(1) Any examinee, applicant, candidate for classification, approved instructor, or appraiser who without proper authorization supplies to others, or attempts to supply to others, any information concerning the content of any qualifying examination administered by or approved by the Board shall be grounds for denial of an appraiser classification or the imposition of any sanction permitted by O.C.G.A. Section 43-39A-18.

(2) Approved schools and their staff members are prohibited from:
(a) obtaining from examinees or others information concerning the content of any qualifying examination administered by or approved by the Board;
(b) accepting such information except as provided or approved by the Board; and
(c) using such information in non-approved courses operated by or in association with any approved school or their staff members.

Violation of this paragraph may be grounds for denial of approved status, withdrawal of approved status, suspension of approved status, or imposing any sanction permitted by O.C.G.A. Section 43-39A-18 upon an approved school.

(3) Unless a person first obtains written permission of the Board, a person may not take any qualifying examination offered by the Board except:

(a) to qualify for or to reinstate the classification for which the examination is designed;

(b) when:
   1. such person holds a classification issued by the Board by reciprocity rather than by examination,
   2. such person is applying to another state for classification by reciprocity, and
   3. the state to which such person is applying requires that an applicant for reciprocity must have passed an examination in Georgia as a condition of receiving a classification by reciprocity in that state; or

Rule 539-1-.04. Applying for an Appraiser Classification After Passing Examination.

(1) Any candidate for classification who has taken an examination for an appraiser classification and successfully passed the examination must make application for an active or inactive appraiser classification within three months from the date of the examination date, or after three months, must pay a fee equal to two times the original application fee. Any candidate for classification who fails to make application for an appraiser classification within twelve months from the date of the examination taken must retake the examination. In addition to passing the qualifying examination, an applicant
who applies for an appraiser classification must submit evidence satisfactory to the Board of successful completion of any required education and experience.

(2) Any applicant who meets the age, education, experience, and examination requirements as described in O.C.G.A. §§ 43-39A-8 and 43-39A-9 and the Rules and Regulations of the Board and whose application for an appraiser classification or reinstatement of a classification is then denied may request a formal hearing concerning that denial. The applicant must make that request in writing to the Real Estate Commissioner within sixty (60) days of the Board's mailing notice to the applicant to the address on the application that the Board has reviewed the applicant's application and voted to deny issuance of an appraiser classification. If the applicant does not make written application for a hearing within sixty (60) days, the application shall lapse and the applicant may not make another application for a classification without again standing and passing any qualifying examination that may be required for that classification and paying any required fees.

(3) Any applicant who meets the age, education, experience, and examination requirements as described in O.C.G.A. §§ 43-39A-8 and 43-39A-9 and the Rules and Regulations of the Board and who is denied issuance of an appraiser classification after having been granted the opportunity for a formal hearing may not make another application for an appraiser classification without again standing and passing any qualifying examination that may be required for that classification and paying any required fees.

If the applicant does not make written application for a hearing within sixty (60) days or is denied issuance of a State Registered Real Property Appraiser classification after having been granted the opportunity for a formal hearing, the application shall lapse and the applicant must pay any required fees when making a new application.

Rule 539-1-.05. Applications.

(1) Applications for an appraiser classification, for an appraisal management company registration, for renewal of an appraiser classification, for renewal of an appraisal management company registration, for any change in status of an appraiser classification, for approval of schools and instructors, for renewal of school and instructor approvals, and for any change of information required to be filed with the Board, except a name change or a change of address, must be on Board approved forms. Each Board approved form may require the email address of an applicant if an email address is maintained by such applicant.

   (a) Any such application, change of information, or fee required to be filed with the Board may be filed with the Board by:
      1. personal delivery to the Board's offices during regular business hours;
      2. mail in a letter postmarked by the United States Postal Service; or
      3. private courier or delivery service.

   (b) Any application that does not require the payment of a fee may be filed by electronic facsimile (fax) transmission.

   (c) The effective date of the filing of the application or fee shall be the United States Postal Service postmarked date, if mailed, or if otherwise filed, the date the Board dates the receipt of the application or fee. In the event that receipt by the Board of an application or fee occurs later than the deadline for the filing of such application or fee, the applicant or appraiser shall bear the burden of proof that the application or fee was timely filed.

(2) If a candidate for classification, an applicant, or an appraiser submits an application on a form that is no longer in use by the Board and pays the correct fee in effect on the date of the application, the Board may require the applicant or appraiser to submit a new application on its latest form at no further cost to the applicant or appraiser.

(3) An appraiser, a candidate for classification, an applicant for an appraisal management company registration, an applicant to be a controlling person in an appraisal management company, any owner of an appraisal management company, or an applicant for an appraiser classification must supply all information requested on any form that the applicant or appraiser submits to the Board. Failure to supply all information shall cause the application to be incomplete. An application is incomplete if the applicant or the candidate for classification fails to include the proper fee, to attach any required documents, to provide all requested biographical or other data, to include required signatures, or to include legible responses. Failing to disclose each and every criminal conviction, as defined by O.C.G.A. § 43-39A-14(a), or classification or license
disciplinary action that the applicant may have in this state or any other jurisdiction may constitute a falsified application.

(4) The Board shall return any incomplete application, or any obsolete application, or any application on a non-approved form to a candidate for classification, an applicant, or an appraiser by mail at either (a) the address listed on the incomplete or incorrect application or (b) the last known business address of record in the Board's files if the incomplete or incorrect application contains no address. The candidate for classification, the applicant, or the appraiser must correct any deficiencies noted by the Board on such application within fourteen (14) days of the Board's mailing notice of the deficiency to the candidate for classification, the applicant, or the appraiser. If no response is received by the Board within thirty (30) days of the Board's mailing notice of the deficiency, the application shall be viewed as abandoned, any fee paid forfeited, and the candidate for classification, the applicant, or the appraiser must submit a new application and fee in order to complete the transaction.

(5) After making an original application for an appraiser classification to the Board, the applicant shall not commence real estate appraisal activities under such appraiser classification until he or she has received a wall certificate of classification and pocket card from the Board.

(6) Duplicate wall certificates and/or pocket cards shall be issued upon satisfactory proof of loss of the original.

(7) The Board will provide reasonable accommodations to a qualified candidate for classification with a disability in accordance with the Americans With Disabilities Act. The request for an accommodation by an individual with a disability must be made in writing and received in the Board office by the application deadline along with the appropriate documentation, as indicated in the Request for Disability Accommodation Guidelines.

(8) Whenever an applicant or a candidate for classification submits to the Board an original application on paper for classification as, including but not limited to, a registered, licensed, or certified appraiser; for an appraisal management company registration; or for approval as a school or instructor, the Board shall maintain the paper record for a period of fifteen years and may then destroy the application. Whenever an appraiser submits any other application to the Board on paper, the Board shall maintain the paper record for a period of one year and may then destroy the application. The Board shall maintain all electronic licensing records for a period of at least 15 years.

(9) The Board shall maintain investigative files under the following schedules:

(a) forty years for all investigative files in which the Board imposes a disciplinary action; and

(b) fifteen years for all other investigative files.
(10) No more than 60 days prior to making application, each applicant for an appraiser classification, controlling person of an applicant appraisal management company, any individual with a direct ownership interest exceeding 50% of an applicant appraisal management company, an instructor approval, or the Director of a school applying for approval shall obtain, at the applicant's expense, and attach to the applicant's application for classification a certified criminal history report issued by the Georgia Crime Information Center of the Georgia Bureau of Investigation indicating whether the applicant has any record of a criminal history. If that report indicates that the applicant has a record in another jurisdiction, the applicant must, at the applicant's expense, provide any necessary fingerprints, fees, authorization, or other requirements for the Board to obtain a Federal Crime Information Center report from the Federal Bureau of Investigation. If the criminal history report of such a candidate for classification reveals a prior criminal conviction(s) or if the candidate for classification has a prior professional classification or license disciplinary action, the candidate for classification shall comply with the provisions in paragraphs (8) and (9) of this rule and said candidate for classification shall be subject to the provisions of 43-40-15 (a) et seq.

(11) A candidate for classification or an applicant for classification who has moved to Georgia from another state or a candidate for classification or an applicant for classification for non-resident classification may be granted a classification without further examination or education if such candidate for classification produces, from the regulatory body of each state that has classified the candidate or applicant for licensure, an original certification issued no more than six months prior to the candidate or applicant for licensure making application for licensure that shows that the candidate or applicant for licensure:

1. has passed an examination for the type of classification for which such candidate for classification seeks classification in Georgia;

2. has met all preclassification and continuing education requirements required by such other state(s) for that classification;

3. is classified in good standing at the time of the certification; and

4. has not had any formal disciplinary action imposed by such state's licensing body.

Rather than the written certification required of applicants by this paragraph, the Board, in its sole discretion, may choose to accept some electronic form of the certified data from other states, which applicants must submit, or by some other procedure that reduces paperwork. A candidate for classification whose certification does not comply with all of the conditions in this paragraph must take and pass the qualifying examination for the Georgia classification that such candidate for classification seeks.

(12) An applicant appraisal management company must, with its application for registration, include evidence of having obtained a surety bond of not less than $20,000 coverage.
The evidentiary documentation must include the name of the bond issuer and policy number of the bond.

(13) An appraisal management company whose registration has lapsed for failure to pay its renewal fee may apply as an original applicant only once five years have passed from the date of lapsing.

(14) Military Spouses and Transitioning Service Member Applications.

Effective July 1, 2017, military spouses and transitioning service members may qualify for expedited processing of any license application submitted to the Board by showing that the applicant is a military spouse or transitioning service member and that the applicant has paid the fee and meets the requirements for a license under the law and rules for the type of license for which the applicant has applied.

(b) a certified copy of the sentence.

(2) Whenever a candidate for classification or approval or an applicant for classification, approval, or renewal of a classification reveals, or the Board discovers, that such candidate for classification or applicant for classification or approval or approval or renewal of a

(a) any allegations that preceded the final order; and

(b) the final order of that licensing agency.

(3) The Board, in its discretion, may deem an application for classification as incomplete unless the requirements of paragraphs (1) and (2) are met and may elect not to process such an application unless and until those requirements are met.

Rule 539-1-.08. Reinstatement of Lapsed Appraiser Classification.

(1) Any appraiser whose appraiser classification lapses due to nonpayment of fees or failure to complete satisfactorily any of the education requirements of O.C.G.A. Chapter 43-39A shall be prohibited from engaging in real estate appraisal activities as defined in O.C.G.A. Section 43-39A-2 until such time as the appraiser classification is reinstated. Upon the

(2) Except as provided in paragraph (6) below, any appraiser who fails to pay a renewal fee and allows an active appraiser classification to lapse may reinstate that appraiser classification within two years of the date of its lapsing by paying the total amount of all renewal fees that would have been due while that appraiser classification was lapsed plus a reactivation fee and by successfully completing any required continuing education courses that would have been due while that appraiser classification was lapsed.

(3) Except as provided in paragraph (6) below, any appraiser who allows an appraiser classification to lapse for a period longer than two years but less than five years due solely to a failure to pay a renewal fee may reinstate that appraiser classification by paying the total amount of all renewal fees that would have been due while that appraiser classification was lapsed plus a reactivation fee and by successfully completing 90 classroom hours of Board approved courses that includes the current version of the 7-Hour National USPSAP Update Course (or its AQB-approved equivalent). The course or courses of study required by (a) above must have a number of hours of instruction totaling at least 14 classroom hours for each year of the renewal period.

(5) Except as provided in paragraph (6) below, any real estate appraiser (except a State Registered Real Property Appraiser) who fails to pay a renewal fee and allows an appraiser classification to lapse and who does not elect to reinstate that appraiser classification under the provisions of paragraph (2) or (3) of this Rule may reinstate that appraiser classification by furnishing proof of completion of any required preclassification education and by taking and passing the appropriate qualifying examination for that appraiser classification.

(6) Any nonresident appraiser whose appraiser classification lapses for failure to pay a renewal fee may reactivate that appraiser classification by paying the fee required of an original applicant if such nonresident has maintained an active appraiser classification in his or her state of residence during the period that his or her appraiser classification lapsed and has met that state's continuing education requirements.

   c. the supervising appraiser will accept responsibility for the supervised appraiser's work by signing the appraisal report and certifying that it complies with generally accepted appraisal procedures and is in

(e) The supervising appraiser and the supervised appraiser shall jointly maintain an appraisal log that includes the following information for each appraisal performed in the format available on the Board's web site:

a. Type of property;

b. Date of report;

Separate appraiser logs shall be maintained by each supervising appraiser if applicable.

(10) Notwithstanding any other provision of this rule, any State Licensed or State Certified Residential appraiser seeking to earn experience credit for a higher appraisal classification may perform appraisal activity and sign an appraisal report as "appraiser" on real property involved in a federally related transaction that may require a higher

Rule 539-1-.17. Disclosure of Appraiser Classification and Number.

(1) When signing an appraisal report, an appraiser shall, adjacent to his or her signature, print or type his or her name, appraiser classification, and number assigned by the Board.

(2) When an appraiser makes reference to his or her appraiser classification status in any advertisement, statement of qualification, contract, or other instrument used by the appraiser, the appraiser shall print or type his or her name, appraiser classification, and number assigned by the Board. If the appraiser signs such document or advertisement, the appraiser shall, adjacent to his or her signature, print or type his or her name, appraiser classification and number assigned by the Board. Rule 539-1-.18. Preliminary Decisions Regarding Prior Criminal Convictions or Disciplinary Actions.

(1) The Official Code of Georgia Annotated Section 43-39A-14 provides in part that the Board may deny a classification to an applicant who has a prior criminal conviction(s) or a disciplinary action(s) imposed by any occupational licensing body. An applicant for classification is a person who has met all experience, education, and examination requirements for the classification sought.

(2) Because of the time and expense involved in becoming an applicant for classification, the Board affords an individual who has not yet become an applicant the opportunity to request that the Board make a preliminary decision on the conviction(s) or the prior disciplinary action(s) before the individual takes the required education and examination for classification. The purpose of a preliminary decision is merely to provide advisory guidance. Preliminary decisions are not binding. However, the Board may elect to allow a favorable preliminary decision to become its final decision without further investigation or hearing when the individual becomes an applicant for classification.

(3) An individual seeking a preliminary decision must submit to the Board a certified copy of any indictment and conviction or a disciplinary action imposed by another licensing regulatory authority. An individual seeking a preliminary decision may also provide the Board with any additional information that the individual believes may assist the Board in rendering a preliminary decision.

(4) A preliminary decision by the Board that is unfavorable to the individual shall not prevent the individual from becoming an applicant for classification by successfully completing all education, experience, and examination requirements for the classification. Whenever the Board denies a classification based on a prior conviction or prior disciplinary action, it must provide the applicant the opportunity for notice and a hearing.

Rule 539-1-.19. Significant Professional Assistance.

(1) Whenever an appraiser utilizes the assistance of an unclassified person in the development or reporting of an appraisal assignment, the appraiser is responsible for the acts of the unclassified person and therefore subject to disciplinary action by the Board if the acts of the unclassified person violate any of the provisions of this Chapter. Unclassified persons may perform only duties and tasks that are ministerial in nature and that do not require discretion or the exercise of judgement independent of the appraiser's specific instruction. Unclassified persons may not render significant professional assistance in arriving at a real estate appraisal analysis, opinion, or conclusion.

(2) In order to provide reasonable guidelines for appraisers and those persons who assist appraisers but without defining every permitted or prohibited activity, the Board has identified the following tasks that unclassified persons assisting an appraiser can and cannot perform.

(a) Permitted activities (those which do not involve significant professional assistance) for unclassified persons assisting appraisers and under the supervision of the appraiser include:

1. typing an appraiser's research notes;
2. typing an appraisal report;
3. accompanying an appraiser on an inspection visit to a property;
4. assisting an appraiser in measuring a property;
5. taking photographs of specific areas and views of specific properties selected by the appraiser;
6. performing routine calculations;
7. obtaining copies of tax cards, deeds, maps, and data from real property data bases relating to properties selected by the appraiser;

(b) Prohibited activities (those which involve significant professional assistance) for unclassified persons assisting appraisers and under the direct supervision of the appraiser include:

1. signing an appraisal report;
2. discussing any confidential information in an appraisal assignment or discussing an appraisal report with anyone other than the appraiser responsible for the assignment;

3. selecting comparables for an appraisal assignment;

4. making adjustments to comparables;

5. drafting an appraisal report;

6. except when working in the presence of a classified appraiser:
   (i) inspecting a property that is the subject of an appraisal or that may be used as a comparable in an appraisal; or

Rule 539-1-.20. Property Tax Consultants.

(1) A property tax consultant is an appraiser employed or retained to act in an advocacy capacity in a property tax appeal matter in which the appraiser acts as an advocate, not as a disinterested third party, in rendering an analysis, opinion, or conclusion relating the nature, quality, value, or utility of identified real estate or identified real property and in which any final determination of value is to be made by an authorized governmental entity or statutory process.

(2) A property tax consulting assignment is one in which the appraiser provides specialized services and is therefore subject to the requirements of the Official Code of Georgia Annotated 43-39A-20(3).

(3) In performing property tax consulting assignments, an appraiser must:
   (a) obtain any occupational or professional license required to perform such specialized services;
   (b) be aware of, understand, and correctly employ those recognized consulting methods and techniques that are necessary to produce credible results;
   (c) not commit a substantial error of omission or commission that significantly affects the results of a property tax consulting assignment; and
(d) not render property tax consulting assignments in a careless or negligent manner, such as a series of errors that, considered individually, may not significantly affect the results, but which, when considered in the aggregate, would be misleading. Departure from the requirements of this paragraph is not permitted in property tax consulting assignments.

(4) In performing property tax consulting assignments, an appraiser must observe the following specific guidelines:

(a) clearly identify the client's objective;

(b) define the problem to be considered, define the purpose and intended use of the property tax consulting assignment, consider the extent of the data collection process, adequately identify the real estate and/or property under consideration (if any), describe any special limiting conditions, and identify the effective date of the property tax consulting assignment;

(c) collect, verify, and reconcile such data as may be required to complete the property tax consulting assignment. If an independent appraisal assignment is pertinent to the property tax consulting assignment, an appraisal in conformance with Rule 539-3-.07 must be included in the data collection. All pertinent information shall be included;

(d) apply the appropriate consulting tools and techniques to the data collected; and

(e) base all projections on reasonably clear and appropriate evidence.

(5) In reporting the results of a property tax consulting assignment, an appraiser must communicate each analysis, opinion, and conclusion in a manner that is not misleading. Each written or oral consulting report must:

(a) clearly and accurately set forth the property tax consulting assignment in a manner that will not be misleading;

(b) contain sufficient information to enable the person(s) who receive or rely on the report to understand it properly; and

(g) set forth the information considered, the consulting procedures followed, and the reasoning that supports the analyses, opinions, and conclusions;

(h) set forth the appraiser's final conclusions or recommendations (if any);

(i) set forth any additional information that may be appropriate to show compliance with, or clearly identify and explain permitted departures from, the requirements of paragraphs (3) and (4) of this Rule; and

(j) include a signed certification in accordance with paragraph (7) of this Rule.

(7) Each written property tax consulting assignment report must contain a certification that is similar in content to the following form:

I certify that, to the best of my knowledge and belief:

-- that this report has been prepared in my capacity as an advocate in a property tax appeal matter and not as a disinterested third party.

-- the statements of fact contained in this report are true and correct.

-- the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, professional analyses, opinions, and conclusions.

-- my analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the relevant appraisal standard adopted by the Georgia Real Estate Appraisers Board.
-- I have (or have not) made a personal inspection of the property that is the subject of this report. (If more than one person signs the report, this certification must clearly specify which individuals did and which individuals did not make a personal inspection of the property.

-- no one provided significant professional assistance to the person signing this report. (If there are exceptions, the name of each individual providing significant professional assistance must be stated.)

Departure from the requirements of this paragraph is not permitted in property tax consulting assignments.

(8) To the extent that it is both possible and appropriate, any oral report (including expert testimony) of a property tax consulting assignment must address the substantive matters set forth in paragraph (6) of this Rule.

   b. is based on recent rates paid to a representative sample of providers of appraisal services in the geographic market of the property being appraised or the fee schedules of those providers; and

   c. in the case of information based on fee schedules, studies, and surveys, such fee schedules, studies, or surveys, or the information derived there from, excludes compensation paid to appraisers for appraisals ordered by appraisal management companies.

3. The Board, at its discretion, may contract with an objective third party, such as an educational institution, to develop a schedule of customary and reasonable fee rates of compensation for use by any appraisal management company electing to do so.

4. An appraisal management company shall maintain records of how it determined the customary and reasonable rate of compensation paid for each appraisal assignment.

(4) An "instruction hour" means a period of time of at least fifty minutes of instruction or other learning activity. The Board will grant credit toward a classroom hour requirement for pre-classification education only if the course offering is at least fifteen hours in length and the applicant successfully completes an examination pertinent to the course.

The Board will grant credit toward a classroom hour for continuing education only if the course offering is at least two hours in length. Unless it has prior approval of the Board, no school may schedule a student for more than seven and one-half (7½) hours per day of classroom instruction and testing. The school shall hold all classroom instruction between the hours of 8:00 a.m. and 10:00 p.m. with breaks totaling at least fifteen minutes every two hours. The schedule shall allow reasonable time for preparation for each classroom session.

(8) Schools may offer units of instruction on subjects other than those required by the Board only with prior written approval from the Board.

Schools may elect to allow any student who fails to achieve a passing score to take another examination on another day without repeating in-class instruction. If a student fails to achieve a passing score on a second final examination, the student must repeat all in-class instruction of that course before taking another examination.

(3) Schools shall maintain at least four forms of a final examination for each course and shall provide the Board with reasonable assurances that Board approved examinations are secure from distribution to students except upon administration of an examination and

The Board may impose any disciplinary action permitted by law on the approval of any school which fails to provide proper security for Board approved examinations.

(4) Final examinations for an approved course should attempt to measure the student's competence in the knowledge or skills taught in the approved course. A school shall not be required to submit a course final examination to the Board if the examination:

(a) consists of multiple-choice questions with a minimum of four choices for each question; and

(b) includes no fewer than two multiple-choice questions for each credit hour of the course. A school must submit to the Board for approval any course final examination that does not meet the above criteria prior to the examination's being administered for the approved course.

(5) Whenever a school selects someone other than the school director, school coordinator, or approved instructor as a proctor to administer a course final examination, that person may not be personally related to the student taking the examination or associated with the student in any real estate or appraisal practice. A school must require that any proctor for final examinations sign and date a statement indicating that the proctor personally administered the course final examination and that the proctor administered the examination according to the requirements of this chapter.

Only instructors with appropriate experience and knowledge of the content areas of continuing education course may teach continuing education courses. Schools must maintain resumes or other biographical information documenting such knowledge and experience for all continuing education instructors who have not qualified as approved instructors under the standards of Chapter 539-5.

(4) Instructors may utilize no more than thirty (30) minutes for every seven and one-half (71/2) hours of instruction of audio or video material toward meeting any required classroom (or make-up) hours unless the Board grants written authorization for such material prior to its use.

Rule 539-2-.07. Minimum Standards for Students.

(1) In order for a school to certify a student as passing an approved course, the student must attend the required number of classroom hours of instruction provided for in this Chapter.

(2) In order for a school to certify a student as passing an approved course, the student must complete all exercises and/or examinations required by the school.

(3) Except with the prior approval of the Board, students transferring from one course to another may not count any portion of their attendance or work in the former course toward passing the new course.

(4) In order for a school to certify a student as passing an approved course, the student must meet the minimum grading standards established by this Chapter and the school. On graded exercises and examinations for which this Chapter sets specific requirements, the school's policy shall at least equal those requirements. Other grading standards shall be in accordance with generally accepted educational standards. Schools shall publish these standards and give them to the students on a written form at the beginning of the course.
Rule 539-2-.08. Maintenance of Records.

(1) All approved schools shall maintain, and upon reasonable request make available to any authorized representative of the Board, copies of all examinations with answer keys and copies of all texts or other instructional materials. Schools shall maintain these for a period of at least five years after use.

(2) Each school shall maintain for at least five years, in a form which the Board approves, records which reflect the attendance and scores earned by each student on all graded material and examinations used to determine whether the student passed a course. For all computer-based courses, each school shall maintain for at least five years, in a form that the Board authorizes, records which reflect the following:

(a) the student's name, the course title, the number of hours for the course, the particular software version of the course, and the course serial number;

(b) a Board authorized system of verification of the completion of each module of instruction within the computer-based course and the date of completion of the course;

(c) the scores for each student for all final examinations for those courses requiring such examinations; and

(d) verification of the above data by the school director/ordinator.

(3) Every school offering an approved course shall issue to the passing student an educational certificate provided by the Board. No later than fourteen (14) days after completion of each course, the school coordinator/director shall sign and file with the Board a student roster-letter which includes a certification that each student listed thereon has successfully passed the course, a statement of the number of hours the student attended the course along with the student's overall course grade, and any other data which the Board may require.

Rule 539-2-.09. Notice To Students.
At the time a student enrolls in an approved course, the school shall provide that student with the following information in writing:

(a) a statement of the Board's current approval of the course;

(b) whether the Board has approved the course to meet registration, licensure, certified residential, or certified general appraiser educational requirements and how many hours toward meeting those requirements the course contains;

(c) the approved instructors who will teach the course and detailed information on their qualifications to instruct in that course;

(d) the school's grading policies for all graded work including, but not limited to, homework examinations, oral or written practice appraisals;

   1. the name and address of the approved school;
   2. the order in which the student must submit any homework assignments;
   3. that the student must personally complete all instructional modules required to demonstrate mastery of the material and sign the certification statement required by Rule 539-2-.14(8);
   4. that the student must successfully complete all assignments before receiving credit for the course or before attending any required in-class instruction; and
   5. when and where to complete any required in class instruction; and

(g) any other information which the board may require.

Since a copy of the school's notice to students is a part of the original application for school approval, schools must report in writing no later than 14 days prior to a course offering any change in the school's grading policies for courses, the school's attendance requirements, and/or the school's make-up policy.

(1) If a school, after approval, wishes to use the name of the Georgia Real Estate Appraisers Board in its advertising, it should indicate that the Georgia Real Estate Appraisers Board approves the course(s) as meeting the requirements of Georgia laws. Advertising includes any type of solicitation, and advertisements may not indicate in any fashion that the board has any interest in the school other than insuring that it complies with the standards imposed by Georgia law. In no event can the phrase "Georgia Real Estate Appraisers Board" appear anywhere in the advertisement in larger type than the words and phrases preceding or following the phrase "Georgia Real Estate Appraisers Board."

(2) An approved school shall not advertise courses approved under this Chapter with non-approved courses that it may offer in such a manner as to lead the public to believe that the non-approved courses bear board approval or meet any registration, license, or certification requirements. An approved school shall not name and/or advertise non-
approved courses in such a manner as to lead the public to believe that the non-approved courses bear board approval or meet any registration, license, or certification requirements.

(3) An approved school shall not advertise a course as being offered, sponsored, or conducted by or in conjunction with a real estate appraisal firm or other organization or individual which is not an approved school. However, a school may advertise that it will offer a course at the location of a real estate appraisal firm or other organization provided that only personnel of the approved school:

(a) provide students and prospective students with information concerning course offerings except that the school may allow other persons to distribute written information prepared by the school's director/coordinator. Such printed information shall include no telephone number other than the school's number and the following statement:

"This information provided by (name of school). Direct any questions concerning this information to (name of school).";

(b) handle paperwork for registering and enrolling students and for certifying students' completion of the course; and

(c) maintain all records required by the board.

(4) While a course may help to prepare students to take a state examination, the board will not approve any course if the name of the course or any advertising of the school or person offering the course indicates that the primary objective of the course is to prepare students for passing a state examination and may rescind approval of any course which so advertises.

(5) An approved school may not advertise that successful completion of its courses will assist an individual in passing a Board approved examination unless it includes its passing percentage in the advertisement in type as large as the reference to passing the examination. In calculating and advertising its passing percentage, an approved school must include the following information:

(a) the passing rate of its students:

1. on the examination(s) to which the advertisement refers;

2. expressed as a specific percentage (language such as "more than 80% passing" is not acceptable);

3. based on only first-time examinees and so state in the advertisement; and

4. for the calendar year prior to the advertisement (the year must be identified in the advertisement);
(b) whether the passing rate is for the licensing and certified residential examination or the certification examination (passing rates for the two examinations may not be combined);

(c) the actual number of its students taking the examination during the calendar year cited; and

(d) the actual number of its students passing the examination in the calendar year cited. An approved school which advertises non-approved courses which do not qualify an individual to sit for an examination but which are held out to the public as assisting an individual to pass the examination must comply with the requirements of this paragraph in advertising those courses.

Rule 539-2-.13. Violations.

(1) Any violation of the provisions of this Chapter, any falsification or misrepresentation on the application for approval or renewal, or any falsification or misrepresentation of any other reports, certifications, or applications required to be submitted by this Chapter may result in withdrawal of approval or any other sanction permitted by O.C.G.A. § 43-39A-18 or citation permitted by O.C.G.A. § 43-39A-18.1.

(2) Any school whose annual percentage of students passing the state examinations falls ten percentage points or more below the percent of total examinees passing a state examination in any calendar year may have its approval withdrawn or have one of the sanctions allowed by O.C.G.A. § 43-39A-18 imposed on it or citation permitted by O.C.G.A. § 43-39A-18.1.

(3) Before imposing any sanction for a violation of this Chapter, the board shall afford a hearing in accordance with the "Georgia Administrative Procedure Act" O.C.G.A. § 50-13 to the school allegedly violating this Chapter.

Amended: F. Jan. 24, 2014; eff. Feb. 15, 2014, as specified by the Board.

Frequently, some applicants for appraiser classification have difficulty attending classes to meet the law's education requirements because they live at significant distances from approved schools offering these education courses, because of extended personal illness, because of induction into the armed forces, or because of other similar extraordinary circumstances. To meet these types of problems, the Board approves the offering of independent-based courses.

Every course approved under this Rule shall teach to mastery. Teaching to mastery means that the course shall, as a minimum:

(a) divide the material into major units as approved by the Board;

(b) divide each of the major units of content into modules of instruction for delivery on a computer or other approved interactive audio or audiovisual programs;

(c) specify the learning objectives for each module of instruction. The learning objectives must be comprehensive enough to insure that if all the objectives are met, the entire content of the course will be mastered;

(d) specify an objective, quantitative criterion for mastery used for each learning objective;

(e) implement a structured learning method by which each student is able to attain each learning objective;

(f) provide means of diagnostic assessment of each student's performance on an ongoing basis during each module of instruction;
   1. this assessment process shall measure what each student has learned and not learned at regular intervals throughout each module of instruction, and
   2. the diagnostic assessment must specifically assess the mastery of each concept covered in the content material.

(g) provide a means of tailoring the instruction to the needs of each student as identified in (e) above. The process of tailoring the instruction shall insure that each student receives adequate remediation for specific deficiencies identified by the diagnostic assessment;

(h) continue the appropriate remediation on an individualized basis until the student demonstrates achievement of each mastery criterion; and

(i) require that the student demonstrate mastery of all material covered by the learning objectives for the module before the module is completed.

Prior to the development of specific computer-based courses to be offered to meet education requirements, a school must submit to the Board for its approval satisfactory
documentation of the method by which each element of mastery on paragraph (2) of this Rule is to be accomplished. If the Board authorizes that method, the school may utilize that method in developing any courses it may offer to meet appraisers’ education processes implemented with computer-based courses must be based on sound instructional strategies that have been systematically designed and proven effective through educational research and development. The basis and rationale for any proposed instructional approach must be specified in any request for approval.

(4) Courses approved under this Rule must also meet the criteria outlined in Rule 539-2-.02, except those covering in-class instruction. Except where the Board has granted permission in writing to do otherwise, persons developing computer-based courses must:

(a) utilize at least nine persons in testing programs in order to evaluate for the developer the quality of content and the user friendliness of software and hardware. Of those nine persons, at least three must be unclassified, at least three must be classified appraisers holding classifications at the level of or higher than the courses being developed, and at least six must be non-educators. Persons developing such courses must document that those testing the programs have varying skill and knowledge levels of computers and appraising, and

(b) make reasonably available to an authorized representative of the Board documentation on the development and testing processes utilized in the computer-based courses.

(5) The following types of programs will not be deemed as meeting the requirements of this Rule:

(a) those which consist primarily of text material presented on a computer or other audio or audiovisual programs rather than in printed material;

(b) those which consist primarily of questions similar to those on the state licensing examination;

(c) those which consist primarily of combinations of the elements in (a) and (b) above.

(6) An approved instructor and/or the school coordinator/director shall grade the written course work required of students in computer-based courses.

(7) Every computer-based course approved to meet the educational requirement for state registered real property appraiser, for state licensed real property appraiser, for state certified residential real property appraiser, for state certified general real property appraiser, and for continuing education shall consist of interactive computer-based or other interactive audio or audiovisual programs which will reasonably require the student to expend in completing the course the number of hours for which the course is approved.
(8) Every school offering an approved computer-based course shall offer those courses under an approved instructor who shall:

(a) be available to answer students' questions or provide them assistance as necessary;

(b) provide reasonable oversight of students' work in order to insure that the student who completes the work is the student who is enrolled in the course;

(c) obtain from each student the following certification statement:

I certify that I have personally completed each assigned module of instruction.

_________________________ ____________________________
Date Student Signature

(d) certify students as successfully completing a computer-based course only if the student:

1. has completed all instructional modules required to demonstrate mastery of the material,

2. has attended any hours of live instruction and/or testing required for a given course, and

3. has passed the final examination, if the Board, in approving the course requires such an examination.

(2) The Board approves distance education courses:

(a) that meet all of the requirements of this chapter, or

(b) for which the applicant provides satisfactory documentation that (1) the International Distance Education Certification Center (IDECC) has certified the course as meeting its distance education standards for course design and delivery mechanism and (2) the course content meets the content requirements of this Chapter. Any Board approval based on such an IDECC certification will cease immediately upon notice from IDECC that certification of the course has been discontinued for any reason.

(3) In distance education courses, a classroom hour is defined as fifty minutes of instruction out of each sixty minute segment.

Rule 539-3-.01. Federally Related Transactions.
(1) A federally related transaction is any real estate related financial transaction that (A) a federal financial institutions regulatory agency or the Resolution Trust Corporation engages in, contracts for, or regulates; and (B) requires the services of an appraiser.

(2) In developing and reporting an appraisal of real property in a federally related transaction, an appraiser must comply with the standards required by the federal financial institutions regulatory agency that regulates the financial transaction for which the appraisal assignment was undertaken. For each appraisal assignment, it is the responsibility of the appraiser to determine what standards a federal financial institutions regulatory agency requires.

(3) In developing and reporting an appraisal of real property in a federally related transaction, an appraiser must take reasonable efforts to identify and report (a) the identity of the current owner of the property, (b) whether the property is listed for sale and identify and state in the appraisal report all list prices within the preceding year reported by reliable sources, (c) whether the property is under contract for sale, and (d) whether the property has sold or had deed transfer within the last three years prior to the effective date of the appraisal.

(4) While documenting compliance with this requirement may be met in a variety of ways, an appraiser who attaches to the appraisal report the following items, obtained contemporaneously with the appraisal, shall be deemed to have met the requirements of this rule:

   (a) a copy of the most recently recorded deed transferring ownership of the property or county tax records showing the name(s) of the property's current owner(s) of record;

Rule 539-3-.02. Standards for Developing and Reporting an Appraisal.

(1) In developing and reporting an appraisal of real property, an appraiser shall not:

   (b) fail to disclose clearly and accurately the appraiser classification and number granted to the appraiser by the state;

   (c) fail to employ correctly methods and techniques that are necessary to produce a credible appraisal. Unless the appraiser expressly provides a credible real estate appraisal justification in the appraisal report, the appraiser may not vary from the following guidelines:

       1. appraisers reaching a conclusion of value for a real property must:

          a. Obtain all data used in every appraisal from a reliable source and verify that data from at least one additional reliable source. For purposes of this Chapter a reliable source shall be one typically utilized by appraisers in the area and includes, but is not limited to, a personal inspection by the appraiser; publicly filed records; property tax records; an appropriate local multiple listing service; and commercially available data based and publications reasonably relied upon by appraisers in the ordinary course of their business.

          An appraiser may also rely upon information obtained from real estate appraisers, brokers, closing attorneys, sellers, and buyers provided that the appraiser maintains (1) documentation of any information obtained from appraisers, brokers, closing attorneys, sellers, and buyers and (2) the name and telephone number and/or address of each source in the appraiser's file for at least five years;

The most recent sales shall be presumed to be properties that have sold within the preceding year of the effective date of the appraisal;

c. select comparable properties for valuation of a residential property that require the net total of any adjustments to the sales price of a comparable sale not to exceed 15% and the gross total of all adjustments (whether positive or negative) not to exceed 25%, absent a credible real estate appraisal explanation for differing adjustments;

d. select comparable properties for valuation of a property that are located within the market area of the subject. Absent a credible real estate appraisal explanation for a different market area, the market area for residential properties shall be presumed to be comparable properties located first within the same subdivision as the subject and second located within one mile of the subject;

e. list in the appraisal report any sale of the subject property held within the preceding three (3) years of the appraisal's effective date including the date of sale and sales price. In addition, comment on or explain if any sale occurred within six (6) months of a previous sale within said three (3) year period when the sales price increased more than 25% of the previous sales price;

f. list in the appraisal report any sales of comparable properties used in said report held within the preceding one (1) year of the comparable properties last date of sale including the previous date of sale and sales prices. In addition, comment on or explain if any sale occurred within six (6) months of a previous sale within said one (1) year period when the sales price increased more than 25% of the previous sales price.

g. state the exposure time indicated by the market.

3. appraisers utilizing the cost approach for reaching a conclusion of value for a real property must include in the appraisal report the relevant replacement cost data from a source reasonably relied upon by appraisers in the ordinary course of their business. Said source must be identified by title on the appraisal report;
4. Appraisers utilizing the income approach for reaching a conclusion of value for a real property shall identify in the appraisal report the source of any income data used in the appraisal report; identify any ownership or other interest which such source has in the subject property; and maintain in the appraiser's file for a period of five years written verification of such income data.

(d) Commit a substantial error of omission or commission that significantly affects the appraisal;

(e) Render appraisal services in a careless or negligent manner;

(f) Communicate the appraiser's analyses, opinions, or advice in a manner that is misleading to the client;

(i) Accept an independent appraisal assignment when the employment itself is contingent upon the appraiser's reporting a predetermined estimate, analysis, valuation, or opinion or where the fee to be paid is contingent upon the opinion, conclusions, analysis, or valuation reached or upon the consequences resulting from the appraisal assignment;

(j) Perform any appraisal assignment without (1) disclosing any lack of knowledge and/or experience to the client before accepting the assignment; (2) taking all steps necessary to complete the assignment competently; (3) describing the lack of knowledge and/or experience and the steps taken to complete the assignment competently in the appraisal report; and (4) having the client expressly identify any other persons or entities that the client expects to rely on the appraisal report;

I certify that, to the best of my knowledge and belief:

- the statements of fact contained in this report are true and correct.

- the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, unbiased professional analyses, opinions, and conclusions.

- I have no (or the specified) present or prospective interest in the property that is the subject of this report, and I have no (or the specified) personal interest or bias with respect to the parties involved.

- I have performed no (or the specified) services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three year period immediately preceding acceptance of this assignment.

(n) falsify any part of an appraisal report;

(o) fail to maintain at all times direct control of the appraiser's signature and the method by which that signature is affixed to an appraisal report. An appraiser may grant permission to another to affix the appraiser's signature to an appraisal report provided that the permission is in writing, the permission extends to only one specific appraisal report, the writing identifies the report and the amount of the opinion of value, and the appraiser maintains a copy of the written permission in the appraiser's work file. An appraiser shall not grant blanket authority to another person to affix the appraiser's signature to an appraisal report or reports; and

(p) use any uniform residential appraisal report form for reporting appraisal work for any purpose other than to report an appraisal.

(q) Submit or transmit an appraisal report without taking reasonable steps to ensure that the report cannot be altered, modified or otherwise facilitate unlicensed appraisal activity as addressed in O.C.G.A. § 43-39A-24. Such unlicensed activity may include the alteration or modification of the report by the client, liaison of the recipient, or appraisal management company.

(r) if paid by a third party, fail to include the fee paid for the appraisal assignment and; if ordered by an appraisal management company, the registration number of that appraisal management company.

(2) An appraiser who signs a real property appraisal report prepared by another accepts full responsibility for the appraisal and the contents of the appraisal report.

(3) On the effective date of this Rule amendment and in anticipation of a change in USPAP published as the Fourth Exposure Draft of proposed changes to the 2016-2017 Edition of it by the Appraisal Standards Board to become effective January 1, 2016, the physical characteristics of real estate appraised shall not be considered assignment results. Examples of the physical characteristics include size, functional utility, physical conditions, and quality of the real estate appraised. An appraiser shall not disclose appraisal assignment results or confidential information found in an appraisal to anyone other than:

(a) the client and parties specifically authorized by the client;

(b) state appraiser regulatory agencies and third parties as may be authorized by due process of law;

(c) a duly authorized professional peer review committee except when such disclosure to a committee would violate applicable law or regulation; and
(d) the appraiser's legal counsel or professional expert representing the appraiser in an existing criminal, civil, or administrative law investigation or proceeding involving the appraiser.

(4) In developing and reporting an appraisal of real property in a non-federally related transaction; an appraiser must take reasonable steps to identify and report (a) the identity of the current owner of the property, (b) whether the property is listed for sale and identify and state in the appraisal report all list prices within the preceding year, (c) whether the property is under contract for sale, and (d) whether the property has sold within the last three years prior to the effective date of the appraisal.

(5) While documenting compliance with the requirements of paragraph (4) above may be accomplished in a variety of ways, an appraiser who attaches to the appraisal report the following items, obtained contemporaneously with the appraisal, shall be deemed to have met the requirements of this rule:

(a) a copy of the most recently recorded deed transferring ownership of the property or county tax records showing the name(s) of the property's current owner(s) of record,

(b) a copy of any existing listing agreement or documentation from a multiple listing service that reflects a listing period of the property and its owner(s); and

(c) a written statement signed by the party ordering the appraisal that such party has disclosed to the appraiser all pending agreements to sell the property of which it is aware and has supplied to the appraiser all written agreements to sell the property of which it is aware.

(6) When a client of an appraiser requests an appraisal of a property that was the subject of an appraisal performed by that appraiser for a different client and intended user(s) with a new effective date and if the appraiser uses any data from the original appraisal in the appraisal for the new client, then, unless the appraiser expressly provides a credible real estate appraisal justification in the appraisal report, the appraiser must, at a minimum:

(a) perform an inspection of the subject property sufficient in scope to provide a credible appraisal;

(b) re-verify any data from the first appraisal that is being re-used in the new appraisal;

(c) review the comparable sales that were used in the original appraisal and analyze any comparable sales that have occurred or on which information has become available since the date of the original; and

Rule 539-3-.03. Review of Appraisals.

(1) An appraisal review assignment shall consist of developing and reporting an opinion of the quality of another appraiser's work.

   (a) identify for the appraisal review assignment the client, the intended users, the subject, the effective date, the purpose of the assignment, and the scope of work to be performed;

   (b) develop and report a credible opinion of the quality of another appraiser's work including, but not limited to, an opinion as to whether the data is adequate and relevant, the appraisal methods used are appropriate, and the analyses, opinions, and conclusions in the work being reviewed are reasonable and appropriate; and

   (c) disclose in the appraiser's report the nature, extent, and detail of the review process undertaken and include all known pertinent information.

(3) Anytime an appraiser develops and reports an opinion of value that agrees or disagrees with the opinion of value developed and reported in an appraisal assignment performed by another appraiser, that opinion is an appraisal, not a review of an appraisal. When the purpose of an appraisal review assignment also requires that the appraiser develop an opinion of value of the subject of the review assignment, that requirement must be identified in the purpose and scope of work of the appraisal review assignment and the appraiser must comply with the applicable standards for developing an appraisal.
Rule 539-3-.04. Standards for Developing and Reporting an Evaluation Appraisal.

(1) An "Evaluation Appraisal" is defined as follows:

An appraisal which is limited in its scope and development to the requirements for Evaluations as set forth for a lender by a federal financial institutions regulatory agency and as defined in and consistent with the Interagency Appraisal and Evaluation Guidelines ("Evaluation Guidelines") promulgated by the Office of the Comptroller of the Currency, et al.
