Rule 310-9-.04. Approved Programs.

(1) Courses or programs offered by institutions of higher learning, specialty societies, professional organizations and government agencies will be considered acceptable provided that they are developed and conducted by qualified persons, provide the registrant with evidence of attendance or satisfactory completion, and consist of subject matter which contributes directly to the professional competence of a registrant in the practice of landscape architecture.

(2) Correspondence Courses. Correspondence courses and independent study programs which meet the criteria provided in (1) above are permitted if the course provides for interaction between the participant and instructor or administrator. This usually takes the form of periodic examinations and must be documented.

(3) Academic Courses. University and college courses offered in a degree program which meet the criteria provided in (1) above are permitted so long as the course is not taken to meet the education requirements for registration as a landscape architect.

(4) Independent Research and Publications. Credit may be awarded for published articles and books provided they contribute to the professional competence of the applicant. Credit for preparation of such publications may be given on a self-declaration basis up to 50% of the total hours required. In exceptional circumstances an applicant may request additional credit by submitting the article(s) or book(s) to the Board with an explanation of the circumstances which justify a greater credit.

Rule 310-9-.05. Calculation of Hours of Credit.

(1) Credit accrues at a rate of one hour for each hour of actual contact. This shall be known as a contact hour or clock hour. Three hours of tour or field session activities are required to equal one contact hour. For providers who measure continuing education activities in "Continuing Education Units" (CEUs), one CEU is defined as 10 contact hours of continuing education. Credit will not be allowed for any program which in its entirety, including question and answer periods, lasts less than sixty minutes. However, credit may be rounded down to the nearest whole or half hour, so long as it is at least one hour. Credit will not be given for time spent in introductory remarks, coffee and luncheon breaks, meals, or business meetings where no organized course work is presented.

(2) Credit as an instructor, discussion leader or speaker will be allowed for any course or program provided that it is one which would meet the continuing education requirements of those attending. The credit allowed an instructor, discussion leader or a speaker will be on the basis of two hours of continuing education credit for each hour of teaching. No credit will be given for preparation and no additional credit will be allowed for repetition of the same program.

(3) Each semester hour of credit from a college or university shall be deemed to be fifteen hours and each quarter hour of credit shall be deemed to be ten hours.
