All legal notices and all notices and correspondence should be directed to the Department of Public Safety Headquarters.

The following definitions shall apply generally to all rules and regulations of the Department of Public Safety.

(a) "Board" shall mean the Board of Public Safety of the State of Georgia.

Any person whose legal rights will be interfered with or impaired by the application of any statutory provision or any rule or order of the Department may petition the Department and request a declaratory ruling thereon. The Department will not render advisory opinions, resolve questions which have become
moot or are abstract or hypothetical, or otherwise act hereunder except with respect to such actual controversies or other cases upon which a superior court would be required to act under the Georgia declaratory judgment statutes as construed by the appellate courts of Georgia.

(2) Form of Petition. Each such petition shall be filed with the Department in writing and shall state:

   (a) The name and post office address of the petitioner;

   (b) The full text of the statute, rule, or order upon which a ruling is requested;

   (c) A paragraphed statement of all pertinent and existing facts necessary to a determination of the applicability of the quoted statute or rule;

   (d) The petitioner's contention, if any, as to the aforesaid applicability with citations of legal authorities, if any, which authorize, support or require a decision in accordance therewith;

(3) Proceedings on petition. If the Department shall determine that a decision can be rendered on the face of the petition without further proceedings, the Department shall render a summary decision thereon. Otherwise, parties shall be notified and the matter shall be heard in an informal hearing.

(4) Informal request for interpretation and rulings. The provisions of this Rule shall not be construed to preclude:

   (a) Any person from requesting the Department to interpret or otherwise rule upon the applicability of any pertinent statute or rule informally by personal appearance before the Department, by letter or by telegram to the Department or any officer or member thereof; or

   (b) The Department from acting upon any such request as and when it deems appropriate or from issuing any interpretive ruling without petition therefor.

Rule 570-1-.05. Contested Cases Under the Administrative Procedure Act.

The hearing and appeal procedures provided for in the Georgia Administrative Procedure Act shall be followed in cases which are directed by statute to be conducted pursuant to the Administrative Procedure Act. Contested cases heard pursuant to the Georgia Administrative Procedure Act shall be conducted in accordance with the procedures provided herein and the following procedures:
(a) Initiating a contested case. Any person who is legally entitled to contest a ruling or order of the Department may do so by filing with the Department a request for hearing which shall contain the following:

1. A title which indicates the nature of the proceedings;
2. The complete name and address of the party filing the request;
3. The name and address of all other interested parties;
4. A clear and concise statement of the facts upon which the contested case arises;
5. The legal authority under which the appeal is filed, including all code sections;
6. A prayer setting forth the relief sought;
7. If the party filing the request is represented by counsel, the name and address of counsel.

(b) All requests for a hearing must be signed by the party requesting the hearing or by party's counsel, if represented by counsel.

(c) Limitation on right to a hearing. The Department will grant hearings as a matter of right only upon timely receipt of a request therefor as described in (a) above, but may, in its discretion, allow extensions of time and amendments of requests for good cause shown.

(d) Upon receipt of a timely, properly filed request for a hearing, the Department will forward the request and all pertinent documents to the Georgia Office of State Administrative Hearings in accordance with that agency's rules.

(e) Hearings. All hearings will be held in accordance with all applicable statutes and with the rules of the State Office of Administrative Hearings and the Board of Public Safety.

(f) Final decisions. Pursuant to O.C.G.A. § 50-13-41(e)(3), the final decisions of the Office of State Administrative Hearings, will become the final decision of the Department of Public Safety or its Commissioner without further action and without the expiration of any further review period in appeals in the following matters:

1. Overweight Assessment Citations (O.C.G.A. § 32-6-27 (a.1)).

(g) Conduct of agency review.

1. Except for those cases where the decision of the Administrative Law Judge is the final agency decision under subsection (f) of this rule, there shall be available an agency review of the decision of the Administrative Law Judge.

2. Agency review shall be conducted by the Commissioner in all cases which do not require an exercise of the policy-making functions of the Department. All cases
which do require an exercise of the policy-making functions of the Department shall be reviewed by the Board.

3. The Commissioner may, if he determines that conduct of agency review in any case in which he is the designated reviewing agency may involve exercise of a policy-making function, refer such case to the Board for agency review.

4. The agency may dispose of the case in any of the following ways:
   (i) Affirm the initial decision of the hearing officer and adopt his findings and/or conclusions as is deemed appropriate;
   
   (ii) Adopt a new decision based on the record;
   
   (iii) Remand the case to the hearing officer for such further proceedings as the agency may order;
   
   (iv) Reverse the hearing officer's decision and enter such order in the case as is deemed appropriate.

(h) Practice on agency review in cases not covered by subsection (f) of this rule. The practice and proceedings for securing agency review of an initial decision of a hearing officer shall be as follows:

1. Requests for agency review shall be submitted in writing to the Department of Public Safety within thirty days from the date of the initial decision. No hearing shall be held if requested thereafter except where events uncontrollable by the aggrieved party are shown to have prevented a timely request. In this regard, the decision of the agency shall be final.

2. A party desiring agency review may submit to the agency written arguments, briefs and motions within the same limitation as prescribed for a request for agency review. On agency review, the appealing party shall not present arguments, briefs, or motions to the agency except in writing as herein prescribed.

3. The agency decision on agency review shall be based solely on the record developed before the hearing officer and such arguments, briefs and motions as have been submitted in accordance with (c) above. No evidence will be received by the agency in any form.

4. If the party requesting agency review desires that the agency consider matters which are not part of the record, the agency should be requested to remand the matter to the hearing officer for receipt of such additional evidence. Remands for the purpose of receiving additional evidence will be granted only if deemed by the agency to be justified upon a showing that the evidence was not available at the
time of the hearing, through no fault of the party requesting the remand, and could not have been made available by the exercise of reasonable diligence.

(i) Rehearings. Motions to reconsider an agency decision or ruling must be received at Department of Public Safety Headquarters within ten (10) days after the decision or ruling is rendered.

(j) Any appeals to the superior court from a final agency decision under the Administrative Procedure Act shall be served on the Department by personal service to the Legal Services Section of the Department of Public Safety at 959 E. Confederate Avenue, SE, Atlanta, Georgia 30316, or by mail to the Department of Public Safety, Legal Services Section, P.O. Box 1456, Atlanta, Georgia 30371-2303. Service on any other person, agency, or entity shall not be considered service on or notice to the Department of the action for the purpose of appeals of contested cases under the Administrative Procedure Act. The party or counsel shall also furnish a copy of the appeal by mail to the Office of State Administrative Hearings and to the Department of Law, Public Safety Section, 40 Capitol Square, SW, Atlanta, Georgia 30334-1300.

(k) In hearings conducted pursuant to O.C.G.A. § 40-5-67.1(g), the arresting law enforcement officer may act on behalf of the Department as the complainant.

Rule 570-7-.05. Speed Timing Devices Standard Specifications.

To establish minimum performance specifications for speed detection devices.

(a) Speed detection devices listed in the annual administrative order issued by the Commissioner of the Department of Public Safety meet the minimum requirements and are approved. Also sanctioned are speed detection devices from the International Association of Chiefs of Police (hereafter "I.A.C.P.") Combined Radar and Lidar Conforming Product List for speed measuring devices. Radars included on the I.A.C.P. Combined Radar and Lidar Conforming Product List for speed measuring devices must meet specifications defined in 570-7-.05,(b)1., 2., 3., and 4.

(b) Speed detection devices listed upon the I.A.C.P. Combined Radar and Lidar Conforming Product List for speed measuring devices have been determined by the Department to meet the minimum performance specifications and may be utilized provided certain modifications are present.
1. Any mechanism for automatically locking a target speed in the display must be disabled.

2. Any mechanism for warning operators that a display target speed exceeds a present limit, such as audible tone or momentary locking of the display, must be disabled.

3. A minimum of two display windows for moving mode radar so that the patrol speed and target speed may be displayed simultaneously. Radars which have only one window may be used only in the stationary mode.

4. If a doppler audio signal which gives the operator a tone signal directly correlating with the displayed target speed is not present, it must be added.

(c) Other Speed Timing Devices:

1. Speed timing devices utilizing a stopwatch principal measure speed by dividing the distance traveled by the time it took to travel that distance.

   (i) Minimum Specifications:

   (I) The device shall, if capable of measuring distance, provide visual evidence (i.e., display calibration number) that the calibration switches are set properly; thus, assuring the operator that the device is properly calibrated.

   (II) The device, if capable of measuring distance, must permit accurate and reliable speed checks by dialing into the computer previously logged distances.

   (III) The device shall, if capable of measuring distance, have the capability of measuring distance in miles and of converting distance into feet by dialing a predetermined number into the computer.

   (IV) The device must have the capability of measuring time in increments of not more than 0.036 seconds.

   (V) The device shall clear itself automatically upon the initiation of a new speed check. No re-set switches required.

   (VI) The device shall allow the operator to recall time or distance if the device is capable of measuring distance, upon the completion of a speed check without erasing the calculated speed.

2. Speed Timing devices determining speed by measuring the time of flight of short pulses of infrared light between the instrument and its target.

   (i) Minimum Specifications;
(I) The speed of light is constant and the infrared light utilized must, when activated, transmit pulses of infrared light to provide the operator with the true speed of the target vehicle.

(II) Must provide the user, upon command, the target vehicle's speed and distance by displaying this information on a panel provided for this purpose.

(III) Must provide an accurate reading up to a distance of 2000 feet with a light beam width of no more than 8 feet.

(IV) Must provide an accurate reading when the target vehicle has been checked for a minimum of 0.3 seconds.

(V) Must meet or exceed United States Food and Drug Administration Class 1 laser eye safety standards.

(VI) The device must provide the following features:
   I. Aiming device;
   II. Range display;
   III. Lighted target speed display;
   IV. Laser transmit indicator, either visual or audible;
   V. Target light display intensity control;
   VI. Locking device which will maintain displayed speed of target vehicle until cleared by user;
   VII. Power control switch.

Rule 570-38-1-.05. Adoption of Federal Motor Carrier Safety Rules.
(1) Except to the extent modified by this Rule or otherwise in accordance with the Department's authority under state and federal law, the Motor Carrier Safety Regulations issued by the United States Department of Transportation's Federal Motor Carrier Safety Administration (hereinafter "FMCSA"), contained in Parts 350, 376, 382, 383, and 390 through 397 of Title 49 of the Code of Federal Regulations, as now in force and as hereafter amended (hereinafter "the Federal Safety Rules"), are by this Rule made Rules of the Department under this Subchapter for all carriers regulated by this Department.

(2) The Department shall enforce such Federal Safety Rules and cooperate with other State and local law enforcement agencies in doing so to the extent such Federal Safety Rules are applicable to carriers regulated by the Department. These Federal Safety Rules are prescribed by the FMCSA as minimum standards for observance and enforcement by cooperating State agencies, and the individual states such as Georgia cannot promulgate less stringent motor carrier safety rules.

(3) Due to the volume of such Federal Safety Rules and to the frequent changes made therein by the FMCSA and because the FMCSA publishes and makes readily available such Federal Motor Carrier Safety Rules at minimal cost, the Department will not reproduce such Federal Safety Rules here. Current copies of the above-referenced and adopted Federal Motor Carrier Safety Rules may be obtained from the FMCSA in Washington, D.C., from the U.S. Government Printing Office, Superintendent of Documents, Washington, D. C. 20402, or from local U.S. Government Bookstores in the Atlanta area. In addition, such Federal Motor Carrier Safety Rules may be accessed on-line at the FMSCA website.

(4) The Department may undertake to adopt motor carrier safety rules more stringent than such Federal Safety Rules. In accordance with O.C.G.A. § 40-1-8(c)(1), the Department may promulgate these rules by administrative order and publish the same in the Department's "Transportation Rulebook" or elsewhere. Such Rules will be available for inspection by the public on the Department's website either as a part of the Department's Transportation Rulebook or otherwise.

(5) In the Federal Motor Carrier Safety Regulations adopted by reference in this Rule and applicable throughout this Chapter, any reference to the "Operations Manager" and/or "Associate Administrator, Federal Motor Carrier Safety Administration," shall be interpreted to mean Commissioner, Georgia Department of Public Safety, except insofar as the term relates to preemption. All references to "interstate" commerce in the Federal Motor Carrier Safety Regulations adopted hereby shall be interpreted for the purposes of this Chapter to mean "intrastate" commerce in Georgia. It is the intent of the Department that the Rules of this Chapter and rules, regulations, and orders promulgated in accordance with this Chapter (including its motor carrier safety rules) shall apply only to intrastate carriers and operations.

Rule 570-38-1-.06. Complaints.

(1) The Department may hear a complaint by a third party regarding entities or matters within the jurisdiction or regulatory authority of the section, including any person or entity subject to regulation by this Chapter, asserting that an applicant or carrier has violated the provisions of this Chapter, any other Transportation Rules issued by the Department, or any provision of Georgia law relating to any matter within the jurisdiction of the Section or the Department.

(2) The Department shall require that, before investigating, imposing any penalty as a result of, or otherwise acting upon any such complaint, complaints under this Rule be submitted in writing on a form or forms designated for that purpose by the Department with a plain and distinct description of the grounds of the complaint.

(3) When requested by the Department, responses to complaints must be in writing with a plain and distinct description of any defense to the complaint.

(4) Supporting documentation, such as invoices, bills of lading, and claims forms, shall be attached to complaints and responses when so requested by the Department. When requested, supporting documentation shall be provided in a timely manner as directed by the Department.

(5) Neither this Section nor the Department shall adjudicate or address:
   (a) Disputed freight loss, damage or other monetary claims except in instances of charges which exceed the Department's tariffs;
   (b) A complaint the basis of which relates to conduct of a ride share driver, ride share network service, taxi service, transportation referral service, or transportation referral service provider as defined by O.C.G.A. § 40-1-190 that is not specifically addressed by this Chapter or a provision of Georgia law over which the Department has regulatory authority;
   (c) A complaint the basis of which is currently pending or in litigation; or
   (d) A complaint the basis of which alleges theft; such matters will be referred to the appropriate law enforcement agency for investigation.
   (e) A complaint that was not made within a reasonably timely manner, which shall in no event exceed 90 days from the date of the events giving rise to the complaint.

(6) After investigating a complaint made in accordance with this Rule, the Department shall issue a decision with respect to such complaint. Such decisions may impose upon carriers any penalties and seek any remedies the Department is entitled by law to impose or seek.
When notice and hearing is required by law or when the Department otherwise determines that notice and hearing are appropriate, a decision shall not be issued until the appropriate notice and hearing requirements have been met. If no specific notice and hearing requirements exist with respect to a specific complaint or decision and the Department intends to impose notice and hearing requirements, those requirements shall be communicated to the complainant, complained-upon carrier, and any other necessary party.

(7) Paragraph (6) of this Rule notwithstanding, the Department may also impose penalties and seek remedies without notice or a hearing to the extent authorized by law if it finds that the health or safety of the public or a particular member or members of the public would be unreasonably placed at risk if such remedies or penalties were to be delayed by notice or hearing. In such cases the Department must issue specific findings of facts and/or conclusions of law relating to its finding of undue risk to the health or safety of the public or a particular member or members of the public.

(8) Notwithstanding the other provisions of this Rule, the Department shall have the discretion to accept a consent agreement in resolution of a claim or complaint by a party against a carrier, including but not limited to agreements in which a carrier agrees to refund a customer for charges or offers payment for lost or damaged property in lieu of other regulatory or enforcement action by the Department.

(4) The Department shall have the sole discretion to accept in lieu of original records a copy of any records requested in accordance with paragraph (3) of this Rule. No carrier subject to the requirements of paragraph (3) of this Rule shall be excused from the requirement to produce original records unless explicitly authorized by a Member or authorized representative of the Department to produce a copy.

(5) Upon request by a regulated entity, a member or authorized representative of the Department who is exercising the authority granted by paragraphs (1) or (2) of this Rule shall display a Department issued credential identifying him or her as a member or authorized representative of the Department.

(2) No certificate shall be issued or remain in effect under this Subchapter unless the applicant or holder obtains and maintains adequate insurance solely in the name of the applicant or holder and in amounts equal to or greater than the minimum amounts described in this Chapter and which conforms to the requirements established by the Department in accordance with state law applicable to that applicant or holder. No applicant or certificate or permit holder shall be allowed to utilize or rely upon insurance coverage in the name of another person or entity or coverage held jointly with another person or entity. A certificate held by a motor carrier subject to this Rule which fails to maintain the required insurance shall immediately become void at the time the motor carrier falls out of compliance with this Rule, regardless of whether the applicant or certificate holder later re-establishes compliance with this Rule. A certificate which has become void through operation of this rule shall automatically become valid upon the certificate holder's re-establishment of required insurance and compliance with this Rule, unless the Department has entered an order suspending, revoking or otherwise affecting the certificate in question, and except that the Department may later enter an order suspending, revoking, or otherwise affecting the certificate in question for failure to comply with this Rule.

(3) Applicants and certificate holders shall update their certificate or certificates of insurance filed with the Department to reflect their ongoing compliance with this Rule and any updates or changes to the policy or policies of insurance held, including but not limited to renewals, revisions to policy limits, additional or reduced coverage, changes in insurance carrier, suspensions, cancellations, and reinstatements. Such updated certificates shall be provided to the Department as soon as feasible upon the occurrence of or, whenever possible, prior to any event requiring such update, upon the request of the Department, and at least once every two years.

(4) Applicants and certificate holders subject to this Rule shall - to the extent possible - provide the Department with no less than 30 days' notice prior to any changes to the applicant's or certificate holder's policy or policies of insurance which would cause the applicant or certificate holder to become out of compliance with this Rule, including but not limited to any cancellation, withdrawal, or suspension of the applicant's or certificate holder's policy or policies or insurance. An applicant or certificate holder shall arrange for the applicant or certificate holder's insurance carrier to deliver notice required by this paragraph to the Department.
(5) All certificates of insurance, notices, and other documents evidencing insurance coverage (collectively, "insurance forms") required to be submitted to the Department by this Rule or by Georgia law shall be subject to approval based upon factors including but not limited to the form and completeness of the document, whether the form was provided by a company legally authorized to transact business in the State of Georgia, and a review of the policy itself if required to verify that the full limits of liability required by the Department are in place. Handwritten insurance forms will not be accepted. Insurance forms shall be submitted via mail, facsimile, electronic mail, or via the National Online Registry (NOR) electronic filing database as directed by the Department.

(6) The following forms prepared by the National Association of Regulatory Utilities Commissioners, when used for the designated purpose, will carry a presumption of compliance with the Department's Rules relating to certificates of insurance, notices, and other documents evidencing insurance coverage, provided that the forms are properly completed and comply with the other requirements of this Rule including paragraph (7):

(b) Form H ("Uniform Motor Carrier Cargo Certificate of Insurance") when used as a certificate of insurance to demonstrate compliance with the Department's insurance coverage requirements relating to cargo insurance; and

(c) Form K ("Uniform Notice of Cancellation of Motor Carrier Insurance Policies") when used as notice of cancellation of an applicant's or certificate holder's insurance policies.

(7) The forms listed in paragraph (6) of this Rule shall carry a presumption of compliance with the Department's Rules relating to certificates of insurance, notices, and other documents evidencing insurance coverage if and only if the following conditions are met with respect to the completed form:

(a) "Georgia Department of Public Safety" is listed on the form under the field "Name of Commission," "Name of Authority," or a substantially similar field;

(b) The applicant's or certificate holder's full current business name as listed on the application filed with the Department or certificate provided by the Department is listed on the form under the field "Name of Motor Carrier" or a substantially similar field;

(c) The applicant or certificate holder's most recent physical address as listed on the application most recently filed or updated with the Department or certificate most recently provided by the Department is listed on the form under the field "Address of Motor Carrier" or a substantially similar field;
(d) The form includes a legible policy number; and

(e) The form includes a legible counter-signature.

(8) To the extent that the Department is authorized or required by law to establish minimum adequate insurance amounts for an applicant or certificate holder but those amounts are not established elsewhere in this Chapter, the applicant or certificate holder shall be required to secure and have in effect a policy of insurance issued by an insurance company licensed to do business in this state, which policy provides for the protection of passengers, property, and the public against injury proximately caused by the negligence of such motor carrier, its servants, or its agents in an amount equal to or greater than the following:

(9) A certificate of insurance or other evidence of coverage required to be submitted by an applicant or certificate holder under this Chapter must be written in the full and correct business name of the applicant or certificate holder as provided on the applicant or certificate holder’s most recent application for a certificate or certificate most recently provided by the Department.

(10) The Department may, upon becoming aware that a motor carrier has fallen out of compliance with this Rule, suspend or revoke the certificate of any holder of a certificate under this Subchapter in accordance with Rule 570-38-2.13 or deny the application of an applicant for a certificate under this Subchapter in accordance with Rule 570-38-2-.09, or take any other action against the motor carrier authorized by law.

(11) A certificate holder whose certificate has been suspended as a result of a lapse in insurance coverage will not be entitled to have their certificate reinstated until and unless that certificate holder provides acceptable proof of minimum insurance as required by this Rule. Subject to the requirements of Rule 570-38-2-.13, the Department shall be entitled to revoke without any further action any certificate that has been suspended for six months or more due to a certificate holders’ lapse in insurance and

Rule 570-38-3-.05. Limitations and Restrictions on Transportation of Household Goods and Ancillary Services.

(1) Packing and Inspection of Articles and Packages
   (a) Except as otherwise provided by this paragraph, articles tendered for transportation must be in such condition and so prepared for shipment by the customer or the customer’s agent as to comply with the requirements and limitations of these Rules and as to render transportation thereof reasonably safe and practicable.

   (b) Except where otherwise provided by law or these Rules or to the extent a carrier and customer have otherwise agreed, customers shall be responsible for preparing and packing all small household goods of less than one cubic foot displacement into boxes, packages, cartons, or other containers of sufficient size and strength to
make loading, transportation, and unloading of such goods and containers reasonably safe and practicable. Customers who have prepared and/or packed articles for transportation or arranged for a person or entity other than the carrier providing transportation in accordance with these Rules to prepare and/or pack articles for transportation shall cause boxes, packages, or cartons to be properly identified and marked with the general contents when such contents are not otherwise readily apparent.

(c) Articles that are required to be prepared and packed in a container shall be securely enclosed in such container by the person(s) preparing and packing the container so that no ends or other parts protrude and in a manner that will provide reasonable protection from damage to or loss of such articles.

(d) Subparagraph (a) of this paragraph notwithstanding, a household goods carrier may offer to prepare and pack a customer's articles for transportation and may charge a customer for such service in accordance with the Department's maximum rate tariff. A household goods carrier may also provide and sell to customers packaging materials and shipping containers in accordance with the Department's maximum rate tariff. Shipping containers offered for sale in accordance with this Rule shall be marked with the dimensions and capacity of the container, shall be clean and in good condition for transportation, and shall be of sufficient strength for their intended purpose with a bursting strength of no less than 200 pound test.

(e) When a household goods carrier or its authorized representative determine that it is necessary to inspect an article or the contents of any article said carrier has been requested to transport in order to determine the nature of such article or the contents of such article, the carrier shall be entitled to conduct such inspection prior to transporting the article in question. In the event such inspection is not possible or feasible, the carrier may require that other evidence be provided which demonstrates the actual character of the article or contents of the article in question. A carrier shall not be required to transport or perform any services relating to an article for which a requested inspection cannot be performed or is refused or for which insufficient evidence demonstrating the actual character of the article or contents of the article in question is provided.

(f) Unless otherwise provided by law, these Rules, or the agreement of the customer and the carrier, a carrier is not obligated to transport any articles that the customer was obligated to prepare or pack for transportation if said customer has not properly prepared or packed such articles in a manner that will provide reasonable protection for such articles from damage or loss and provide for reasonably safe transportation of such articles.

(2) **Transportation of Goods Likely to Cause Damage**
Notwithstanding the requirements of Rule 570-38-3-.03 and any duty established thereby,

(a) No household goods carrier shall be required to accept for shipment any articles which are reasonably likely to damage the carrier's equipment or other property;

(b) No household goods carrier shall be required to perform pickup or delivery or render any services at a place or places from or to which it is impracticable to operate vehicles because of the condition of roads, streets, driveways, alleys, or approaches thereto, inadequate loading or unloading facilities, or any other reason not caused by the action or inaction of the carrier; and

(c) No household goods carrier shall accept for shipment any articles which cannot be removed from the premises at which they are located without damage to the articles or the premises.

(3) Impossible or Impractical Delivery; Delivery Contingent Upon Payment

(a) A carrier shall make reasonable efforts to ascertain the characteristics and accessibility of each point of origin, delivery location, and the articles comprising a shipment to determine the possibility, practicability, and labor required for loading, transportation, and unloading of such articles. Such efforts shall be made prior to providing an estimate or bill of lading to a customer and prior to performing any transportation or ancillary services. A carrier that fails to make such efforts but nevertheless provides transportation or ancillary services to a customer shall not be entitled to charge a customer for any ancillary services in accordance with this paragraph but shall be obligated to complete loading, transportation, and unloading of the customer's shipment as agreed and without additional charge to the extent such loading, transportation, and unloading is possible. To the extent such loading, transportation, and unloading is not possible, the carrier may take other actions in accordance with subparagraphs (b) and (c) of this paragraph, but shall not be entitled to charge a customer for any such actions taken or services provided.

(b) In the event a household goods carrier determines after complying with its duty under subparagraph (a) of this paragraph or arrives at a point of origin and determines that loading of some or all of the articles of the shipment directly from the point of origin to the transporting vehicle is physically impractical, impossible, or will require additional labor due to inaccessibility of the building, its structure, the nature of an article or articles included with the shipment, the carrier may:

1. Decline to load those articles for which loading is impossible or impractical and otherwise complete loading as agreed;

2. Decline to provide or reschedule transportation or ancillary services, in which case the customer shall be refunded for any services not utilized;
3. If (1) the carrier has complied with subparagraph (a) of this paragraph; (2) the carrier is capable of doing so; and (3) the customer so agrees, load the affected articles by ancillary means, in which case the carrier will be authorized to charge the customer for any such ancillary services in accordance with these Rules and the Department's maximum rate tariff.

4. Resolve the matter by any other agreement mutually acceptable to the carrier and the customer.

(c) In the event a household goods carrier determines after complying with its duty under subparagraph (a) of this paragraph or transports a shipment to a destination address in accordance with these Rules and determines that delivery of some or all of the articles of the shipment directly from the transporting vehicle to the destination is physically impractical, impossible, or will require additional labor due to inaccessibility of the building, its structure, the nature of an article or articles included with the shipment, the carrier may:

1. Deliver the portion of the shipment for which delivery is physically impractical or impossible to its warehouse or the warehouse of a designee in accordance with the provisions of Rule 570-38-3-.10;

2. Deliver the portion of the shipment for which delivery is physically impractical or impossible to the nearest point of approach to the customer's desired location; or

3. If (1) the carrier has complied with subparagraph (a) of this paragraph; (2) the carrier is capable of doing so; and (3) the customer so agrees, complete delivery to the desired location by ancillary means from the transporting vehicle to the customer's desired location, in which case the carrier will be authorized to charge the customer for any such ancillary delivery and services in accordance with these Rules and the Department's maximum rate tariff.

4. Resolve the matter by any other agreement mutually acceptable to the carrier and the customer.

(d) In the event a household goods carrier transports a shipment to a destination address in accordance with these Rules and determines that a customer is unable or unwilling to pay or arrange for payment in accordance with the requirements of these Rules before the carrier completes delivery or relinquishes possession of the articles it transported, the carrier may take the actions described in paragraph (2) of Rule 570-38-3-.15.

(4) Hoisting Service
For the purposes of this paragraph, the term "hoisting service" means a service by which a load is lifted and/or lowered by means of a drum or lift-wheel around which one or more ropes, chains, cables, or similar instrumentalities are wrapped, regardless of the means by which such device is operated. The following regulations shall apply with respect to hoisting services:

(a) A household goods carrier shall only perform hoisting service if the carrier possesses necessary equipment and personnel and conditions are such to properly perform such service without reasonable likelihood of causing damage to any property or endangering the health or safety of any person.

(b) In the event the customer of a household goods carrier requests hoisting service but the carrier does not possess the necessary equipment or personnel for such service, the carrier may arrange for qualified hoisting service at the customer's expense if it is available. In such circumstances the carrier may advance the amount necessary to perform the hoisting service, which the customer shall reimburse to the carrier upon proof of payment by the carrier. The carrier shall not be responsible for damage to the property of the customer caused by the use of a third-party hoisting service utilized in conjunction with this subparagraph.

(c) If some or all of a customer's articles requires a hoisting service for delivery, but the transporting household goods carrier cannot perform a hoisting service in accordance with this Rule and cannot arrange for qualified hoisting service at the customer's expense, the carrier may deliver the articles in accordance with the rules for impossible or impractical delivery established in paragraph (2) of this Rule.

(5) Frozen or Refrigerated Goods

A household goods carrier shall not accept for transportation any articles which are required to be frozen or refrigerated while being transported unless

(a) The articles are contained in a container which is capable of keeping the articles at the required temperature for the duration of the services to be performed;

(b) The articles are being transported no more than 150 miles;

(c) Delivery of the articles will be accomplished within 24 hours from time of loading; and

(d) No preliminary or enroute servicing by use of dry ice, electricity, or other preservative method by the carrier is required.

(6) Fragile Articles / Articles with Fragile Surfaces
(a) Subject to subparagraph (b) of this paragraph, a customer shall fully protect by boxing, crating, or wrapping articles which are unusually fragile, including but not limited to show cases, wall cases, canoes, works of art, scenery, lighting fixtures, linoleums, statuary, marble slabs, mirrors, glass tops, pictures, paintings, models, antiques, and other similar articles which are easily broken or damaged, or articles upholstered or covered with material or fabric of a delicate nature or color, or other articles with delicate finishes which are easily soiled, torn, or damaged prior to providing such articles to a household goods carrier for transportation or ancillary services, provide, however, that a household goods carrier may offer to protect such articles at the customers expense and at rates not exceeding those provided in the Department's maximum rate tariff.

(b) Subparagraph (a) of this paragraph notwithstanding, a carrier shall wrap, cover, or otherwise protect from damage articles have surfaces that are liable to damage by scratching, marring, or chafing but are of sufficient strength that a carrier can pack other articles against or on top of such articles in a reasonably safe and practicable manner. Such wrapping, covering, or protection shall be provided using furniture pads, covers, burlaps, or other wrappers that are provided by the carrier and a part of the carrier's regular equipment, and shall be included at no additional cost to the customer in the rates for transportation provided by the Department's maximum rate tariff.

(7) Musical Instruments

Musical instruments that require more protection during transportation than the level afforded by the carrier's normal equipment in accordance with subparagraph (6)(b) of this Rule must be packed by the customer in the instrument's designed case or other adequate container that provides reasonable protection for the purposes of transportation.

(8) Mechanical Equipment

Except to the extent otherwise agreed by the customer and household goods carrier, mechanical equipment and other articles of a similar nature including but not limited to appliances, stereo equipment, electronics, power tools, and any other articles the surface of which can be reasonably protected by the carrier's regular equipment in accordance with subparagraph (6)(b) of this Rule must have all motors, mechanical parts, loose accessories and ornamentation securely fastened, bolted, or tied down by the customer in a manner that can reasonably be expected to prevent loss, damage, or impairment of functions while being transported or handled by the carrier.

(9) Delivery to a Warehouse or Storage Facility by Customer Request

A customer may request that a carrier deliver articles to a warehouse or storage facility. In such instances:
(a) The location of the warehouse or storage facility shall be considered the destination, and the customer or carrier shall designate that location as the destination on the bill of lading and freight bill as required;

(b) The articles shall be stored at the warehouse or storage facility in the name of the customer subject to a lien for transportation charges and other charges authorized by the Department's maximum rate tariff;

(c) The carrier may supply containers, cartons, pads, and other materials for the customer's use for the articles in storage at costs not to exceed those provided by the Department's maximum rate tariffs; and

(d) In accordance with Rule 570-38-3-.17(9), the carrier's liability with respect to such articles shall cease upon the unloading of the articles at the warehouse or storage facility.

(10) **Third-Party Services Ordered by Carrier at Specific Request of Customer**

A carrier shall, at the specific written request of its customer, make reasonable attempts to arrange from a third party for any services that said carrier is incapable of providing or prohibited from providing but which are necessary for the satisfactory completion of a shipment the carrier has been contracted to provide. In such circumstances,

(a) The customer shall be responsible for actual charges assessed for any such service to the extent the customer directs the carrier to obtain such service from a third party and the carrier does so arrange;

(b) The carrier shall not be responsible for the quality of products furnished, services performed, or damages to property or premises as a result of engaging any such third party; and

(c) The carrier shall be deemed to be acting specifically as an agent only of the customer to the extent that the customer orders services from a third party in accordance with this paragraph.

**Rule 570-38-3-.06. Maximum Rates Established by the Department.**
The Department shall establish a maximum rate tariff applicable to carriers transporting household goods in this State.

The maximum rate tariff established by the Department shall be available to household goods carriers at the Department's website, and the Section shall make available to household goods carriers a copy of the maximum rate tariff upon reasonable request.

In accordance with the Department's authority under O.C.G.A. § 40-1-8(c)(1), the maximum rate tariff established by the Department pursuant to this Rule may include and impose upon household goods carriers additional rules, regulations, restrictions, duties, and other provisions relevant to the operation of household goods carriers and their compliance with the maximum rates established by the Department. To the extent that a maximum rate tariff includes any such rules, regulations, restrictions, duties, and/or other provisions, it shall be adopted by administrative order in accordance with the requirements of O.C.G.A. § 40-1-8(c)(1).

At least 30 days prior to any change in the maximum rate tariff, the Department shall make available a copy of the proposed revised tariff to household goods carriers and the public and shall conspicuously note thereupon the expected effective date of the revised tariff. The Department shall provide for a method by which household goods carriers and members of the public may comment upon the revised proposed tariff and may, but shall not be required to, make modifications to the proposed revised tariff in response to such comments. The Department may, but shall not be required to, modify the effective date of the proposed revised tariff in response to comments received and modifications made to the proposed revised tariff.

No household goods carrier shall charge a rate higher than the rates prescribed by the Department's maximum rate tariff for any services or products provided. A carrier which violates this rule is subject to adverse action pursuant to Rule 570-38-1-.09.

Rule 570-38-3-.07. Rules Pertaining to Application of Maximum Rate Tariff.

Household goods carriers subject to the Department's Maximum Rate Tariff ("tariff") shall be subject to the following rules:

(1) Method for Determining Distances Relating to Rates or Fares
    (a) To the extent the tariff contains rates based upon travelled or projected mileage, the applicable distance used to calculate charges based upon that rate shall be determined by use of any of the following sources:
1. Google Maps or a similar internet-based mapping service which provides the shortest driving directions;

2. Rand McNally mileage & routing software or a similar mileage and routing software for motor carriers which provides the shortest driving directions for commercial motor vehicle operators; or

3. Upon written approval from the Department, any other source when the methods provided in subparagraphs (1) and (2) are not available or not feasible for use.

(b) When, at the specific request of a customer, a carrier travels a route that results in mileage that exceeds that calculated under subparagraph (a) of this paragraph, said carrier may use the actual mileage travelled to calculate charges based upon actual or projected mileage. In addition, such carrier may add up to a 10% surcharge to such rate if the transportation of the shipment could have been accomplished over a shorter distance without unreasonable risk of damage or loss to the customer's or other property and use of such shorter route was otherwise feasible.

(2) Disposition of Fractions of Cents and Hours

(a) When application of the tariff will result in a charge to a customer which includes a fraction or portion of one cent, that fraction or portion of a cent shall be rounded down to the nearest cent if it is less than one half of a cent or up to the nearest cent if it is one half of a cent or more.

(b) When calculating rates and charges based upon time, the following rules shall apply to periods of time less than an hour to which rates and charges are to be calculated:

1. Actual time spent of 15 minutes or less shall be charged as one-quarter of an hour;

2. Actual time spent of more than 15 minutes but no more than 30 minutes shall be charged as one half of an hour;

3. Actual time spent of more than 30 minutes but no more than 45 minutes shall be charged as three quarters of an hour; and

4. Actual time spent of more than 45 minutes but less than 60 minutes shall be charged as one hour.

(3) Determining Charges Based Upon Hourly Rates for Transportation
(a) Except as provided in subparagraph (b) of this Rule, the time charged in accordance with the hourly rates for transportation shall begin with the arrival of the vehicle(s) and personnel at the designated origin or pick-up location and shall end with the completion of all of the carrier's services at the final destination or drop-off point.

(b) A carrier charging a customer in accordance with the Department's hourly rates for transportation shall be entitled to charge a customer for up to one hour of travel time to a service location at a rate not to exceed the applicable hourly rate for transportation established in the Department's maximum rate tariff.

(c) A carrier who communicates to a customer that a certain number of vehicles and personnel will be used to perform transportation and services relating to a shipment shall not be entitled to charge a customer at rates corresponding to a larger number of vehicles or personnel unless the carrier receives written authorization to do so from the customer prior to the commencement of services and/or transportation at the increased rate(s).

(d) Household goods carriers subject to this Chapter which are utilizing the hourly rates for transportation in the Department's maximum rate tariff are authorized to require customers to commit to a minimum of two hours of services governed by such hourly rates on non-holiday weekdays and a minimum of three hours of services governed by such rates on weekends and state or federal holidays.

(e) Rates for ancillary non-transportation services performed by a carrier at the request of a customer shall not exceed the hourly rates for transportation described in the Department's maximum rate tariff if the transportation of the shipment involved is also governed by those rates.

(4) **Minimum Weight When Utilizing Weight and Distance Rates**

Except as otherwise provided by law or in these Rules, a household goods carrier transporting any shipment of household goods weighing less than 1,000 pounds is authorized to use a constructive shipment weight of up to 1,000 pounds for the purposes of calculating charges for said shipment using the weight and distance tariff rates.

(5) **Determining Weight of Household Goods for Transportation**

(a) To the extent that a household goods carrier is required to determine the weight of articles in order to apply a rate or charge a customer in accordance with the Department's maximum rate tariff, the following procedure shall be used by the carrier:

1. A tare weight of the vehicle(s) which will transport the articles in question shall be calculated by having the vehicle weighed prior to the transportation or loading onto the vehicle of the articles. The vehicle(s) shall be weighed
while unoccupied, with a full gasoline tank or as close to a full tank as possible. In accordance with subparagraph (e) of this Rule, tare weights shall include the weight of any articles being transported during the same trip that do not belong to the customer for whom a net weight is being calculated.

2. After the vehicle has been loaded with the customer's articles, a gross vehicle weight shall be determined by weighing the vehicle(s) again prior to delivery of the articles.

3. The net weight of the articles shall be determined by subtracting the tare weight from the gross weight. This net weight shall be used for the purposes of applying rates and charges based upon the weight of the customer's articles.

(b) Vehicles weighed for the purposes of determining their tare weight or gross weight shall contain all blankets, pads, chains, dollies, hand trucks, and other equipment needed for the transportation and services contracted by the customer. Such vehicles shall be weighed by a certified weigh-master or weight inspector on a certified scale.

(c) If no scale conforming to the requirements of this Rule is available at the point of origin where articles are to be loaded upon a household goods carrier's vehicle for transportation or within a 10-mile radius of such point, a constructive net weight may be used for the purposes of determining the weight of the household goods. Such weight shall be calculated at a rate of seven pounds per cubic foot of properly loaded space.

(d) The gross weight, tare weight, and net weight or constructive net weight of articles transported shall be shown upon the Bill of Lading and Freight Bill pertaining to the transported articles whenever such weights are relevant to the rates or charges applied. All tare, gross, actual net weights, and constructive net weights shall be properly certified to by the person or persons who ascertained such weights. Except in circumstances in which a carrier is authorized to utilize a constructive weight for a customer's articles, a carrier must obtain a weight ticket which attests to the tare and gross weight used to calculate the weight of a customer's articles and such weight ticket must accompany the Bill of Lading and Freight Bill pertaining to those goods.

(e) As provided for in paragraph (4) of this Rule, a household goods motor carrier transporting any shipment of household goods weighing less than 1,000 pounds is authorized to use a constructive shipment weight of up to 1,000 pounds for the purposes of calculating charges for said shipment using the weight and distance tariff rates.
(f) Notwithstanding the other requirements of this paragraph, if a household goods carrier estimates that a customer's articles to be transported by a vehicle do not exceed 1,000 pounds, the net weight of those articles may be determined by weighing them independently on a scale that complies with the requirements of this paragraph.

(g) Notwithstanding the other requirements of this Rule, a household goods carrier shall include the weight of any articles not belonging to a particular customer in the tare weight of the vehicle when calculating the net weight of that customer's articles in any instance in which a vehicle used by a household goods carrier will carry the articles of more than one customer during a trip.

(h) Notwithstanding the other requirement of this paragraph, a carrier is authorized to utilize a constructive weight for a customer's articles as provided in paragraph (6) of this Rule under the circumstances described therein for the purposes of calculating charges for a shipment using the weight and distance tariff rates.

(i) A customer may request that one re-measurement each of a vehicle's tare and/or gross weight be taken in the customer's presence and at the customer's expense in accordance with the Department's maximum rate tariff. Such request must be made prior to delivery of the customer's shipment. Following re-weighing, the lowest calculable net weight shall be used for the purposes of applying rates and charges based upon the weight of the customer's articles. If, after re-measurement, the original net weight is still the lowest calculable net weight, or if the difference between the original and lowest calculable net weight is less than 500 pounds for shipments with a net weight of 5,000 pounds or less or 2% or less for shipments with a net weight of more than 5,000 pounds, the carrier shall be authorized to charge the customer a reweighing charge in accordance with the Department's maximum rate tariff.

(6) Display of Vehicle Cargo Space; Constructive Shipment Weights for Fully Occupied or Reserved Vehicles and Space

(a) Carriers regulated by this Subchapter shall display in clearly legible text on each side of any vehicle used by the carrier for the purposes of transporting household goods the number of cubic feet of storage space available in or on the vehicle for the purpose of transporting household goods.

(b) A carrier may accept a shipment for transportation from a customer which, when properly loaded, occupies the entire storage space of a vehicle or which otherwise prevents the transportation of other customers' articles on the same vehicle. In such instances, the carrier is authorized - but not required - to utilize a constructive weight of seven pounds per cubic foot of available vehicle storage space for the purposes of calculating charges for said shipment using the weight and distance tariff rates.
(c) A carrier may accept a request or order from a customer for exclusive use of a vehicle of a specific or minimum cubic capacity for transportation of household goods. In such instances:

1. The carrier is authorized - but not required - to utilize a constructive weight of seven pounds per cubic foot of available vehicle storage space for the purposes of calculating charges using the weight and distance tariff rates;

2. If the capacity of the ordered vehicle is 1,000 cubic feet or less, the carrier is authorized but not required to utilize a constructive weight of 7,000 pounds for the purposes of calculating charges using the weight and distance tariff rates; and

3. If, at the time for loading the shipment in question, the carrier does not have available a vehicle of the capacity ordered by the customer, the carrier may substitute a vehicle or vehicles of an equivalent or greater capacity but may not utilize a larger capacity for the purposes of calculating a constructive weight than that originally ordered by the customer.

(d) A carrier may accept a request or order from a customer for exclusive use of a portion of the capacity of a vehicle for the purposes of transporting household goods. Such requests or orders may be made in units of 100 cubic feet. In such instances,

1. The carrier is authorized - but not required - to utilize a constructive weight of 700 pounds per 100 cubic feet of space ordered for the purposes of calculating charges using the weight and distance tariff rates; and

2. If the capacity of the space ordered is 300 cubic feet or less, the carrier is authorized but not required to utilize a constructive weight of 2,100 pounds for the purposes of calculating charges using the weight and distance tariff rates.

(e) A carrier utilizing any of the constructive weights described in this paragraph shall be required to clearly notate on the bill of lading and freight bill the following:

1. That a constructive shipment weight was used in the calculation of charges;

2. That the use of a constructive shipment weight was authorized based upon the complete occupancy of a vehicle / vehicles as described in subparagraph (b) of this paragraph; the exclusive use of a vehicle / vehicles as described in subparagraph (c) of this paragraph; or the reservation of space on a vehicle as described in subparagraph (d) of this paragraph;

3. The calculated constructive weight used for the purposes of calculating charges using the weight and distance tariff rates; and
4. When available, the actual weight of the shipment in question.

(7) **Overflow When Utilizing Weight and Distance Rates**

When, while transporting or preparing to transport articles utilizing the weight and distance tariff rates, a shipment is so loaded that one or more of a carrier's vehicles are loaded to capacity and an overflow remains which does not require the full capacity of another vehicle, the actual weight of such overflow shall be calculated and added to the combined weight of the total shipment to calculate charges using the applicable weight and distance tariff rates.

(8) **Handling and Storage Included in Rates**

(a) Except as otherwise provided in these Rules, the rates for transportation shall include the disassembling of set-up pieces of furniture at their pick-up location, the physical handling of all articles in a shipment from their pick-up location to the household good carrier's vehicle for transportation, stowage of same within the vehicle, unloading of goods at the destination location, handling of same to designated spots at the destination location, and the assembly at the destination location of pieces of furniture which the carrier disassembled at the pick-up location. Notwithstanding the foregoing, however, a carrier may charge for ancillary services in accordance with Paragraph (3) of Rule 570-38-3-.05 to the extent that the carrier has complied with its duty under subparagraph (a) of that paragraph.

(b) A carrier shall wrap, cover, or otherwise protect from damage articles have surfaces that are liable to damage by scratching, marring, or chafing but are of sufficient strength that a carrier can pack other articles against or on top of such articles in a reasonably safe and practicable manner. Such wrapping, covering, or protection shall be provided using furniture pads, covers, burlaps, or other wrappers that are provided by the carrier and a part of the carrier's regular equipment, and shall be included at no additional cost to the customer in the rates for transportation provided by the Department's maximum rate tariff.

(c) Notwithstanding subparagraph (a) of this paragraph, if a customer's articles are being picked up from a storage location in accordance with Rule 570-38-3-.14 or any other provision of these Rules which references Rule 570-38-3-.14, the rate for transportation shall not include any services which occur prior to the loading of the articles onto the carrier's vehicle from the door, platform, or other point convenient or accessible to the vehicle at the storage location.

(d) Notwithstanding subparagraph (a) of this paragraph, if a customer's articles are being delivered to a storage location in accordance with Rule 570-38-3-.14 or any other provision of these Rules which references Rule 570-38-3-.14, the rate for transportation shall not include any services which occur subsequent to the
unloading of the articles from the carrier's vehicle onto the door, platform, or other point convenient or accessible to the vehicle at the storage location.

(9) **Regular Hours for Purposes of Rate Calculation; Overtime Charges**

(a) For the purposes of the Department's maximum rate tariff, regular hours shall begin at 8:00 A.M. and end at 5:00 P.M. every day except all Saturdays and Sundays and the holidays of New Years Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.

(b) In the event a listed holiday falls on a Saturday, the prior Friday shall be considered the holiday. In the event a listed holiday falls on a Sunday, the following Monday shall be considered the holiday.

(c) Services provided by a carrier shall be performed during regular hours except when:

1. The carrier and customer have agreed that the carrier shall provide services during non-regular ("overtime") hours and the carrier has obtained written consent from the customer for the additional or increased charges; or

2. The carrier is required to provide services during overtime hours by law, ordinance, or the owner or landlord of the property upon which the service is performed.

(d) Whenever a customer is subject to additional or increased charges because a carrier is scheduled to perform services at non-regular ("overtime") hours, the customer shall be notified of the increased charges and the carrier shall obtain consent from the customer for such charges prior to performing any such services.

(10) **Multiple Pick Up or Delivery Locations**

A household goods carrier may pick up or load portions of a customer's shipment at multiple locations and may deliver or unload portions of a customer's shipment at multiple locations as authorized by these rules or as requested by the customer. When multiple pick-up and/or delivery locations are utilized and the customer is being charged in accordance with weight and distance tariff rates, the household goods carrier shall be authorized to charge the customer for the total weight of the entire shipment for the total distance from the first point of pick-up to the final point of delivery, plus any additional service charges applicable in accordance with the Department's maximum rate tariff.

(11) **Waiting Time**

(a) Except as otherwise provided in this paragraph, a household goods carrier may charge a customer for any time during which all of its requested equipment and/or personnel are on site and prepared to provide services as scheduled but
unable to provide such services unless the inability to provide scheduled services is the fault of the carrier or its personnel. Such waiting time will be charged in accordance with the Department's maximum rate tariff.

(b) Except as otherwise agreed between a carrier and its customer, a carrier shall only be entitled to charge a customer for waiting time that occurs during regular hours.

(c) A carrier that is providing transportation services spanning more than 100 miles but less than 200 miles shall not charge a customer for the first one hour of waiting time for its services offered in conjunction with such transportation, provided however that a carrier governed by the hourly rates for transportation shall not be required to comply with this subparagraph.

(1) A claim by a customer of a household goods carrier regulated under these Rules that said carrier charged in excess of the amount(s) authorized by these Rules or lost or damaged property of the customer must be submitted to the carrier in writing (print or electronic) no more than 90 days after delivery or - where the carrier failed to deliver such property - scheduled delivery. If a carrier represents to a customer that delivery is expected at a later date than originally scheduled, this 90-day period shall not commence until the later scheduled delivery date occurs.

(2) A carrier of household goods shall handle to completion all claims for overcharge, loss, or damage in a reasonably timely manner and within 90 days of the filing of the claim.

(3) For the purposes of this rule, "completion" means payment or refund of the claim to the claimant, notification to the claimant that the carrier has determined it does not own any amount to the claimant under the relevant law and/or agreement, return to value of any and all claimed lost or damaged property or damage either through replacement or repair, or any other method by which a claim is entirely addressed or the carrier notifies a claimant of the reason(s) why the complaint cannot or will not be entirely addressed.

(4) Except to the extent prohibited by law, claims for loss or damage shall be paid by the carrier at fault and claims for overage shall be paid by the carrier which collected the overage.

(5) Except as provided in paragraph (6) of this Rule, a carrier evaluating a claim for loss or damage shall inspect any and all reported damage and provide for repairs or compensation based on the level of liability selected and defined in the Addendum to Uniform Household Goods Bill of Lading (Shipper Declaration of Value) form. A customer filing a claim for loss or damage under this Rule shall give the carrier a reasonable opportunity to inspect any property alleged to be damaged or lost or else such customer shall not be entitled to full return to value in accordance with this Rule.

If any such damage is determined to be transit related, the carrier shall repair or restore to original condition or otherwise make whole the claimant by compensation.

(8) No carrier subject to regulation under this Subchapter shall collect or require a shipper to pay any charges relating to lost or damaged goods or articles when a shipment is completely or totally lost or destroyed in transit, provided however that the carrier shall
be entitled to collect and the customer shall be required to pay any specific valuation charges that are due to the carrier for such shipment. This paragraph shall not apply to the extent that any such loss or destruction is due to the act or omission of the customer.

(a) Loss or damage to any property occurring after the property has been delivered to or received by the customer or the customer's agent;

(b) Loss or damage to any property occurring before the property has been handled or loaded by the carrier;

(d) Damage or loss to articles that were packed and/or prepared by the customer or the customer's agent to the extent the damage was caused by the negligence of the customer or the customer's agent in packing and/or preparing such articles for transportation; or

(e) The quality of products furnished, services performed, or damages to property or premises as a result of engaging any third person or persons in accordance with Rule 570-38-3-.05(10).

(f) Constructive damage to household goods articles that comprise part of a "matched set" of articles that did not actually receive damage. Except to the extent otherwise required by law, in instances in which a carrier is liable for one or more articles comprising a matched set or group of articles, the carrier shall only be liable for repair, compensation, or replacement of the lost or damaged article(s) and shall not be liable for repair, compensation, or replacement of the entire set or group of articles.

(4) A customer or passenger of a passenger carrier that does not check a particular piece or pieces of baggage but instead retains physical possession of said baggage shall assume full responsibility for his or her own baggage, and the passenger carrier shall not be responsible to the passenger for loss or damage to said baggage except to the extent required by law.
