. A dentist who represents himself or herself as an "orthodontist," "Specialist in orthodontics" or similar term has completed the educational requirements stated in the American Dental Association's specialty practice guidelines in existence at the time the representation is made.

(f) Pediatric Dentistry: Pediatric Dentistry is the practice and teaching of comprehensive preventive and therapeutic oral health care of children from birth through adolescence. It shall be construed to include care for special patients beyond the age of adolescence who demonstrate mental, physical and/or emotional problems. A dentist who represents himself or herself as a "pediatric dentist," "specialist in pediatric dentistry" or similar term has completed the educational requirements stated in the American Dental Association's specialty practice guidelines in existence at the time the representation is made.

(g) Periodontics: Periodontics is that branch of dentistry that deals with the diagnosis and treatment of disease of the supporting and surrounding tissues of the teeth. The maintenance of the health of these structures and tissues, achieved through periodontal treatment procedures, is also considered to be the responsibility of the dentist. The scope shall be limited to preclude permanent restorative dentistry. A dentist who represents himself or herself as a "periodontist," "specialist in periodontics" or similar term has completed the educational requirements stated in

Chapter 150-13. SEDATION PERMITS.

Rule 150-13-.01. Conscious Sedation Permits.

(1) When the intent is minimal sedation (anxiolysis), which is defined as a minimally depressed level of consciousness that retains the patient's ability to independently and continuously maintain an airway with unaffected ventilatory and cardiovascular function and respond normally to tactile and verbal stimulation, a permit for conscious sedation is not required.

(a) When the intent is minimal sedation for adults, the initial dosing is no more than the maximum recommended dose (MRD) of a drug that can be prescribed for unmonitored home use. Nitrous oxide/oxygen may be used in combination with a single enteral drug in minimal sedation. For adults, supplemental dosing that may be necessary for prolonged procedures should not exceed one-half of the initial drug dose and should not be administered until the dentist has determined that the clinical half-life of the initial dosing has passed. The total aggregate dose must not exceed 1.5x the MRD on the day of treatment.

(b) The use of preoperative sedatives for children (age 12 and under) except in extraordinary situations must be avoided due to the risk of unobserved respiratory
obstruction during transport by untrained individuals. Children can become moderately sedated despite the intended level of minimal sedation. Should this occur, the guidelines for moderate sedation apply. For children, the American Dental Association supports the use of the American Academy of Pediatrics/American Academy of Pediatric Dentists Guidelines for Monitoring and Management of Pediatric Patients During and After Sedation for Diagnostic and Therapeutic Procedures.

(2) No dentist shall administer conscious sedation at the moderate level in Georgia in accordance with the definition of conscious sedation as defined by O.C.G.A. 43-11-1 unless such dentist possesses a permit based on a credentials review. The permits issued are Moderate Enteral Conscious Sedation or Moderate Parenteral Conscious Sedation.

(3) Moderate Conscious Sedation is defined as a drug-induced depression of consciousness during which patients respond purposefully to verbal commands, either alone or accompanied by light tactile stimulation. No interventions are required to maintain a patent airway, and spontaneous ventilation is adequate. Cardiovascular function is usually maintained.

(4) Moderate Enteral Conscious Sedation is any technique of administration in which the drugs are absorbed through the gastrointestinal tract or oral mucosa, i.e. oral, rectal, and sublingual.

(a) To obtain a Moderate Enteral Conscious Sedation Permit for adults, a dentist must provide certification of the following:

1. Completion of an ADA-accredited postdoctoral training program, which affords comprehensive training necessary to administer and manage moderate enteral conscious sedation; or

2. Completion of a continuing education course of a board approved organization, which consists of a minimum of twenty-four (24) hours of didactic instruction plus management of at least ten (10) adult case experiences which provides competency in moderate enteral conscious sedation which may include simulated cases.

(b) To obtain a Moderate Enteral Conscious Sedation Permit for pediatric patients (age 12 and under) a dentist must provide certification of a continuing education course of a board approved organization in pediatric sedation including twenty-four (24) hours of pediatric-specific instruction after adult training and ten (10) pediatric patient experiences to include supervised administration of sedation of at least five (5) patients; or completion of an ADA-accredited postdoctoral training program that provides pediatric sedation experience commensurate with these guidelines.
(5) Moderate Parenteral Conscious Sedation is any technique utilizing multiple sedation modalities, including intravenous, enteral, parenteral, and inhalation.

(a) To obtain a Moderate Parenteral Conscious Sedation Permit for adults, a dentist must provide certification of the following:

(1) Completion of an ADA-accredited postdoctoral training program, which affords comprehensive training to administer and manage moderate parenteral conscious sedation; or

(2) Completion of a continuing education course of a board approved organization consisting of a minimum of sixty (60) hours of didactic instruction plus management of at least twenty (20) patients, which provides competency in moderate parenteral conscious sedation.

(b) To obtain a Moderate Parenteral Conscious Sedation Permit for pediatric patients (age 12 and under) a dentist must provide certification of a continuing education course of a board approved organization in pediatric sedation including not less than sixty (60) hours didactic and supervised administration of sedation of twenty (20) patients; or completion of an ADA-accredited postdoctoral training program that provides pediatric sedation experience commensurate with these guidelines.

(6) The dentist issued a permit in either Moderate Enteral Conscious Sedation or Moderate Parenteral Conscious Sedation shall maintain a properly equipped facility for the administration of such sedation, staffed with appropriately trained and supervised personnel. The facility must have equipment capable of delivering positive pressure oxygen ventilation, a pulse oximeter, suction equipment that allows aspiration of the oral and pharyngeal cavities, an operating table or chair that allows for the patient to be positioned to maintain an airway, a firm platform for cardiopulmonary resuscitation, a fail-safe inhalation system if nitrous oxide/oxygen is used, equipment necessary to establish intravascular access, equipment to continuously monitor blood pressure and heart rate, appropriate emergency drugs per ACLS or PALS protocol, a manual or automatic external defibrillator, and a recovery area with available oxygen and suction. All of the aforementioned equipment, drugs, and supplies must be stationary and not subject to transfer from one facility to another. The applicant must submit verification that the facility meets the above requirements and shall be subject to an on-site inspection. The dentist and all support personnel must be certified in cardiopulmonary resuscitation at the basic life support healthcare provider level given by a board approved sponsor with update not to exceed two years per board rules 150-3-.08, 150-3-.09, 150-5-.04, 150-5-.05. Additionally, the dentist must have current certification in advanced cardiovascular life support (ACLS) for adult permits or pediatric advanced life support (PALS) for pediatric permits or an appropriate dental sedation/anesthesia emergency management course as approved by the board.  

(a) The dentist must take four (4) hours of continuing education every two (2) years in pharmacology, anesthesia, emergency medicine or sedation, as part of the 40 hour
requirement for license renewal, to maintain certification for the Enteral and/or Parenteral Conscious Sedation Permits. Certification of this continuing education must be submitted at renewal.

(b) The Georgia Board of Dentistry shall be given a written, thirty (30) day advance notification of the relocation of a facility, the addition of a facility or significant change to the facility.

(c) When a Certified Registered Nurse Anesthetist (CRNA) is permitted to function under the direction and responsibility of a dentist for the administration of conscious sedation, the operating dentist must have completed training and hold a valid conscious sedation permit issued by the board that incorporates the level and mode of sedation administered by the CRNA.

(d) The dentist must be certified in cardiopulmonary resuscitation at the basic and advanced levels and all support personnel who provide direct hands-on patient care must be certified in cardiopulmonary resuscitation at the basic life support level given by a board approved provider with an update not to exceed two years. While any conscious sedation procedure is underway, a minimum of two support personnel certified in basic cardiopulmonary resuscitation must be present.

(7) The requirements as set forth in this rule apply to all new permit applicants upon its effective date. Current, active sedation permit holders are grandfathered for educational requirements and will have until December 31, 2011 to comply with facility requirements including monitoring and emergency equipment, drugs, and supplies, and periodic emergency training requirements for the dentist and all support personnel.

(8) Permit fees: As shown in the schedule of fees adopted by the Board of Dentistry.

(9) Renewal Fees: As shown in the schedule of fees adopted by the Board of Dentistry.

(10) Late Renewal Fees: As shown in the schedule of fees adopted by the Board of Dentistry.

All objections made at the time of examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objections to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objection.

(2) All errors and irregularities in the notice of taking testimony by deposition shall be deemed waived unless written objection thereto is served upon the Board prior to the deposition, unless the errors and irregularities in the notice prevented such advanced writing, in which case, such objection shall be made expeditiously and prior to the beginning of the deposition. Objections to taking testimony by depositions because of disqualification of the officer before whom it is to be taken shall be deemed waived unless made before the deposition begins or as soon thereafter as the disqualification becomes known or could be discovered with reasonable diligence.

(3) Objections to the competency of a witness are not waived by failure to make them before or during the deposition, unless the ground of the objection is one which might have been obviated or removed if presented at that time. Errors and irregularities occurring at the taking of the testimony in the manner of taking the deposition, in the form that the questions are answered, in the oath of affirmation, or in the conduct of the parties, and errors of any kind which might be obviated, removed or cured if properly presented, shall be deemed waived unless reasonable objection thereto is made at the deposition.
(4) Errors and irregularities in the manner in which the testimony is transcribed or the deposition is prepared, certified, sealed, endorsed, transmitted, filed, or otherwise dealt with by the officer taking the testimony are waived unless a motion to suppress the deposition or some part thereof is made with reasonable promptness after such defect is, or with due diligence might have been, ascertained.

(5) The transcript of the deposition or the video deposition must be certified by a court reporter in order to be accepted as evidence upon filing with the Board or its designee.

(1) A person holding a current license issued by the Georgia Board of Dentistry ("Board") may have his/her license indefinitely suspended if s/he is found to be in nonpayment status or default or breach of a repayment or service obligation under any federal educational loan, service conditional loan repayment program, or service conditional scholarship program in accordance with the procedures set forth herein.

(2) After receiving a certification from a federal agency that the licensee is in nonpayment status or default or breach of a repayment or service obligation under any federal educational loan, service conditional loan repayment program, or service conditional scholarship program, the Board shall provide written notice to the licensee via certified or registered mail at the licensee's address of record. The notice shall contain the following:

(a) The Board's intended action to suspend the license;

(b) The licensee's right to request an appearance before the Board;

(c) Notification that the request for an appearance must be in writing and must be received by the board within thirty (30) days of service of notice; and

(3) If the licensee does not request an appearance before the Board within thirty (30) days, the license shall be suspended.

(4) If a request to appear is timely received by the Board, the suspension of the license shall be stayed pending the licensee's appearance before the Board.

(8) A person whose license was suspended for being in nonpayment status or default or breach of a repayment or service obligation under any federal educational loan, service conditional loan repayment program, or service conditional scholarship program may apply to have the suspension lifted. In order to have the suspension lifted, the licensee must:

(1) Upon request, the Board or its designee may, for good cause shown, allow the parties to file evidentiary documents of any kind, or exhibits, at a time subsequent to the completion of the hearing, such time to be determined by the Board or its designee. If a request for such subsequent filing is granted, the requesting party shall, on or before the date set for filing, send copies of all documents or exhibits which are the subject of the request to all other parties.

Rule 150-24-.04. Review of Initial Decision.

(1) Either the responding party or the Board may seek review of the initial decision of the administrative law judge (ALJ) pursuant to O.C.G.A. §§ 50-13-17(a), 50-13-41(d). If the responding party files a timely motion for review of the initial decision of the ALJ, the responding party may include therein a statement of the reasons for seeking review and alleged errors made by the ALJ in the initial decision. If the Board files a timely order for review of the initial decision on its own motion, it may include in its order the issues to be considered by the Board at the review hearing.

(2) Upon the filing of a timely motion by the responding party seeking review of the initial decision of the ALJ, or upon the filing of a timely order by the Board for review of an initial decision on its own motion, notice of the date and time for the review shall be served on the responding party or counsel for the responding party and counsel for the Board.

(3) The Board may appoint a hearing officer for review, who shall preside over the review proceedings and control the conduct of the review hearing. In acting as the presiding officer, the hearing officer for review shall rule on all procedural and evidentiary questions that arise during the course of the review. At the direction of the Board, the hearing officer for review shall draft the final decision for the Board.

(4) On review, the Board shall have all the powers it would have in making the initial decision, and in its discretion, shall have the power to take additional testimony or remand the case to the ALJ for such purpose, as provided in the Administrative Procedure Act, O.C.G.A. § 50-13-17 and in accordance with this Rule. Motions, including motions to present additional evidence, shall be filed in accordance with 150-17-.01 and 150-24-.03 and shall be ruled upon within the time period set by the Board but not to exceed thirty (30) days.

(a) Motions to present additional evidence or to remand the case to the ALJ for such purpose shall be granted only if the additional evidence is material, and there was good cause for failing to present such evidence before the ALJ. All motions, including motions for the presentation of additional evidence, shall be ruled on by the Board, prior to oral arguments during the review hearing.
Oral argument up to 30 minutes per side is permitted in the review hearing. Additional time for argument must be requested in writing and docketed at least fourteen (14) days before the date set for the review hearing.

Once the review hearing is concluded, the Board shall deliberate as to the final decision. Neither the hearing officer for review nor the parties nor their counsel shall be present or participate in the deliberations or voting on the final decision. Provided, however, that during the course of the deliberations the Board may seek or obtain legal advice of its counsel or make an inquiry on the record concerning either procedure or the merits of the case in the presence of all parties.

At the conclusion of the deliberations, the vote and decision of the Board shall be announced in open session, unless the sanction imposed by the decision is made confidential by statute, in which case it shall be announced in camera to the responding party and counsel for the parties. The Board may take the matter under advisement and continue the deliberations until a date certain if deemed necessary due to the Board's agenda or the complexity of the issues.
