Chapter 80-1. BANKS.

Subject 80-1-1. APPLICATIONS, REGISTRATIONS AND NOTIFICATIONS.
Rule 80-1-1-.01. Applications, Registrations and Notifications, Generally.

(1) Proposed activities in Georgia by financial institutions may require a form application, a letter application, a form registration, or merely a letter notification to the Department. Certain qualifying institutions may be eligible to shorten the form of application, and may benefit from an expedited processing time including shortened or consolidated notice periods. Such criteria for banks are provided at Department of Banking and Finance Rule 80-1-1-.10, and Rule 80-6-1-.03. Criteria for bank holding companies may be found at Rule 80-6-1-.04. Requirements for all banking institutions to conduct certain other activities have been streamlined to coordinate with federal requirements.

(2) Where forms are required, they may be obtained from the Department.

(3) Other Applications. Within these Rules: Chapter 80-2-1 covers Credit Union activities; Chapter 80-3-1 covers Money Transmitters, Payment Instrument Sellers, and Check Cashers; Chapter 80-6-1 covers Holding Companies; and Chapter 80-11-1 covers Mortgage Lenders and Brokers.

(4) The Department has made available an Applications Manual and a Statement of Policy with details of the procedures required for most activities of regulated institutions in Georgia. Interested persons should consult the Applications Manual, Department's Statement of Policy, Rules, and applicable law which form the basis for Department decisions. These materials are available electronically. The regulations provide an overview; the Applications Manual and Statement of Policy provide detailed instructions.

(5) Fees are provided in DBF Rule Chapter 80-5-1.

(1) An application form and package for chartering a Georgia state chartered financial institution is necessary. An organizing group should schedule an initial meeting with the Department to discuss chartering issues, at which time an application package will be distributed. An applicant holding company that has established a lawful banking business in Georgia which meets certain criteria may qualify for expedited processing. Rule 80-6-1-.04 and the Applications Manual should be consulted to determine if the applicant meets the necessary criteria.

(2) Specific requirements for documents, meetings with the Department and publication of notices are contained in the Applications Manual and the Statement of Policies of the Department.

(3) Submission and completion of application.

   (a) A statement in support of an Application for Approval of a Charter shall be filed with the Department of Banking and Finance. If the Department of Banking and Finance notifies the applicant of deficiencies in the application, the applicant must complete the application within thirty (30) days after receipt of such notification.

   (b) An application will not be deemed to have been officially accepted until such time as the required fee has been paid and all portions of the application have been completed to the satisfaction of the Department of Banking and Finance.

Rule 80-1-1-.04. Notification of Filing and Protest.

(1) Applicants will be notified of official acceptance of a bank charter application or receipt of certain other applications for filing unless the department issues an approval of the application within seven days of receipt. For a charter application or merger application pursuant to O.C.G.A. § 7-1-532, the applicant shall cause a notice, in such form as the Department may prescribe, to be published in a newspaper of general circulation in the community in which the applicant's main office is located and in a newspaper of general circulation in any other community in which the applicant proposes to engage in business as notification to any interested parties of their right to comment or protest the application, unless otherwise provided in a rule or law pertaining to a specific transaction. The Applications Manual should be referred for details regarding the publication requirements, if any, for other types of applications.

(2) Publication of notice for public comment on a bank charter application or merger application pursuant to O.C.G.A. § 7-1-532 may commence no sooner than five (5) days prior to the date the application is mailed or delivered to the Department. Any person desiring to comment upon or formally protest a bank charter application must notify the Department in writing within 30 days of the date of the publication of the notice in paragraph (1). The comment period may be extended if official acceptance of a bank charter application is delayed. Any person desiring to comment upon or formally protest a merger or acquisition pursuant to O.C.G.A. § 7-1-532 as set forth in Rule 80-6-1-.05 must notify the Department within 30 days of the date of the publication of the notice in paragraph (1).

(3) All comments and any notices of intent to protest pursuant to paragraph (2) and filed on a timely basis shall be reviewed and considered by the Department. The Commissioner may grant or deny a request for hearing in connection with a protest of an application.
The Commissioner shall hold a hearing if he/she determines that written comments are insufficient to make an adequate presentation of the issues raised or if he/she determines that a hearing would otherwise be in the public interest. If a hearing is to be held, the protester and the applicant will be notified of a date as established by the department. Intention to appear at such hearing must be filed by the protester in writing with the Department within 15 days from date of notification of hearing date. Failure to file such intentions shall constitute grounds for canceling any scheduled hearing.

(4) Notwithstanding other provisions of this regulation, final determination to grant, conditionally or otherwise, or deny any application shall be in the sole discretion of the Commissioner of Banking and Finance or his/her legally authorized representative, and such action shall be final; provided, however, unless specified in other law or regulation, no action shall be required before the expiration of 90 days after the date of filing of the application.

(b) The applicant shall present a brief opening summary of the contents and purpose of the application.
(c) Following the applicant's statement, each person contesting the application shall present his or her data and material, oral or documentary. The contestants may agree, with the approval of the presiding officer, to have one of their number make their presentation.

Rule 80-1-1-.08. Procedures for Other Transactions, Expedited, Letter Form, and Notice Only Applications.

(1) Conversion to state-chartered bank. A meeting with the department should precede filing a letter form application, which application should include all of the information requested in the Applications Manual.

(2) Reserved.

(3) Mergers. The procedure for approval of a merger involves the filing of a letter application to the Department and, if a state bank is the surviving financial institution, the publication of Articles of Merger.

(4) Change in Control:
   (a) A letter form notification to the department is required, together with a copy of any federal filing.
   (b) The board of directors of the financial institution subject to a change in control shall be notified of the filing of the notice with the department unless the individuals involved request that such notice be withheld and, in the opinion of the department, they give a valid reason for withholding such notice.

(5) Fiduciary Powers. A full application as detailed in the Applications Manual is required for exercise of full trust powers. Exercise of limited trust services and a single trust service requires a letter form application. Request to perform a single trust service may be expedited. No publication is required.

(6) Creation and Operation of a Subsidiary of a Bank. Code Sections 7-1-261 and 7-1-288 provide for the ability of a bank to exercise powers incidental to banking and to create a separate subsidiary to effect such powers as may be financial in nature, incidental or complementary to the provision of financial services, subject in most cases to certain investment limitations. Most require a letter form application describing the activity, how it relates to the business of banking and finance, and what protections will be in place to deal with any associated risks.

(7) Relocation and Simultaneous Redesignation of two or more banking locations.
(a) Definitions:

(i) Relocation. The location of an existing banking location is to be moved to a new or additional location which is to be constructed, purchased or leased within the same immediate vicinity of the existing branch.

(b) Procedure for a Relocation. A bank meeting the qualifying criteria for expedited processing in sections (1) through (4) of Rule 80-1-1-10 may submit a letter form notification to relocate an existing banking location. The approval to relocate an existing banking location under the notice procedure will be effective at the earlier of: an approval letter from the department, or 10 business days from the date of acknowledged receipt. In the event the bank does not qualify for expedited processing, a form application should be submitted to the Department, which will normally be processed within 30 days from receipt of a completed application. All relocations should include a notice to customers posted in a conspicuous place of the affected banking location as well as on the bank's website at least 30 days before relocating. In addition, if any relocation proposal involves relocation of the bank's main office, additional procedures such as amendment of the bank's Articles of Incorporation may apply.

(c) Procedure for a Redesignation. Upon receipt of a letter form request setting forth the details of the proposed redesignation, the Department will review and process such request within seven (7) days. In the event the bank intends on closing the former main office as part of a redesignation, then the closing procedures for a bank location must be followed.

(8) Changes in Capital Structure involving Stock Redemption and Conversions. Code Sections 7-1-414 and 7-1-419 should be consulted. A complete letter form application describing the transaction should be acted upon within 10 business days of receipt.

(9) Letter form applications are required for the following other activities of banks. Related Code Sections are referenced.

(a) Name reservation and permission is treated in Code Sections 7-1-130, 7-1-131, 7-1-242 and 7-1-243. The department may approve a name for a bank holding company that is not distinguishable on the records of the Secretary of State from the name of a deposit taking financial institution wholly owned by that bank holding company. (a) A bank service corporation created to provide support services for one or more financial institutions; or

(b) A corporation engaged in functions or activities that the bank is authorized to carry on may take advantage of expedited processing as provided in the department's Applications Manual.

(12) Opening and closing of a representative office. Prior to opening a representative office, a Georgia state-chartered bank, bank holding company, or subsidiary of a bank or bank holding company must register the location with the Department by filing a letter form registration with the Department. Rule 80-1-2-.09. Debt Cancellation Contracts and Debt Suspension Agreements.

(1) State chartered financial institutions may offer Debt Cancellation Contracts and Debt Suspension Agreements to customers, subject to this rule and policies and procedures of the department. Policies of the department include requirements for disclosures and certain prohibited practices. Financial institutions are expected to comply with all these requirements. Such products will not be considered insurance products in this state when offered by financial institutions.

(2) Definitions and Explanation:

(a) A "Debt Cancellation Contract" (DCC) is a contractual agreement modifying loan terms that is linked to a financial institution's extension of credit, under which the financial institution agrees to cancel all or part of a customer's obligation to repay an extension of credit from that financial institution upon the occurrence of a specified event.

(b) A "Debt Suspension Agreement" (DSA) is a contractual agreement that modifies loan terms and that is linked to an extension of credit, wherein the financial institution agrees to suspend all or part of a customer's obligation to repay an extension of credit upon the occurrence of some specified event.

(c) Typically these products are tied to the life, injury or disability of the borrower, although some products are based on the occurrence of some other specified event, such as termination of employment.

(d) Fees are assessed to the borrower for the ability to cancel or suspend loan payments on the loan, in accordance with the terms of the agreement.
(e) To "underwrite" in the context of this rule means to directly provide for any losses resulting from the operation of the product.

(3) State chartered financial institutions desiring to offer DCC or DSA products where the financial institution is not underwriting the product shall provide a letter form notification to the department. The financial institution must keep on file the following information, which must be obtained before execution of a contract:

(a) A listing of the types of contracts offered and the underwriting standards for each product;

(b) A copy of the written policies and procedures developed regarding administration of debt cancellation or debt suspension products and their compliance with department policies;

(c) Identification of any vendor or third party service provider used in conjunction with the product offerings, including a list of the products and services being provided (see also Rule 80-1-2-06 for banks and Rule 80-2-7-.01 for credit unions for contracting with third parties);

(d) A copy of the financial institution's plan demonstrating the ability to administer claims;

(e) An analysis of the financial institution's risk evaluation and mitigation procedures, including any plans to obtain insurance coverage to fully or partially indemnify itself for losses resulting from the operation of the DCC or DSA product; and

(f) An analysis of the expected impact on financial institution staffing.

(4) If a financial institution intends to underwrite any part of the DCC or DSA, the following information must also be submitted to the department in the form of a letter application. No underwriting will be permitted until such approval is granted.

(a) Analysis of management expertise, based on education and experience, in the areas of product design, underwriting, actuarial analysis, claims processing and risk reserving and accounting practices to support the ability to provide these functions in-house.

(b) An explanation of the risk management techniques the financial institution will undertake, including product design criteria, underwriting procedures, limitations and conditions on DCC or DSA products, and other risk mitigation procedures in order to limit risk exposure to the financial institution.

(c) A well-documented analysis of risk of the products being proposed, including the risks posed by catastrophic events that could result in unusually high claims upon the financial institution.
(d) An outline of the proposed practices for properly reserving for risks related to these products based on industry practices and Generally Accepted Accounting Principles.

(e) An analysis of the financial institution to support that the financial institution has the proper financial position, cash flow performance and capital position to sustain continued operations in the event of an unusually high claims event.

(5) State chartered financial institutions desiring to offer DCC or DSA products where third party service providers will underwrite the products or will administer any part of the program shall provide the letter form notification described in this rule. In addition to any requirements of Rule Chapter 80-1-2 and Rule Chapter 80-2-7 governing service providers, the following information shall also be obtained by the financial institution before any contract is executed, and such information will be kept on file at the financial institution:

(a) A description of the experience of the third party service provider in offering such DCC or DSA products;

(b) An analysis of the financial stability of the third party service provider, including but not limited to: operating or cash flow statements, analysis of capital and reserves and the use of external company ratings performed by a nationally recognized rating service;

(c) In lieu of (a) and (b) of this paragraph, the financial institution may provide proof of the third party's appropriate licensure with the state of Georgia Department of Insurance.

(d) A copy of the standard form contract to be utilized. The contract must contain the third party service provider's assurance that:

1. It will make its books and records available for examination by the department; and

2. The department shall have the authority to periodically review the internal routine and controls of the service provider to ascertain that the operations are being conducted in a sound manner in keeping with industry practices and Generally Accepted Accounting Principles.

(e) A schedule of fees to be charged for each product or service performed; and

(f) A listing of reports, printouts, schedules or program that will be provided by the third party service provider to the financial institution to permit management, auditors, examiners and other interested parties to monitor the services provided.

In those instances where the repayment of revenue obligations is dependent upon rentals or other fees payable to a political subdivision by a non-governmental unit, such as in the case of industrial revenue bonds, the obligor shall be deemed to be the non-governmental unit responsible for the payment of such rentals or other fees and any guarantor of such payments. Investment in such securities is limited to fifteen (15) percent of the bank's statutory capital base.
5. Securities issued by political subdivisions rated in the four highest rating categories by a nationally recognized rating service may be held in an amount up to fifteen (15) percent of a bank's statutory capital base.

(2) Equity Securities.

Except as allowed by Code Section 7-1-288 or in this regulation, a bank may not engage in any transaction with respect to shares of stock or other capital securities of any corporation.

(3) Investment Funds.

A state chartered bank may invest up to fifteen (15) percent of its statutory capital base in securities of, or other interests in, any open-end or closed-end management type investment fund or investment trust which is registered under the Investment Company Act of 1940, subject to the following additional conditions.

(a) The investment portfolio of such investment fund or investment trust shall be limited to those securities in which banks or trust companies are permitted to invest directly under this rule and Title 7 of the Official Code of Georgia; and

   2. Engage in the purchase or sale of interest rate futures contracts;

(c) On an aggregate basis, investments in such funds or trusts shall not exceed:
   1. Thirty (30) percent of the bank's statutory capital base per fund/trust family or sponsor; and
   2. Sixty (60) percent of the bank's statutory capital base for all funds combined.

(d) An aggregate limitation of one hundred twenty (120) percent of the bank's statutory capital base shall be allowed for all funds combined if the funds or trusts:
   1. Are managed so as to maintain the fund or trust shares at a constant net asset value;
   2. Are no-load; and
3. Are rated in the highest rating category by a nationally recognized rating service.

(4) Asset-Backed Securities.

A bank may purchase asset-backed securities repayable in both interest and principal which are issued under any of the following:

(a) Governmentally sponsored programs which are fully collateralized by obligations fully guaranteed as to principal and interest by a governmental entity to the same extent as direct obligations of the governmental entity which is the guarantor;

(b) Private programs which are fully collateralized by obligations fully guaranteed as to principal and interest by a governmental entity to the same extent as direct obligations of the governmental entity which is the guarantor; or

(c) Other private programs in amounts which do not exceed fifteen (15) percent of the bank's statutory capital base for each issuer, provided the issue:

(b) Purchasing or trading any other type of IO securities may receive prior written approval from the department for institutions demonstrating technical expertise and policies sufficient to promote safe and sound use of such investments as part of prudent investment strategies.

(6) Futures, Forwards, Option Contracts and Interest Rate Swaps.
Futures, forwards, option contracts, interest rate swaps, and direct and indirect investments associated with any security which otherwise constitutes a permissible investment under provisions of this rule may be approved in writing by the department for banks demonstrating technical expertise and policies sufficient to promote safe and sound use of such investments as part of prudent investment strategies.

(7) Trust Preferred Securities.

Trust preferred securities, generally, may be defined as issues of cumulative preferred securities, containing characteristics of both debt and equity securities, where the issuer is normally a business trust formed by a corporate issuer. The corporate issuer issues debt to the trust in the form of deeply subordinated debentures. The securities represent undivided beneficial interests in the assets of the issuer trust, and distributions by the issuer trust are guaranteed by the corporate issuer to the extent of available funds of the issuer trust. The trust preferred securities may or may not be rated, but in any event must be scrutinized under the suitability analysis in this rule as if they were a loan being underwritten by the purchasing bank. Trust preferred securities are authorized investments for a state bank subject to the terms and conditions contained in this paragraph 7. A bank's investment in a closed or open-end investment fund, consisting of trust preferred securities, shall be subject to the terms and conditions contained in Rule 80-1-4-.01, paragraph 3. entitled "Investment Funds". A security backed by trust preferred securities shall be deemed an asset-backed security and shall be subject to the terms and conditions contained in Rule 80-1-4-.01, paragraph 4. entitled "Asset-Backed Securities".

(a) The bank's investment in each corporate issuer of trust preferred securities, that is, in each entity that controls an issuer trust (other than in a fiduciary capacity), shall not exceed fifteen (15) percent of the bank's statutory capital base.

(b) The bank's aggregate investment in trust preferred securities shall not exceed the bank's policy limits or one hundred (100) percent of the bank's statutory capital base, whichever is less.

(c) The issuance of the trust preferred securities shall be registered under the Securities Act of 1933, as amended, shall be eligible for resale pursuant to Securities and Exchange Commission Rule 144A, or the securities shall be capable of being sold with reasonable promptness at a price which corresponds to their fair value. As to this requirement, if an issuance is not registered, eligible for resale, or readily marketable, it must meet a suitability analysis test as provided in (e) of this rule;

(d) The securities shall be of investment quality or the credit equivalent of investment quality. Credit equivalency shall be determined by the methods in subparagraph (e) of this rule. Investment quality means that a rating in one of the four highest
categories has been assigned to the securities by a nationally recognized rating service and, as such, are not predominantly speculative in nature;

(e) Before the purchase of any trust preferred securities, the investing bank shall perform a due diligence suitability analysis to determine whether the trust preferred securities are suitable for purchase relative to the bank's tolerance for credit risk, asset liability position, sensitivity to market risk, and its liquidity exposure. Such analysis shall include, at a minimum, the following:

1. A complete credit analysis, including cash flow projections, sufficient to determine that the issuer is creditworthy and thus has the ability to meet the debt repayment schedule;

2. A credit underwriting analysis sufficient to determine that the securities meet the credit underwriting criteria set forth by the bank's lending policies;

3. A marketability analysis, sufficient to determine whether or not the securities may be sold with reasonable promptness at a price corresponding to their fair value;

4. The documentation of the suitability analysis shall be in written form and maintained in the bank's files;

5. A periodic update of the suitability analysis shall be performed by the bank at least as frequently as annually during the term of the investment; and

(f) The bank shall obtain and monitor the securities' market values on an ongoing basis.

(g) The bank's written policies and procedures shall adequately address the various risks inherent in these securities including credit risk, price or market risk, interest rate risk, and liquidity risk.

(h) The bank shall notify the department in writing of any investment in trust preferred securities where the issuer is not a bank or bank holding company as defined in Code Section 7-1-605.

(8) Tier 2 Subordinated Debt Securities.

Tier 2 subordinated debt securities are subordinated notes issued by banks or bank holding companies, as defined in O.C.G.A. § 7-1-605, intended to qualify as Tier 2 capital under federal regulatory capital guidelines. The subordinated debt securities may or may not be rated, but in any event must be scrutinized under the suitability analysis in this rule as if they were a loan being underwritten by the purchasing bank. Tier 2 subordinated debt securities are authorized investments for a state bank subject to the terms and conditions contained in this paragraph. The permissibility of such investment
may be determined pursuant to this paragraph or pursuant to any other paragraph or paragraphs of this rule to the extent the terms of such investment conform to such other paragraph or paragraphs.

(a) The bank's investment in each corporate issuer of Tier 2 subordinated debt securities shall not exceed fifteen (15) percent of the bank's statutory capital base. For purposes of determining compliance with this requirement, investments in Tier 2 subordinated debt securities issued by a bank shall be aggregated with securities issued by such bank's holding company.

(b) The bank's aggregate investment in Tier 2 subordinated debt securities shall not exceed the bank's policy limits or one hundred (100) percent of the bank's statutory capital base, whichever is less. For purposes of determining compliance, this aggregation requirement applies to all subordinated debt investments, whether purchased pursuant to this paragraph or any other paragraph of this rule.

(c) The issuance of the Tier 2 subordinated debt securities shall be registered under the Securities Act of 1933, as amended, shall be eligible for resale pursuant to Securities and Exchange Commission Rule 144A, or the securities shall be capable of being sold with reasonable promptness at a price which corresponds to their fair value as determined by the bank following due diligence. In the alternative, the issuance can satisfy the suitability analysis test as provided in subsection (e) of this rule.

(d) The securities shall be of investment quality or the credit equivalent of investment quality. Investment quality means that a rating in one of the four highest categories has been assigned to the securities by a nationally recognized rating service and, as such, are not predominantly speculative in nature. If the securities are not rated by a nationally recognized rating service, then credit equivalency shall be determined by the methods in subsection (e) of this rule.

(e) Before the purchase of any Tier 2 subordinated debt securities, the investing bank shall perform a due diligence suitability analysis to determine whether the Tier 2 subordinated debt securities are suitable for purchase relative to the bank's tolerance for credit risk, asset liability position, sensitivity to market risk, and its liquidity exposure. Such analysis shall include, at a minimum, the following:

1. A complete credit analysis, including pro forma cash flow analysis, sufficient to determine that the issuer is creditworthy and thus has the ability to meet the debt repayment schedule;

2. A marketability analysis, sufficient to determine whether or not the securities may be sold with reasonable promptness at a price corresponding to their fair value, which analysis may be supported by input from the placement agent for such securities;
3. The documentation of the suitability analysis shall be in written form and maintained in the bank's files; and

4. A periodic update of the suitability analysis shall be performed by the bank at least as frequently as annually during the term of the investment.

(f) The bank shall obtain and monitor the securities' market values on an ongoing basis.

(g) The bank's written policies and procedures shall adequately address the various risks inherent in these securities including credit risk, price or market risk, interest rate risk, and liquidity risk.

(h) Subordinated notes issued by banks or bank holding companies, as defined in Code Section 7-1-605, shall not be deemed to be impermissible investments solely by virtue of the fact that the issuer has not obtained regulatory confirmation that proceeds from the issuance of the securities will qualify as Tier 2 capital.

(9) All Other Securities.

A bank may invest in such other securities or funds as the department may approve, upon a finding that the securities are marketable under ordinary circumstances, with reasonable promptness at a price which corresponds to their fair value, approval shall be in writing and subject to such limitations as the department may specify. This requirement for departmental approval shall not apply where the statutory capital base of the purchasing bank exceeds $20,000,000. However, in such instances, such securities may be purchased only in an amount which does not exceed fifteen (15) percent of the bank's statutory capital base.

(10) In the event a bank's investment in securities no longer conforms to this rule but conformed when the investment was originally made, the bank shall provide written notification to the Department regarding the nonconforming investment within 30 days of discovering the nonconforming investment or 120 days of the investment becoming nonconforming, whichever event occurs first. In the event a bank wishes to hold the nonconforming investment, the bank must submit a letter form application to the Department describing the efforts the bank will undertake to bring the nonconforming investment into conformity and the anticipated time it will take to bring the investment into conformity. Upon review of the application, the Department may request additional information if it determines such additional information is necessary in order to fully and completely evaluate the application. After completion of its review, the Department shall either approve, conditionally or otherwise, or deny such application in writing.

(11) A bank may sell a nonconforming investment without Department authorization but only if it provides the Department with written notice no later than five (5) business days after the sale.
Rule 80-1-4-.02. Securities Underwriting.

(1) A bank with statutory capital base of less than $20,000,000:
   (a) Shall not underwrite or otherwise participate as principal in the marketing of securities except to the extent authorized by law or regulation and except for the account of and upon specific instructions from its customer.
   (b) Such bank may, with the permission of the department, underwrite or otherwise participate in the marketing of obligations (including limited obligation bonds, revenue bonds, and obligations that satisfy the requirements of Section 142(b)(1) of the Internal Revenue Code of 1986) issued by or on behalf of any state or political subdivision of a state, including any municipal corporate instrumentality of one or more states, or any public agency or authority of any state or political subdivision of a state ("certain municipal bonds").

(2) A bank with a statutory capital based of $20,000,000 or greater:
   (a) May underwrite or otherwise participate in the marketing of any securities which such banks could purchase for their own account, in addition to the certain municipal bonds described in subsection (1)(b); but
   (b) May not underwrite open-end funds described in section (3) of Rule 80-1-4-.01.

(3) All underwriting or marketing of securities shall be subject to the following conditions:
(a) Accounting and other records of trading in such securities are maintained separate and apart from accounting and other records relating to purchases of securities for the bank's own account;

(b) The board of directors of the bank must adopt operating policies which are reviewed at least annually regarding the types and quality of securities to be traded, holding periods for securities in inventory, limitations on the amount of securities to be carried in the name of any single obligor, and guidelines relative to disposition of securities subject to adverse market changes; and

(c) Credit memoranda or prospectuses and independent audit reports covering the three (3) years immediately preceding the date of the most recent underwriting are maintained.

(4) Underwriting and marketing of securities are activities also subject to federal law and regulation.

Rule 80-1-4-.03. Accounting and Record Keeping for Investments.

(1) Investment securities transactions shall be accounted for in accordance with generally accepted accounting principles.

(2) Banks shall maintain documentation sufficient to identify adequately the nature of all securities owned. For all securities other than direct investment in government bonds, notes, or debentures, documentation may include annual reports, offering circulars, credit analyses published by nationally recognized rating firms, or inhouse analyses, reflecting an evaluation of the degree of risk in regard to liquidity, marketability, price volatility, and eligibility for pledging.

(3) Investments in the form of "Zero Coupon" obligations shall be recorded at cost plus accretion to maturity over the life of the obligations. Legal limitations applicable to such securities shall be measured against the actual cost of the security. Provided, however, except in the case of U.S. Government issues, to the extent that the cash investment plus accretions of income earned, but not collected, exceed the legal limitation on any zero coupon security, such amount shall be set aside into a capital reserve and excluded in considering capital adequacy.
**Rule 80-1-4-.04. Custody and Safekeeping.**

(1) Securities may be held in physical or book entry form.

(2) Physical possession of securities shall be maintained:
   (a) In the vault of the investing bank;

      2. Federal Reserve Bank or Federal Home Loan Bank;
      3. Broker-dealer insured under the Securities Investors Protection Act provided the market value of such securities does not exceed $500,000; or
   (c) As otherwise specifically approved by the department.

Subject 80-1-5. LOANS AND DISCOUNTS.

Rule 80-1-5-.01. Loans Generally, Interpretations and Rulings.

(1) "Indirect" loans as used in Code Section 7-1-285 shall mean loans made for the substantial benefit of a third party where repayment of the loan is dependent on activities of the third party rather than solely dependent on the resources of the borrower and subject to the provisions of Rule 80-1-5-.11.

(2) Loans extended to any Industrial Development Authority domiciled in Georgia which are dependent upon revenues obtained under an assigned lease contract naming the Authority as lessor shall be considered as loans to the lessee in calculating legal loan limitations.

(3) Loans by a bank to any wholly-owned subsidiary of the bank, which subsidiary is located within an approved office of the bank and which has agreed to abide by all laws, rules and regulations applicable to the bank shall be exempt from the twenty-five (25) percent maximum lending limit of the bank. In addition, to the extent allowed by other applicable law and with the prior written approval of the Department, this exemption from the twenty-five (25) percent maximum lending limit may be extended to loans from a bank to a wholly owned subsidiary of an affiliated bank.

(4) In determining amounts loaned, all amounts guaranteed or insured by any instrumentality of the United States government shall be deducted to the extent of the guaranty or insurance coverage. Immediate and deferred participations on loans by an instrumentality of the United States government shall also be excluded. Where the source of repayment of a loan, i.e. lease payments, is guaranteed by an instrumentality of the United States
government and such guarantee is assignable and has been assigned to the bank, such loan may be excluded to the extent of the guarantee.

(5) In determining whether or not a loan in excess of the fifteen (15) percent limitation is secured by "good collateral and other ample security," the lack of a perfected lien, inadequate insurance, and insufficient margins between collateral value and the amount of the loan shall be prima facie evidence of inadequate security to the debt.

(6) A borrower's savings accounts or certificate of deposits in the lending bank will be regarded as collateral to a loan when they are not subject to check or withdrawal, mature on or after the loan which is secured, are under the sole control of the bank, and are properly assigned. Where, according to the terms of the deposit contract, the deposit is eligible for withdrawal before the secured loan matures, the bank must establish internal procedures to prevent release of the security without the lending bank's prior consent. If proper procedures are in place, such deposits will be considered as collateral. Where deposit balances are properly taken as collateral to a loan, the loan may be reduced to the extent of the deposit in determining the amounts loaned for either secured or unsecured legal lending limitations, as applicable.

(7) Except as provided in this paragraph, exposures in the form of insufficient funds checks held beyond the permissible return date and overdrafts shall be considered "extensions of credit" solely for the purpose of determining compliance with the legal limitation as it applies to the maker of the check or owner of the overdraft. Such exposures shall also be subject to the requirements for prior written approval and ample collateral where the total indebtedness of the borrower exceeds fifteen (15) percent of the statutory capital base. Such exposures will not be considered extensions of credit for purposes of compliance with the above legal loan limitations and requirements, provided that the exposure is inadvertent, which requires that:

(a) The exposure(s) does not exceed the aggregate amount of $1,000 at any one time; and

(b) The account is not overdrawn or the insufficient funds check held for more than five (5) business days.

(8) Wherever approval of the Board of Directors or Loan Committee is required, such approval must be specific, prior, written approval of each extension of credit, except that advances made under a master note covering a specific purpose or project need not receive specific approval where such approval was accorded the master note. Annual approval of a line of credit may be used where interest rate, repayment terms, and anticipated collateral are clearly identified and current credit information is on file. Commodity, floor-plan and discount lines of credit which are anticipated to exceed fifteen (15) percent of the statutory capital base may be approved annually to be deemed appropriate by the Board of Directors without each transaction receiving specific prior approval. For those lines that are expressly authorized by statute or regulation to exceed twenty-five (25) percent of the statutory capital base, the line must be reviewed quarterly
by the Board of Directors or Loan Committee when the line is in fact in excess of twenty-five (25) percent of the statutory capital base.

(9) In determining the primary collateral basis upon which a loan is granted, that portion of the collateral having the greatest market value shall be assumed to be the primary collateral.

(10) Extensions of credit to political subdivisions of the State of Georgia authorized to levy taxes or backed by the taxing authority of another political subdivision shall qualify for exemption from the twenty-five (25) percent loan limitation under the provisions of O.C.G.A. § 7-1-285(c)(1)(B), only where such extension of credit otherwise conforms with the provisions of Georgia Constitution, Article 9, Section 5.

(11) Where the "statutory capital base" as defined in O.C.G.A. § 7-1-4(35) is reduced by operating losses, loan losses, or for other reasons approved by the department, existing debt which was in conformity with the legal limitations at the time it originated shall not be construed to be non-conforming with new legal limitations resulting from the reduced statutory capital base.

(12) Pursuant to O.C.G.A. § 7-1-285(e), a loan or extension of credit to a leasing company for the purpose of purchasing equipment for lease shall be considered a loan to the lessee, provided that:

(a) The bank documents the basis for its reliance on the lessee as the primary source of repayment before the loan is extended to the leasing company;

(b) The loan is made without recourse to the leasing company;

(c) The bank receives a security interest in the equipment and, in the event of default, may proceed directly against the equipment and the lessee for any deficiency resulting from the sale of the equipment;

(d) The leasing company assigns all of its rights under the lease to the bank;

(e) The lessee's lease payments are assigned and paid to the bank directly by the lessee; and

(f) The lease terms are subject to the same limitations that would apply to a bank acting as a lessor.

(13) The Department shall promulgate a form which may be used to document compliance with the requirements for approval of loans, obligations, and credit exposures in excess of 15 percent of the statutory capital base by members of the board of directors or authorized committee of the board of directors as set forth in O.C.G.A. § 7-1-285 (a.1).

(14) In determining whether the common equity tier 1 capital has increased or decreased by 5% or more for purposes of the "statutory capital base" as defined in O.C.G.A. § 7-1-
each bank will utilize the dollar amount reported on the applicable Consolidated Report of Condition and Income and recalculate its statutory capital base if the dollar amount increases or decreases by 5% or more during the applicable time period.

**Rule 80-1-5-.02. Real Estate Loans.**

(1) A real estate loan (including a leasehold) within the meaning of Part 365 of the Federal Deposit Insurance Corporation's rules and regulations, including [12 CFR 365.1](https://www.gpo.gov/fdsys/search/fdsys-search.html?keyword=365.1) and [365.2](https://www.gpo.gov/fdsys/search/fdsys-search.html?keyword=365.2) and the Interagency Guidelines for Real Estate Lending Policies in Appendix A, and [12 C.F.R. 208.51](https://www.gpo.gov/fdsys/search/fdsys-search.html?keyword=208.51) and the guidelines contained in 12 C.F.R. Part 208 in the case of Federal Reserve member banks, shall comply with the Real Estate Lending Standards of the above laws.

(2) If a loan could be made without real estate as security, a bank will not be penalized for adding real estate as collateral in an abundance of caution. A notation in the loan file must indicate this lack of reliance on the real estate and must meet general safety and soundness standards for credit risk. This does not constitute a waiver of O.C.G.A. § [7-1-285](https://www.gpo.gov/fdsys/search/fdsys-search.html?keyword=7-1-285), related Department rules and regulations, or requirements of federal law, and the soundness of the loan should always be considered.

(3) Except as expressly authorized by O.C.G.A. §§ [7-1-262](https://www.gpo.gov/fdsys/search/fdsys-search.html?keyword=7-1-262) or [7-1-263](https://www.gpo.gov/fdsys/search/fdsys-search.html?keyword=7-1-263), banks may not acquire directly or indirectly any ownership interest in real estate without the prior written approval of the Department.
Rule 80-1-5-.03. Commodity Loans.

(1) In order that commodity loans and advances may be exempt from the twenty-five (25) percent legal loan limitation of the lending bank, strict compliance with the following requirements must be met.

(a) The commodity must have a market value with ready sale in the open market.

(b) First lien security title to the commodity must be indicated on record in the name of the bank. Where commodities are stored in a warehouse, such lien must be evidenced by the bank's physical possession of warehouse receipts covering the commodities or, if electronic warehouse receipts are utilized, by recordation of bank's lien position on the electronic warehouse receipt or the electronic records of the state approved electronic receipt provider, which must be accessible to the bank. Bank must also have appropriately executed security agreements and financing statements.

(c) The commodity must be covered by insurance against fire and other appropriate hazards with loss payee designated as the lending bank.

(d) The initial advance or loan shall not exceed eighty (80) percent of the market value of the commodity on the date of the loan, the margin of twenty (20) percent between the market value and outstanding loan is maintained at all times, and to that end, the bank shall have the right to call for additional collateral if the margin falls below twenty (20) percent, and, if the additional collateral is not provided, the bank shall have the right to sell the commodity on the open market. For purposes of this paragraph,"market value" shall mean the local cash price bid for
the commodity in question; provided, "market value" shall mean the nearby future price applicable to future contracts to sell existing commodities where the total commodity debt owed by the owner of the commodity to the originating bank with respect to the hedged commodity does not exceed fifty (50) percent of the originating bank's statutory capital base.

(e) Where the borrower is not independent of the warehouseman or other person holding the commodity, the commodity must be subjected to inspection by the lender or his agent at least monthly and a written record of such inspections must be maintained.

(f) The obligation matures in not more than ten (10) months if secured by nonperishable staples; or the obligation matures in not more than six (6) months if secured by refrigerated or frozen staples.

(g) There must be a written agreement, signed by both the bank and the borrower, which clearly outlines the requirements of the bank and the duties and responsibilities of the borrower.

(2) Manufactured or agricultural products in the processing stages shall not be considered as commodities within the meaning of this regulation, but are inventory or goods-in-process to be treated as additional collateral only.

(3) In order for livestock to qualify as commodities subject to treatment under Section (1) of this Rule, the borrower must be engaged in livestock production and the collateral must be marked for identification and confined to feed lots ready for sale in the open market. Livestock held as fixed assets such as for reproduction or dairy purposes do not qualify for the treatment accorded under Section (1) of this Rule.

(4) Manufactured products commonly financed under floor-plan arrangements shall be subject to treatment as commodities under Section (1) of this Rule if they meet the requirements of that section and the conveyance of title identifies each individual unit and does not convey merchandise in bulk. Liens on merchandise in bulk are considered as inventory loans and not commodity loans.

Rule 80-1-5-.04. Participation Loans.
(1) That portion of a loan which is sold by the originating bank to another bank must conform to all laws and regulations applicable to that category of loan to the same extent as if the purchasing bank had itself originated the loan; i.e., collateral documentation, maturity, loan-to-collateral value ratio, maximum loan limits, etc. The purchasing bank shall obtain from the selling bank copies of all pertinent documents or a summary of sufficient information therefrom to allow that bank to conclude that all legal and regulatory requirements have been met and that the loan may be legally carried upon its books.

(2) Participation in Pools of Loans or Discount Lines:
(a) Loans contained in the pool or discount line must be physically marked or specifically identified on the selling bank's records.
(b) The participation agreement must call for the participant to share pro rata in losses experienced by the pool or discount line.
(c) The participation agreement must provide for periodic, at least quarterly, reports by the seller to the purchaser as settlement for losses incurred and providing past due status of loans contained in the pool or discount line.
(d) Where the participation purchased is in excess of fifteen (15) percent of the purchasing bank's statutory capital base, the participation must have the prior written approval of the bank's Board of Directors or Loan Committee.

(3) Where there exist agreements to repurchase or loss indemnity agreements between the selling and purchasing banks, participations shall be treated as loans to the selling bank by the purchasing bank and the amount of the participation shall be considered to be remaining on the selling bank's books for purposes of legal limitations.

(4) The portion of a loan or extension of credit sold as a participation on a nonrecourse basis shall not constitute a loan or extension of credit for purposes of O.C.G.A. § 7-1-285, provided that the participation results in a pro rata sharing of credit risk proportionate to the respective interests of the originating and participating lenders. Where a participation agreement provides that repayment must be applied first to the portions sold, a pro rata sharing will be deemed to exist only if the agreement also provides that, in the event of default or comparable event defined in the agreement, participants must share in all subsequent repayments and collections in proportion to their percentage participation at the time of the occurrence of the event.

Rule 80-1-5-.05. Discounted Dealer Paper.

(1) Purchases of dealer paper, with or without recourse, may generally be made without limitation; however, where the aggregate amount of such paper outstanding exceeds twenty-five (25) percent of the bank's statutory capital base and the paper has been taken with recourse or pursuant to an agreement to repurchase between the bank and the dealer, the following conditions must be met:

(a) The dealer must maintain a dealer's reserve in an amount equal to at least five (5) percent of the total outstanding balance on notes discounted with recourse or pursuant to the repurchase agreement and such reserve must be under the control of the lending bank.

(b) The bank must maintain a balance sheet and profit and loss statement on the dealer covering the most recent fiscal period for which such information is available, but in no event shall the statements be more than eighteen months old.

(c) The obligors on all such notes shall have been notified that the bank is owner of the note and payments are to be made directly to the bank.

(d) The dealers shall not be permitted to make payments on the discount notes but shall be required to take over, in full, any note which is past due four months or more.

(e) There must be a written agreement, signed by both the bank and the dealer, which clearly outlines the requirements of the bank and the duties and responsibilities of the dealer.

(2) Whenever the aggregate outstanding balance of discount notes on a single dealer exceeds fifteen (15) percent of the bank's statutory capital base and the notes are taken with recourse or pursuant to a repurchase agreement, the Board of Directors at least annually shall approve the maximum amount to which such aggregate outstanding balance may extend. When in excess of twenty-five (25) percent of the statutory capital base, the line must be reviewed quarterly by the Board of Directors or Loan Committee.

No bank may lend upon the capital securities of any corporation which is registered as a bank holding company for such lender bank, unless such securities have an established market for resale and market prices for such securities are regularly quoted by an established exchange or
over the counter. This restriction shall not be applicable to loans made prior to the effective date of this section nor to violations resulting from a merger, consolidation or acquisition of the lender occurring after the date of loan, provided such loans are repaid in accordance with the contracted terms. This restriction shall not be applicable to the taking of a security interest to such securities to prevent losses on debts previously contracted. This restriction shall also not be applicable where both the aggregate number of shares in which a security interest is held does not exceed ten (10) percent of the total number of shares outstanding and the credit extended upon the basis of such shares as security does not exceed the book value of such shares.

(2) A bank that desires to lease real property under the conditions in Code Section 7-1-282 must make a letter application to the department to conduct the activity. Such letter application shall include:

(a) A business plan that addresses the accounting, tax and legal implications of this type of leasing and the projected volume and scope of the activity;

(4) The department may at any time restrict the volume of business in this type of leasing if in its judgment there are concerns for safety and soundness of the operation.
Rule 80-1-5-.11. Combination of Debt for Legal Lending Limit Purposes.

(a) General Rule. Pursuant to Code Section 7-1-285, loans or extensions of credit to one person will be attributed to another person and each person will be deemed a borrower:

(1) When proceeds of a loan or extension of credit are to be used for the direct benefit of the other person, to the extent of the proceeds so used;

(2) When a common enterprise is deemed to exist between the persons as the persons within the group are directly or indirectly related through common control including where one borrower is directly or indirectly controlled by another borrower;

(3) When there is a common use of funds between the persons; or

(4) When a person has a financial obligation on a loan or an extension of credit, to the extent of such obligation.

(b) Definitions. For purposes of this Rule, the below terms shall be defined as follows:

(1) Common control. The direct or indirect possession of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise. Without limiting the foregoing, a person shall be considered to control another person if the first person:

   (A) Owns, controls or holds with power to vote 25 percent or more of any class of voting securities of the other person;

   (B) Controls in any manner the election of a majority of the directors, trustees, or persons performing similar functions of the other person; or

   (C) Exercises a controlling influence over the management or policies over the other person as determined by the department.

(2) Common use of funds. The proceeds of a loan or an extension of credit to a borrower will be deemed to be a common use of funds and will be attributed as one loan when the proceeds, or assets purchased with the proceeds, are comingled or used to acquire property, goods, or services for the purpose of a shared common commercial objective between the borrowers.
(3) Direct benefit. The proceeds of a loan or extension of credit to a borrower will be deemed to be used for the direct benefit of another person and will be attributed to the other person when the proceeds, or assets purchased with the proceeds, are transferred to another person, other than in a bona fide arm's length transaction where the proceeds are used to acquire property, goods, or services.

(4) Obligation. A commitment that creates a liability or contingent liability for payment on a loan or extension of credit irrespective of whether the person is a borrower.

(5) Person. An individual or a corporation, limited liability company, partnership, trust, association, joint venture, sole proprietorship, unincorporated organization, or any other form of entity.

Amended: F. June 29, 2017; eff. July 19, 2017

(1) Prior to June 1, 2017, the definition of statutory capital base meant the "sum of the capital stock, paid-in capital, appropriated retained earnings, and capital debt of a bank or trust company less any amount of good will, core deposit intangibles, or other intangible assets related to the purchase, acquisition, or merger of a bank charter or accumulated deficit (negative retained earnings)." The revised definition of statutory capital base expressly provides that the Department has the authority to phase in the revised definition for those banks that will have a decreased statutory capital base.

(2) Any bank that has a decrease in its statutory capital base as of July 1, 2017, may submit a letter form application seeking a waiver from the applicability of the revised definition. Any such request for a waiver must be received by the Department no later than August 15, 2017. The application should provide information pertinent to the request, including, but not limited to, a calculation of the statutory capital base under both formulas.

(3) The Department shall take into consideration competitive, financial, managerial, safety and soundness, and other concerns in evaluating any waiver request. The Department is authorized to impose conditions on the grant of any request for a waiver.
(4) All waivers, conditional or otherwise, issued pursuant to this Rule shall expire on August 31 of each year, and application for renewal of a waiver shall be made annually on or before August 1 of each year.

Subject 80-1.6. BANK FINANCIAL AND OTHER REPORTS.

Rule 80-1-6-.01. Reports to Department.

Every bank shall within ten (10) days after knowledge thereof report:

(a) The election of any new chief executive officer or president;

(b) The resignation or removal of the chief executive officer, president, or any director, giving the reason for such action; and

(c) The transfer of any common stock of the bank aggregating fifteen (15) percent of the outstanding shares of common stock of the bank or any smaller transfer resulting in the new owner holding in the aggregate more than twenty-five (25) percent of the outstanding common stock of the bank.

Rule 80-1-10-.08. Definitions.

(1) Fixed Asset Investment as used in this Regulation shall include land, buildings, furniture, fixtures, equipment, stock in a real estate holding company subsidiary, stock in
cooperative parking facilities corporations, and loans to such subsidiary corporations and
leasehold interests defined in 80-1-10-.07 above but shall not include Other Real Estate.

(2) Other Real Estate is real property conveyed to a bank in satisfaction of debt previously
contracted in the course of its business and real property purchased at sales under
judgments, decrees, or mortgage foreclosures under securities held by it; but a bank shall
not bid, at any sale, a larger amount than sufficient to satisfy its debt, costs and expenses.
Other Real Estate shall also include property originally acquired for future expansion, but
for which such expansion plans have been abandoned and property formerly utilized as
bank premises or for other approved purposes, but no longer utilized.

Rule 80-1-10-.09. Assets Acquired - Debts Previously Contracted ("D.P.C.").

(1) All assets acquired through foreclosure or in lieu of foreclosure and all "Other Real
Estate" acquired in such manner or otherwise shall be valued six (6) months prior to or
three (3) months following the acquisition by an independent appraiser knowledgeable in
the fair market value of such assets or, in the alternative, evaluated by a qualified officer
of the bank in conformity with the Evaluation Content portion of the Interagency
Appraisal and Evaluation Guidelines (hereinafter "evaluation") if the book value of the
property is less than two (2) percent of the statutory capital base of the bank, $400,000 for
residential property, or $500,000 for commercial property whichever amount is greater.
Appraisals or evaluations subsequent to the initial valuation are required if, based upon a
review of the following factors, there is a reasonable basis to determine that the prior
valuation is no longer reliable as a reasonable estimate of the property's fair market value:
volatility of local market; changes in terms and availability of financing; natural disasters;
limited or over supply of competing properties; improvements to the subject property or
competing properties; lack of maintenance of the subject or competing properties;
changes in underlying economic and market assumptions, such as capitalization rates and
lease terms; changes in zoning, building materials, or technology; and environmental
contamination. In the event there is no basis to determine that the initial valuation is no
longer reliable, then appraisals or evaluations shall be at intervals of not more than five
(5) years.

(2) All requests for permission to hold assets acquired through foreclosure or in lieu of
foreclosure and to hold other types of "Other Real Estate" beyond limitations imposed by
statute must include a statement as to efforts made to dispose of the asset, reasons for the
failure of such efforts, plans for disposal of the asset during the extended ownership
period, a copy of the most recent appraisal or evaluation, and a statement as to the
estimated annual cost of carrying the asset and estimated annual income produced by the asset.

(3) Extension of statutory ownership periods will not be granted for income purposes.

(4) Property subject to this rule shall be initially carried on the books of the bank at the fair market value determined by independent appraisal or evaluation, unless otherwise provided, less the estimated costs to sell the property ("new basis"). This valuation shall be determined as of the date the bank takes legal title to or physical possession of the property, whichever event occurs first. Subsequently, the carrying value shall be subject to write-down or write-up based upon the most recent appraisal or evaluation. However, the property must be carried at the lower of the current fair market value less the estimated costs to sell the property or the new basis. The new basis may be adjusted upward in the event the bank makes any permanent capital improvements, subject to the limitations in paragraph (5), necessary to prepare the property for sale but the adjustment in the new basis shall be the lower of the increase in the fair market value of the property after the capital improvements or the amount expended to make the capital improvements. Non-capital improvements and expenses necessary to carrying and maintaining the property (taxes, legal fees, insurance, yard maintenance, etc.) shall be expenses and not added to the carrying value. Income earned from the property, other than from conversion or sale, shall be credited to income and shall not reduce the carrying value of the property.

(5) A bank may make permanent capital improvements to property subject to this rule if the improvements are:

   (a) Reasonably calculated to reduce any shortfall between the property's fair market value and the bank's investment in the property;

   (b) Not made for the purpose of speculation; and

   (c) Consistent with safe and sound banking practices.

(6) Appraisals or evaluations obtained pursuant to this rule shall be for the purpose of determining the current fair market value of the property. Appraisals found to reflect other than current fair market value or found to have been performed by persons unfamiliar with such class of property or lacking independence from the owner of such property may be rejected by the Department and new appraisals required. Evaluations found to reflect other than current fair market value or found to have been performed by persons unfamiliar with such class of property or lacking independence (where required) from the owner of such property may be rejected by the Department and new evaluations or appraisals required.

   (b) The total amount of the bank's fixed assets that will be leased in the event the lease is approved;

   (c) An affirmative statement that there is no involvement by any director, committee member, officer or employee of the bank or any related interest of such individuals with the individual or entity that is the proposed lessee. Rule 80-1-12-.02. Intercompany Dealings, Management Fees.

(1) No bank or trust company shall purchase, lease, or sell any asset or service from or to any affiliate upon terms which are detrimental to the bank or trust company or any minority shareholders of the bank or trust company. Methods for determining propriety of a transaction shall be subject to Departmental oversight and review.

(2) Tax payments by a bank or trust company to a bank holding company shall generally be consistent with the payment of tax liabilities which would have been made had it filed tax returns as a separate entity, eliminating any benefit arising from surtax exemptions. Timing of such payments should generally be in concert with tax payment dates prescribed by tax regulations for estimated tax payments and the rendering of final returns.

(3) Management fees and other charges:
   (a) Management fees and other charges, other than specific charges for reimbursement of tax payments or for the purchase or lease of assets or services, payable to a bank holding company or an affiliate of a bank holding company may
be paid by the banking or trust subsidiary provided such fees and charges do not exceed the subsidiary's pro rata share of the administrative overhead of the bank holding company plus any direct expenses attributable to the subsidiary and it is clearly demonstrated that the subsidiary has received direct benefit from its relationship with the holding company. Such pro rata share shall be determined through an equitable proration of such administrative overhead among all holding company subsidiaries and activities. The proration may be based on any reasonable formula provided such formula is justified by appropriate memorandum in the files of the bank or trust company and approved by the Board of Directors of the bank or trust company. Such formula shall be subject to Departmental oversight and review.

(b) Administrative overhead shall include only those expenses incurred in general support of all holding company activities and not specifically allocable to a particular subsidiary or activity.

(c) Administrative overhead shall not include net losses incurred in any holding company activity, subsidiary, or investment; nor shall the term include any closing costs, interest, service charge or other expense incurred in connection with any debt owed by the holding company. Administrative overhead shall also not include any salary or other compensation of officers, directors or shareholders which is not commensurate with duties and responsibilities performed in some official capacity with the holding company. Time devoted to performance of duties and fulfilling responsibilities at the holding company level and compensation in connection with such action shall be considered in establishing reasonable levels of compensation from the bank or trust company for persons who are employed by both entities. Each entity shall pay only that portion of the total compensation as is commensurate with the duties performed on behalf of that entity.

(4) Fees and charges contemplated under this Rule may be paid after the liability therefor is incurred. Administrative overhead may be accrued or paid monthly based upon a reasonable projection of actual charges, provided such accrual or payment is adjusted to actual expenses at least annually. No such fee or charge may be paid in advance. Appropriate documentation and justification must be maintained in the bank for any disbursement governed by this Rule.

Banks may use the messenger service to transport items related to the bank's transactions with its customers without the messenger service being approved as a branch provided that the messenger service does not perform any branching functions. In establishing or using such a messenger service, a bank must establish terms and conditions in order to ensure compliance with this Rule and safe and sound banking practices.

(f) The party acts as the agent for the customer while the items are picked-up, transported, and delivered.

The bank may defray all or part of the costs incurred by the customer for use of the messenger service, consistent with safety and soundness and prudent fiscal policy. Any payment by the bank may not exceed the actual charge for the services rendered.

(1) In order to invoke O.C.G.A. § 7-1-671, a credit union must provide the Department with notice if it intends to utilize a federal power or avail itself of any federal preclusion or preemption of any provision of law, rule or regulation of this State. Such notice shall contain the following information:

(a) A detailed description of the proposed activity to be undertaken by the credit union;

(b) A citation to the specific federal authorization of such proposed activity;

(c) A description of any federal requirements, limitations, and/or restrictions imposed on the proposed activity;

(d) Documentation establishing that the credit union satisfies all the federal requirements, limitations, and restrictions to engage in the activity;

(e) To the extent the activity relates to a new product or service to be offered by the credit union, an analysis of how the proposed activity fits within the credit union's business plan;

(f) An analysis of the projected financial impact of the proposed activity; and

(g) Such other information as may be required by the Department.
A notice shall be incomplete and, thus, not received by the Department until all information has been provided to the satisfaction of the Department.

If the Department determines that the notice is incomplete, then the Department shall provide the credit union with notice of this fact. The credit union must cure any deficiencies in the notice or provide any information requested by the Department within thirty (30) days after receipt of such notification from the Department. If the credit union fails to address and/or cure the deficiencies or provide the requested information to the Department within the thirty (30) day period, the notice shall be deemed withdrawn. However, prior to the expiration of the thirty (30) day period, a credit union can make a written request for an extension of time to cure the deficiencies or provide the information requested by the Department and it shall be in the Commissioner's sole discretion to approve, conditionally or otherwise, or deny the request for an extension of time. Further, the Department may provide a credit union with multiple notifications of deficiencies with the notice or multiple requests for additional information.

After the credit union satisfactorily completes the notice and provides all of the required documents, the Department will issue an official acceptance letter evidencing that the notice is deemed complete. The issuance of the official acceptance letter shall not be construed as evidence that the federal power identified in the notice is authorized.

Within 45 (forty-five) days after issuance of the official acceptance letter, the Department may object to the exercise of the federal power, in whole or in part, or to the federal preclusion or preemption of the law, rule, or regulation of this State, in whole or in part. Prior to the expiration of the review period, the Department may extend the review period for an additional 45 (forty-five) days by providing the credit union with written notice of such extension. In the event the Department does not object to the exercise of the federal power during the applicable review period, the credit union will have satisfied the requirements in O.C.G.A. § 7-1-671 to exercise the federal power.

Pursuant to 15 USC § 6801 et seq. and 12 CFR Part 748, credit unions are required to develop and implement a response program that will be utilized in the event unauthorized access to member information has taken place. Member information is any record containing nonpublic information about a member, whether in paper, electronic, or other form maintained by or on behalf of a credit union. Federal law and regulations require disclosure to federal regulators of unauthorized access of customer information in certain circumstances. If disclosure of such
unauthorized access is required under federal law, then a duplicate of such disclosure will simultaneously be submitted to the Department.

(1) A credit union proposing to pay dividends and interest in excess of 90% of its "net earnings available for distribution" for the preceding fiscal year may do so without the prior written approval of the department; provided that such dividends and interest do not exceed 100% of the estimated "net earnings available for distribution" for the period for which such dividends and interest are paid.

(2) Requests for approval of dividends and interest in excess of 100% of the estimated "net earnings available for distribution" of the credit union must be submitted on forms provided by the department. For the purpose of this section,"net earnings available for distribution" shall be defined as net income of the credit union after providing for all required reserves, but before deductions for interest and dividends applicable to the payment period.

Rule 80-2-3-.05. Third Party Payment Services; Other Consumer Services.

(1) Third Party Payment Services (TPPS) may be offered by State-chartered credit unions to their members provided the credit union complies with Code Section 7-1-670.

(2) Applications for TPPS which do not qualify for the notice only procedure in subsection (3) shall require prior approval and shall be in letter form signed by an officer of the credit union. Applications shall contain such schedules and exhibits as are necessary to provide the following information:

(a) A resolution of the board of directors of the credit union authorizing management to file the application and stating that the board has reviewed the application in its entirety and concurs with its contents;

(b) A statement of the assets and liabilities of the credit union as of a date not more than thirty (30) days prior to the date of the application;

(c) Appropriate assurance that the credit union has the ability to post all transactions occurring on its books on a daily basis, including the preparation of a daily statement of assets and liabilities;

(d) Appropriate assurance that all necessary personnel are familiar with the requirements of the Uniform Commercial Code as applicable to checks and deposits and the credit union will comply with the provisions of that Code. In this regard, the application should include a copy of the proposed signature card contract to be signed by the accountholder as well as a general outline of the proposed TPPS program;

(e) The application should contain a statement of the policy of the board of directors relative to the charge off of losses, whether disclosed through examination reports or otherwise, and their policy with regard to the replenishing of appropriate allowance accounts following such charge-offs. Approval of the application may be conditioned upon appropriate increases to the allowance account to bring the allowance to a level determined to be adequate relative to the asset condition of the credit union and this level may or may not be in excess of the statutory minimums;

(f) A statement of the board's policy relative to any interest payments to be made on the proposed TPPS accounts including frequency and amount of interest to be paid;
A statement relative to any changes in management or other personnel resources, internal control and operating procedures, and equipment and premises which might be proposed to implement the TPPS program. Copies of all data processor and clearing-bank contracts should be included in the application;

Such other information as has bearing upon the application.

A credit union that meets the financial and management criteria below may offer TPPS to its members by means of a letter notice to the department, at least thirty (30) days before the credit union intends to offer the services. The letter, from an officer of the credit union, shall state that the credit union meets the criteria in this rule, and that it has determined that the factors in Code Section 7-1-670(a) have all been satisfied. The department may notify the credit union of any problems or issues it has with the offering, but if the credit union does not receive such notification during the thirty (30) day period following receipt of the notice, it may proceed. The criteria to qualify for a notice only procedure are that the credit union must:

(a) Have a CAMEL Composite rating of 1 or 2 on the most recent report of examination;

(b) Have a CAMEL Management component rating of 1 or 2;

(c) Not be subject to any form of administrative action;

(d) Be determined by the regulatory and policy requirements of the Department of Banking and Finance and the National Credit Union Administration to be well capitalized; and

(e) Have total assets of at least $1,000,000.

The application for prior written approval must demonstrate that:

(a) There exists a need among the membership; and

(b) The service can be implemented on a profitable basis as determined by a three-year projection of the number of accounts, volume of transactions, and average aggregate balances in such accounts. Such projections should take into account the influence, if any, due to the stability of the credit union's field of membership. These variables as well as others thought applicable should be utilized to arrive at the three-year pro forma profitability analysis reflecting anticipated costs of providing the services and revenues to be generated by the services themselves as well as by investment (in loans and other investments) of funds generated by the accounts. Projections should recognize that funds must be set aside in certain statutory form to meet legal liquidity reserve requirements with the Federal Reserve.
(5) Credit unions that offer TTPS and that meet the requirements of Subparagraph (3) above may offer, with the approval of the department, other services as provided by Code Section 7-1-670 to consumers eligible for membership. Letter form applications shall contain such schedules and exhibits as the department deems necessary to demonstrate the following:

(a) There exists a need for the credit union to offer the specific service;

(b) A plan proposed by the credit union will serve that need; and

(c) The plan can be implemented on a safe, sound, convenient and responsive basis to consumers eligible for membership.

(3) Letter form applications seeking approval to invest in fixed assets in an amount in excess of sixty (60) percent of total equity capital and reserves (excluding the allowance for loan losses), must provide for an orderly plan of restoring the fixed asset investment to the sixty (60) percent limitation within not more than five (5) years.

**Rule 80-2-4-.03. Investment of Credit Union Funds in Subsidiaries.**

(1) Unless otherwise precluded by law or regulations, a credit union may acquire and hold for its own account shares of stock or interest in a subsidiary or affiliate corporation or limited liability company engaged in the following functions or activities that do not pose undue risk to the safety and soundness of the credit union and that are consistent with the
objectives of O.C.G.A. § 7-1-3. The functions or activities that the credit union subsidiary or affiliate is authorized to conduct include, but are not limited to:

(a) offering third-party payment services as provided in O.C.G.A. § 7-1-670;

(b) holding real estate;

2) O.C.G.A. § 7-1-650(6) contemplates that a credit union can have a separate subsidiary or affiliate to exercise powers that are express or incidental to the credit union's authority with the approval of the Department. Subject to certain investment limitations for credit unions, the subsidiary or affiliate can conduct such powers as may be financial in nature or incidental or complimentary to the provision of financial services. Prior to the subsidiary or affiliate engaging in any functions or activities that a credit union is authorized to engage, the credit union must submit a letter form application to the Department describing the proposed activity, detailing the activity's relationship to the business of the credit union, and setting forth the provisions that will be implemented in order to mitigate any related risks. Upon review of the application, the Department may request additional information if it determines such additional information is necessary in order to fully and completely evaluate the application. After completion of its review, the Department shall either approve, conditionally or otherwise, or deny such application in writing.

3) If more than one credit union has an ownership interest in such subsidiary or affiliate, the credit union that has the largest percentage ownership in the subsidiary or affiliate must submit the application to the Department. In the event the largest credit union percentage ownership in the subsidiary or affiliate is held by multiple credit unions, then only one credit union is required to submit an application to the Department.

4) For purposes of this rule only, "affiliate" means a corporation or limited liability company, that a credit union has less than a majority ownership interest.

   (b) The purchase of the real property does not result in the credit union exceeding the fixed asset limitation;

   (c) The credit union is not subject to any special requirements whereby the Department requires prior approval for such purchases; and

   (d) If a director, officer, or committee member is a party to the transaction, a certification is provided stating that all requirements of O.C.G.A. § 7-1-656 and the provisions of any applicable federal requirement have been satisfied.

The credit union shall develop written procedures regarding the funding of charitable donation accounts and the distribution of funds from such accounts;

(3) The terms and conditions controlling the charitable donation account must be documented in a written agreement. (4) The charitable donation account may purchase an investment that would otherwise be impermissible if purchased by the credit union so long as the type of investment is authorized by the written agreement;

(5) Prior to the charitable donation account investing in an otherwise impermissible investment under Paragraph (4), the credit union must develop policies and procedures, approved by the Board of Directors, detailing the risk management processes that will be utilized prior to investing in an otherwise impermissible investment, including, but not limited to, the controls that will be implemented to monitor the investment, the timing and methodology of evaluating the quality and risks posed by the investment, and a documented and reasonable approach to transfer or otherwise divest of the investment in an expedited manner;

(6) The aggregate investment in charitable donation accounts cannot exceed five (5) percent of the credit union's net worth;

(7) A credit union cannot contribute funds to a charitable donation account if it has negative earnings unless it has received prior written approval from the department;

(12) Such investment must be consistent with principles of safety and soundness.

(1) Life insurance purchased, held, or funded in connection with employee compensation or benefit plans approved by the credit union's board of directors;

(2) Life insurance purchased or held to recover the cost of providing preretirement or postretirement employee benefits approved by the credit union's board of directors;

(6) Prior to the board of directors approving an otherwise impermissible investment under Paragraph (5), the credit union must develop board approved policies and procedures detailing the risk management processes the board will take into consideration in
approving an otherwise impermissible investment, including, but not limited to, the controls that will be implemented to monitor the investment, the timing and methodology of evaluating the quality and risks posed by the investment, and a documented and reasonable approach to transfer or otherwise divest of the investments in an expedited manner.

(2) Unless the provisions related to an expedited application in paragraph (3) is satisfied, a credit union must submit an application to the Department in order to obtain approval to establish a branch office. An application will not be deemed to have been accepted by the Department until all portions of the application have been completed to the satisfaction of the Department. If the Department notifies the credit union of deficiencies in the application, the credit union must complete the application within thirty (30) days of receipt of the notification of the Department. The Department will approve or deny an application for a branch office within thirty (30) days of receipt of a completed application.

(3) In lieu of an application, a credit union is authorized to submit an expedited application to establish a new branch office subject to the below conditions.

(c) Unless it has previously issued an approval letter under subparagraph (d), the Department will attempt to acknowledge receipt of an expedited application or notify the applicant that it does not qualify for expedited processing and may submit an application for regular processing within two business days of receipt of such notice.

(d) The approval to establish a branch office will be effective at the earlier of the approval letter from the Department or 10 business days from the date of acknowledged receipt.

(iii) Other supervisory concerns, legal issues, or policy issues come to the attention of the Department;

(iv) If applicable, any acquisition of fixed assets would cause the institution to exceed the fixed asset limitation; or

The approval to relocate such existing location under the notice procedure will be effective at the earlier of: an approval letter from the department, or 10 business days from the date of acknowledged receipt. In the event the credit union does not qualify for expedited processing, a form application should be submitted to the Department, which will normally be processed within 30 days from receipt of a completed application. All relocations should include a notice to members posted in a conspicuous place of the affected location as well as on the credit union's website at least 30 days before relocating. In addition, if any relocation proposal involves relocation of the credit union's main office, additional procedures such as amendment of the credit union's Articles of Incorporation may apply.

(3) Procedure for a Redesignation. Upon receipt of a letter form request setting forth the details of the proposed redesignation, the Department will review and process such request within seven (7) days. In the event the credit union intends on closing the former main office as part of a redesignation, then the closing procedures for a branch location must be followed.

of applying legal limitations shall be the non-governmental unit responsible for the
payment of such rentals or other fees and any guarantor of such payments.
(4) Asset backed securities repayable in both interest and principal which are issued under:

   (a) Governmentally sponsored programs which are fully collateralized by obligations fully guaranteed as to principal and interest by a governmental entity may be purchased to the same extent as direct obligations of the governmental entity granting the guarantee; and

   (b) Private programs which are fully collateralized by obligations fully guaranteed as to principal and interest by a governmental entity may be purchased to the same extent as direct obligations of the governmental entity granting the guarantee.

(5) Except for those investments specifically authorized in subparagraph (1)(a)3. of this Rule, futures, forwards, option contracts, interest rate swaps, and direct and indirect investments associated with any security which otherwise constitutes a permissible investment under provisions of this Rule may be approved in writing by the Department for credit unions demonstrating technical expertise and policies sufficient to promote safe and sound use of such investments as part of prudent investment strategies.

(6) In the event a credit union's investment in securities no longer conforms to this Rule but conformed when the investment was originally made, the credit union shall provide written notification to the Department regarding the nonconforming investment within 30 days of discovering the nonconforming investment or 120 days of the investment becoming nonconforming, whichever event occurs first. In the event a credit union wishes to hold the nonconforming investment, the credit union must submit a letter form application to the Department describing the efforts the credit union will undertake to bring the nonconforming investment into conformity and the anticipated time it will take to bring the investment into conformity. Upon review of the application, the Department may request additional information if it determines such additional information is necessary in order to fully and completely evaluate the application. After completion of its review, the Department shall either approve, conditionally or otherwise, or deny such application in writing.

(7) A credit union may sell a nonconforming investment without Department authorization but only if it provides the Department with written notice no later than five (5) business days after the sale.

For all securities other than direct investments in government bonds, notes, or debentures, documentation may include annual reports, offering circulars, credit analyses published by nationally recognized rating firms, or in-house analyses, reflecting an evaluation of the degree of risk in regard to liquidity, marketability, and price volatility.

(3) Investments in the form of "Zero Coupon" obligations shall be recorded at cost plus accretion to maturity over the life of the obligations. Legal limitations applicable to such securities shall be measured against the actual cost of the security. Provided, however, to the extent that the cash investment plus accretions of income earned, but not collected, exceed the legal limitation on any zero coupon security, such amount shall be set aside into a capital reserve and excluded in considering capital adequacy.

(1) A credit union may provide unlimited banking services through mobile credit union units that do not have a single, permanent site and use a vehicle that travels to various locations to enable members to conduct the business of banking.

(2) A mobile branch may provide banking services at various regularly scheduled locations or it may be open in a defined area at varying times and locations. If the mobile branch provides banking services at regularly scheduled locations, then it shall be accessible to credit union members in accordance with a published schedule available on the credit union's website. In all circumstances, each mobile branch is required to maintain logs indicating the specific locations and times in which the mobile unit is operating in order to track branch activities.

Subject 80-2-12. CREDIT UNION LOANS.

Rule 80-2-12-.01. Loans Generally, Interpretations and Rulings.

(1) Lending limitations of Code Section 7-1-658 shall be computed quarterly as reported on the credit union's most recently filed call report; provided, however, that if significant capital changes occur after the filing of the call report which causes the net worth of the credit union to increase or decrease by 5 percent or more, then the legal lending limit will be immediately recalculated at the time of the capital change and it will be effective until the filing of the next call report. In determining whether the net worth capital has increased or decreased by 5 percent or more, each credit union will utilize the dollar amount reported on the applicable call report and recalculate its net worth if the dollar amount increases or decreases by 5 percent or more during the applicable time period.

(2) Where the lending limitations are reduced by recalculation, existing debt which was in conformity with the legal limitations at the time it originated shall not be construed to be non-conforming with new legal limitations.

(3) "Indirect" loans as used in Code Section 7-1-658 shall mean loans made for the substantial benefit of a third party where repayment of the loan is dependent on activities of the third party rather than solely dependent on the resources of the borrower and subject to the provisions of Rule 80-2-12-.05.

(4) Loans by a credit union to any wholly-owned subsidiary of the credit union, which subsidiary is located within an approved office of the credit union and which has agreed to abide by all laws, rules and regulations applicable to the credit union shall be exempt from the twenty-five (25) percent maximum lending limit of the credit union.

(5) Wherever approval of the Board of Directors or Credit Committee is required, such approval must be a specific, prior, and written approval of each extension of credit, except that advances made under a master note covering a specific purpose or project
need not receive specific approval where such approval was accorded the master note. Annual approval of a line of credit may be used where interest rate, repayment terms, and anticipated collateral are clearly identified and current credit information is on file. Commodity, floor-plan and discount lines of credit which are anticipated to exceed five (5) percent of the legal lending limit may be approved annually to be deemed appropriate by the Board of Directors without each transaction receiving specific prior approval.

(6) In determining whether or not a loan in excess of the five (5) percent limitation is secured by "good collateral and other ample security," the lack of a perfected lien, inadequate insurance, and insufficient margins between collateral value and the amount of the loan shall be prima facie evidence of inadequate security to the debt.

(7) A borrower's savings accounts or certificate of deposits in the lending credit union will be regarded as collateral to a loan when they are not subject to check or withdrawal, mature on or after the loan which is secured, are under the sole control of the credit union, and are properly assigned. Where, according to the terms of the deposit contract, the deposit is eligible for withdrawal before the secured loan matures, the credit union must establish internal procedures to prevent release of the security without the lending credit union's prior consent. If proper procedures are in place, such deposits will be considered as collateral. Where deposit balances are properly taken as collateral to a loan, the loan may be reduced to the extent of the deposit in determining the amounts loaned for either secured or unsecured legal lending limitations, as applicable.

(8) In determining the primary collateral basis upon which a loan is granted, that portion of the collateral having the greatest market value shall be assumed to be the primary collateral.

(9) In determining amounts loaned, all amounts guaranteed or insured by any instrumentality of the United States government shall be deducted to the extent of the guaranty or insurance coverage. Immediate and deferred participations on loans by an instrumentality of the United States government shall also be excluded. Where the source of repayment of a loan, i.e. lease payments, is guaranteed by an instrumentality of the United States government and such guarantee is assignable and has been assigned to the credit union, such loan may be excluded to the extent of the guarantee.

(10) Except as provided in this paragraph, exposures in the form of insufficient funds checks held beyond the permissible return date and overdrafts shall be considered "extensions of credit" solely for the purpose of determining compliance with the legal limitation as it applies to the maker of the check or owner of the overdraft. Such exposures shall also be subject to the requirements for prior written approval and ample collateral where the total indebtedness of the borrower exceeds five (5) percent of the credit union's net worth. Such exposures will not be considered extensions of credit for purposes of compliance with the above legal loan limitations and requirements, provided that the exposure is inadvertent, which requires that:
The extension(s) do not exceed the aggregate amount of $1,000 at any one time; and

The account is not overdrawn or the insufficient funds check held for more than five business days.

Extensions of credit to political subdivisions of the State of Georgia authorized to levy taxes or backed by the taxing authority of another political subdivision shall qualify for exemption from the twenty-five (25) percent loan limitation under the provisions of O.C.G.A. § 7-1-658(g), only where such extension of credit otherwise conforms with the provisions of Georgia Constitution, Article 9, Section 5.

Pursuant to O.C.G.A. § 7-1-658(h), a loan or extension of credit to a leasing company for the purpose of purchasing equipment for lease shall be considered a loan to the lessee, provided that:

(a) The credit union documents the basis for its reliance on the lessee as the primary source of repayment before the loan is extended to the leasing company;

(b) The loan is made without recourse to the leasing company; 

c) The credit union receives a security interest in the equipment and, in the event of default, may proceed directly against the equipment and the lessee for any deficiency resulting from the sale of the equipment;

d) The leasing company assigns all of its rights under the lease to the credit union;

(e) The lessee's lease payments are assigned and paid to the credit union directly by the lessee; and

(f) The lease terms are subject to the same limitations that would apply to a credit union acting as a lessor.

The Department shall promulgate a form which may be used to document compliance with the requirements for approval of loans and obligations in excess of 5 percent of the net worth of the credit union by members of the board of directors or credit committee as set forth in O.C.G.A. § 7-1-658(e).

Rule 80-2-12-.02. Real Estate Loans.

(1) A real estate loan shall be any loan secured by real estate where the credit union relies upon such real estate as the primary security for the loan. If the proceeds of the loan are used for the purchase of the real estate pledged, the loan will be presumed to be a real estate loan. Where the credit union relies substantially upon other factors, such as the general credit standing of the borrower, guaranties, or security other than real estate, the loan does not constitute a real estate loan, although as a matter of prudent underwriting it may also be secured by real estate, provided:

(a) Current credit information on the borrower and/or the guarantors is maintained sufficient to show the credit worthiness of the borrower or guarantors adequate to support the debt; and

(b) The other collateral is properly pledged to the credit union, protected by adequate hazard insurance, and supported by a statement of appraised or estimated value.

(2) A loan may be secured by a first lien although subordinate to another lien if:

(a) The credit union takes obligations of the borrower in an amount equal to the debt outstanding on the prior mortgage obligation plus the amount secured by such credit union's lien and

(b) The credit union may at any time effect payment of the prior lien. In such case the credit union may require the borrower to make all mortgage payments to such credit union, with that credit union servicing the prior lien from such payments, provided that:

1. Where such "wrap around" arrangements are made, the credit union will obtain a statement from the borrower and the holder of the first lien that no further advances will be made to the borrower by the first lien holder and subject to its lien without the prior consent of the credit union, and that

2. The credit union may repay the first lien at its option with no penalty or a stated prepayment penalty.

(3) Conditions common to all real estate loans as to legal requirements and technical aspects shall be met, including but not limited to evidence of title search, recordation, written appraisal, and adequate insurance protection upon the insurable improvements with loss payable clause to the credit union. The lack of the foregoing technical requirements, while causing the loan to be technically defective, shall not be cause to consider the loan as nonconforming and in violation of law unless the total aggregate borrowings by the borrower exceed the unsecured lending limits of Code Section 71-1-658(d), in which case the real estate collateral will not contribute to the "ample security" of the line.
(4) Interpretations of provisions within the statute:

Nonamortized commercial real estate loans shall not exceed seventy-five percent (75%) of the fair market value of the property pledged, such loans and renewals thereof may be made payable on demand, or on demand after a specified future date, but no such loans or renewals may be made or held for a period in excess of five years, after which time sufficient principal payments must be made on a regular basis to amortize the loan.

(5) Other exemptions from the limitations as to loan to value ratios and requirements for first lien are as follows:

(a) Loans to the extent secured in whole or in part by guarantees or commitments to take over, insure, participate in, or purchase the same, made by any governmental agency of the United States or entities sponsored by the United States, including corporations wholly owned either directly or indirectly by the United States.

(b) Loans which are fully guaranteed or insured by this State or by a State Authority.

(c) Loans secured in whole or in part by real estate occupied by the borrower for residential purposes, provided the credit is extended for purposes other than acquisition of the property and the aggregate outstanding debt secured by the property does not exceed the appraised value of the property plus reasonable estimated values for other collateral held against the total indebtedness.

(d) Commercial loans made for operating funds, working capital, or similar purposes, (other than the purchase of, investment in, or development of real estate) predicated upon the credit standing of the borrower or endorser, guarantor or co-maker, or other such security, but on which real estate collateral (including second mortgages) is taken as precautionary measure against possible contingencies may be exempt from the restrictions and limitations imposed upon real estate loans, provided such loans are supported (in addition to adequate credit information and/or collateral documents) by a general purpose statement signed by the borrower or by a credit memorandum signed by a loan officer, stating the purpose for which the loan is made and sufficient to indicate the exemption is valid.

(e) Loans representing the sale by the credit union of other real estate acquired for debts previously contracted shall be exempt from the limitations as to property values and membership requirements exempted by Code Section 7-1-650(9), but shall be subject to all other requirements of this regulation, provided that the amount so financed shall not be for a greater sum than the credit union's investments in such property.

(f) Loans which, when made, were either unsecured or secured by personalty, but which are now secured in whole or in part by liens on real estate taken in order to prevent loss on a debt previously contracted.
(g) Amortized loans in excess of ninety-five percent (95%) of fair market value, but not more than one hundred percent (100%) of fair market value, where not less than twenty percent (20%) of the outstanding principal balance on the loan is insured or a commitment is made to insure for the first ten (10) years of the loan by a mortgage guaranty insurance company licensed to do business in this State.

(h) Temporary loans maturing in not more than one year made for the purpose of financing the acquisition of single-family, residential property to be used as the principal residence of the borrower and where the aggregate total of all liens against the property does not exceed the purchase price of such property; provided, such loan is to be repaid from the sale of the borrower's former principal residence and the proceeds in excess of amounts owed against the former residence and costs of sale are assigned to the credit union.

(6) All construction and development loans made or held by a credit union shall be exempt from the state loan to value limitations of this statute when made to comply with the following conditions:

(a) Loans having maturities not to exceed sixty (60) months may be made to finance the construction of industrial or commercial buildings where there is a valid and binding agreement entered into by a financially responsible lender to advance the full amount of the credit union's loan upon completion of the buildings.

(b) Loans having maturities not to exceed twenty-four (24) months may be made for residential construction or development purposes where the credit union holds a firm (or conditional) commitment to guarantee or insure from any instrumentality or corporation wholly-owned by the United States or by any Authority of this State as indicated in Rule 80-2-12.02(5)(a) and (b) of this Rule, or where there is a take-out agreement by any financially responsible lender to advance the full amount of the credit union's loan upon completion of the dwelling.

(c) Temporary construction or development loans may be made by a credit union for a period not to exceed sixty (60) months where the loan is made to finance the construction of residential development which will exceed nine (9) units or industrial or commercial buildings, or for a period not to exceed twenty-four (24) months where the loan is made to finance construction of nine (9) or less residential units or farm buildings or to improve and develop land preliminary to such construction, without a prior commitment to guarantee or insure or take-out agreement by an instrumentality or corporation wholly-owned by the United States or of this State or any other financially responsible lending agency. The parties must actually intend the loan to be paid off or refinanced by a purchaser within the specified maturities and the lots, when development is residential, must be released periodically during the development of land for such purposes, and pro rata reductions must be made in the principal of the debt. All such temporary construction and development loans must be supported by a statement of purpose...
or intent, and if held beyond the construction or development periods, must be made to conform to the seventy-five percent (75%) and ninety-five percent (95%) limitations; otherwise, they will be held to be nonconforming real estate loans.

1. 75% and 95% limitations are defined for purposes of this Rule as loans for not more than 75 percent of the fair market value of the real estate in the case of a single maturity loan, or for not more than 95 percent of the fair market value of the real estate in the case of loans that must be regularly amortized.

(d) Commitments to guarantee, insure or purchase must be currently valid, and maturities of the loans may not be extended or loans held beyond the periods stipulated above.

(7) Except as otherwise provided in law or regulations, credit unions may not acquire directly or indirectly an ownership interest in real estate without the prior written approval of the Department.

Rule 80-2-12-.03. Participation Loans and Whole Loans.

(1) Credit unions may invest in loans made by other lenders. Credit unions may purchase one hundred percent or less of a loan as part of a participation. Alternatively, credit unions may purchase one hundred percent of a loan as a whole loan. Loans purchased must conform to all laws and regulations applicable to that category of loan to the same extent as if the purchasing credit union had originated the loan itself. Applicable statutory and regulatory requirements, including, but not limited to, collateral documentation requirements, loan to collateral value requirements, and loan limitations must be met. The purchasing credit union shall obtain from the selling lender copies of all pertinent collateral and credit documents or, solely in the case of a loan participation, a summary of information sufficient to conclude that all legal and regulatory requirements have been met.

(2) A credit union that purchases a loan has the responsibility of conducting loan underwriting procedures on the loan to determine that it complies with the policies of the credit union and meets the credit union's credit standards.

(3) The following additional requirements apply to a participation purchase in pools of loans and, those that are applicable, apply to a whole loan purchase in pools of loans:
(a) Loans in the pool or discount line must be specifically identifiable on the records of the selling financial institution.

(b) The participation agreement must call for the participant to share pro rata in losses experienced by the pool.

(c) The participation agreement must provide for a periodic, at least quarterly, report by the seller to the purchaser to account for settlement for losses incurred and to provide information on past due status of loans contained in the pool or discount line.

(d) Where the purchase exceeds the purchasing credit union's unsecured lending limit, the purchase must be accorded prior written approval from the Board or the Board-approved credit committee.

(e) The purchase in the pool must satisfy safety and soundness. In determining whether a participation in a pool of loans is safe and sound, the department will consider:
   1. The credit union's understanding of the selling financial institution's organization, business model, financial health, and the related risks of the participation;
   2. The credit union's due diligence in monitoring and protecting against participation risks;
   3. If contracts between the credit union and the selling financial institution grants the credit union sufficient control over the seller's actions and provides for replacing an inadequate servicer; and
   4. Other factors relevant to safety and soundness.

(4) Where agreements exist for the seller to repurchase or indemnify loss, participation and whole loan purchases shall be treated as loans to the seller by the purchasing credit union and the amount of the purchase shall be considered to be remaining on the seller's books for the purposes of the seller's loan limitations.

(5) The purchasing credit union shall be deemed in compliance with the documentation requirements of this Rule so long as the credit union may electronically access, on demand, the required pertinent documentation required by this Rule.

Rule 80-2-12-.04. Assets Acquired - Debts Previously Contracted ("D.P.C.").

(1) All assets acquired through foreclosure or in lieu of foreclosure and all "Other Real Estate" acquired in such manner or otherwise shall be valued six (6) months prior to or three (3) months following the acquisition by an independent appraiser knowledgeable in the fair market value of such assets or, in the alternative, evaluated by a qualified officer of the credit union in conformity with the Evaluation Content portion of the Interagency Appraisal and Evaluation Guidelines (hereinafter "evaluation") if the book value of the property is less than two (2) percent of the net worth and allowance for loan and lease losses of the credit union, $400,000 for residential property, or $500,000 for commercial property whichever amount is greater. Appraisals or evaluations subsequent to the initial valuation are required if, based upon a review of the following factors, there is a reasonable basis to determine that the prior valuation is no longer reliable as a reasonable estimate of the property's fair market value: volatility of local market; changes in terms and availability of financing; natural disasters; limited or over supply of competing properties; improvements to the subject property or competing properties; lack of maintenance of the subject or competing properties; changes in underlying economic and market assumptions, such as capitalization rates and lease terms; changes in zoning, building materials, or technology; and environmental contamination. In the event there is no basis to determine that the initial valuation is no longer reliable, then appraisals or evaluations shall be at intervals of not more than five (5) years.

(2) All requests for permission to hold assets acquired through foreclosure or in lieu of foreclosure and to hold other types of "Other Real Estate" beyond limitations imposed by statute must include a statement as to efforts made to dispose of the asset, reasons for the failure of such efforts, plans for disposal of the asset during the extended ownership period, a copy of the most recent appraisal or evaluation, and a statement as to the estimated annual cost of carrying the asset and estimated annual income produced by the asset.

(3) Extension of statutory ownership periods will not be granted for income purposes.

(4) Property subject to this rule shall be initially carried on the books of the credit union at the fair market value determined by independent appraisal or evaluation, unless otherwise provided, less the estimated costs to sell the property ("new basis"). This valuation shall be determined as of the date the credit union takes legal title to or physical possession of the property, whichever event occurs first. Subsequently, the carrying value shall be subject to write-down or write-up based upon the most recent appraisal or evaluation. However, the property must be carried at the lower of the current fair market value less the estimated costs to sell the property or the new basis. The new basis may be adjusted upward in the event the credit union makes any permanent capital improvements, subject to the limitations in paragraph (5), necessary to prepare the property for sale but the adjustment in the new basis shall be the lower of the increase in the fair market value of the property after the capital improvements or the amount expended to make the capital improvements. Non-capital improvements and expenses necessary to carrying and maintaining the property (taxes, legal fees, insurance, yard maintenance, etc.) shall be
expenses and not added to the carrying value. Income earned from the property, other than from conversion or sale, shall be credited to income and shall not reduce the carrying value of the property.

(5) A credit union may make permanent capital improvements to property subject to this rule if the improvements are:

(a) Reasonably calculated to reduce any shortfall between the property's fair market value and the credit union's investment in the property;

(b) Not made for the purpose of speculation; and

(c) Consistent with safe and sound banking practices.

(6) Appraisals or evaluations obtained pursuant to this rule shall be for the purpose of determining the current fair market value of the property. Appraisals found to reflect other than current fair market value or found to have been performed by persons unfamiliar with such class of property or lacking independence from the owner of such property may be rejected by the Department and new appraisals required. Evaluations found to reflect other than current fair market value or found to have been performed by persons unfamiliar with such class of property or lacking independence (where required) from the owner of such property may be rejected by the Department and new evaluations or appraisals required.

(a) General Rule. Pursuant to Code Section 7-1-658, loans or extensions of credit to one person will be attributed to another person and each person will be deemed a borrower:

(1) When proceeds of a loan or extension of credit are to be used for the direct benefit of the other person, to the extent of the proceeds so used;

(2) When a common enterprise is deemed to exist between the persons as the persons within the group are directly or indirectly related through common control including where one borrower is directly or indirectly controlled by another borrower;

(3) When there is a common use of funds between the persons; or
(4) When a person has a financial obligation on a loan or an extension of credit, to the extent of such obligation.

(b) Definitions. For purposes of this Rule, the below terms shall be defined as follows:

Rule 80-3-1-.03. Authorized Agents.

(2) Every applicant for a license shall demonstrate to the Department that such applicant has sufficient financial resources in the form of working capital and tangible net worth to successfully engage in the business of cashing payment instruments. Sufficiency of financial resources shall be determined through financial analysis by the Department of pro-forma and historical financial information of the applicant. Each licensee shall be required to complete and attest to official questionnaires and statements of assets and liabilities when requested for examination purposes. Licensees shall be prohibited from
withholding, deleting, destroying, or altering information requested by an examiner of the Department or making false statements or material misrepresentations to the Department during the course of an examination or on any application or renewal form sent to the Department.

(3) Every licensee shall maintain an original written authorization or other evidence of verification attesting to the fact that each specific corporation or other business association has authorized its officers and employees or specific officers or employees to present payment instruments, drawn by the corporation or other business association payable to cash or drawn by any party payable to the corporation or other business association, to a licensee for cashing. A check casher shall not cash a payment instrument payable to persons other than natural persons unless the check casher has on file such written authorization or verification indicating that the payee has authorized the presentation of such payment instruments on behalf of the payee.

(4) Every licensee shall post in prominent view of each teller window or other customer service station a copy of its license. Advertising material related to the cashing of payment instruments and distributed within this state shall contain the licensee's name, which shall conform to the name on record with the Department, and unique identifier, which shall clearly indicate that the number was issued by the Nationwide Multistate Licensing System and Registry.

(a) Books and records required herein shall be maintained by every licensee.

(b) A record of cashed payment instruments shall be maintained by each licensee as a log of all transactions occurring each day. The log must be maintained in chronological order based on the date of negotiation of the payment instrument.

1. For all cashed payment instruments, such record shall include:

   (i) The date of negotiation of the payment instrument;

   (ii) Name, address, and identifying number (social security, driver's license, passport, etc.) of the person negotiating the payment instrument;

   (iii) Amount of the payment instrument; and

   (iv) Amount of fee charged for cashing the payment instrument.

   (i) Date of the payment instrument;

(iii) Name and location or routing number of the payor bank or, if a pre-paid card, the branded card name; and

(iv) Name of the drawer of the payment instrument.

(c) A daily cash reconcilement statement shall be maintained summarizing each day's activity and reconciling cash on hand at the opening of business to cash on hand at the close of business. Such reconcilement statement shall separately reflect cash received from the sale of payment instruments (if also licensed as a seller of payment instruments or an authorized agent of such licensee), redemption of returned items, bank cash withdrawals, cash disbursed in cashing of payment instruments, and bank cash deposits.

(d) A general ledger containing records of all assets, liabilities, capital, income and expenses shall be maintained. The general ledger shall be posted from the daily record of cashed payment instruments or other record of original entry, at least quarterly, and shall be maintained in such manner as to facilitate the preparation of an accurate trial balance of accounts in accordance with generally accepted accounting practices. A consolidated general ledger reflecting activity at two or more locations under the same license may be maintained provided books of original entry are separately maintained for each location.

(e) For all entities cashing payment instruments, each customer cashing a payment instrument shall be offered the option of receiving a receipt showing the name of the licensee or trade name of the licensee, the transaction date, the amount of the payment instrument, and the fee charged.

(f) All licensees shall maintain supporting documentation for all reports and logs required to be prepared or filed with the Department or the Nationwide Multistate Licensing System and Registry.

(6) All payment instruments drawn on a financial institution domiciled in the United States and cashed by a licensee shall be sent for deposit to the licensee's account at a financial institution authorized to do business in the State of Georgia whose deposits are federally insured or sent for collection not later than the close of business on the next business day after the date on which the payment instrument was cashed.

(7) Each licensee shall maintain a principal location at which its books and records are maintained and which is accessible to the Department for examination during normal business hours. Records required to be maintained under this rule may be maintained in a photographic, electronic, or other similar format at a central location within or outside the State of Georgia provided specific records can be transmitted to a location designated by
the Department within ten (10) days of the Department's request. The Department may examine any person that purports to satisfy the exemption from licensure set forth in O.C.G.A. § 7-1-701.1 to verify that the person qualifies for the exemption from licensure. A licensee that refuses to permit an investigation or examination of books, accounts and records (after a reasonable request by the Department), that withholds material information or makes a misrepresentation shall have its license revoked.

(8) The business of the licensee may be conducted through additional outlets, including those operated as mobile facilities, provided that mobile facilities maintain a regular schedule of times and locations at which they cash payment instruments, file the schedule with the Department, and comply with local licensure requirements at each location at which business is conducted. A licensee must provide the Department with written notice at least thirty (30) days prior to it conducting business at any additional outlets.

(9) A licensee shall notify the Department in writing within fifteen (15) days of the closing of the portion of its business that cashes payments instruments and shall surrender its original license to the Department at that time.

(10) A licensee shall make a written request to the Department seeking approval for any proposed change in ultimate equitable ownership through acquisition or other change in control or change in executive officer resulting from such change in ownership or change in control of the licensee as required by O.C.G.A. § 7-1-705.1 at least thirty (30) days prior to the proposed change.

(11) Every licensee giving notices of changes in locations operated by the licensee over those previously reported shall do so at least thirty (30) days prior to conducting business at the new location and on forms provided by the Department.

Rule 80-4-1-.07. Nationwide Multistate Licensing System and Registry.

(1) License issuance and renewals.

(a) All applications for new or renewal licenses must be made through the Nationwide Multistate Licensing System and Registry ("NMLSR") unless otherwise expressly exempted from this requirement by the Department in writing. Fees for new applications include an initial Department investigation fee and the appropriate application fee. Applications for new licenses which are approved between November 1 and December 31 in any year will not be required to file a renewal application for the next calendar year. All fees are non-refundable.

(b) All licenses issued shall expire on December 31 of each year, and an application for renewal shall be made annually between November 1 and December 31 each year. Subsequent renewal applications and/or license fees must be received on or before December 1 of each year or the renewal applicant will be assessed a late
fee as set forth in Rule 80-5-1-.02. A renewal application is not deemed received until all required information and corresponding fees have been provided by the licensee. A proper renewal application not received on or before the December 1 renewal application deadline of each year cannot be assured of issuance or renewal prior to January 1, at which time the license will expire. Unless a proper renewal application has been received any license which is not renewed on or before December 31 will require the renewal applicant to file a reinstatement application in order to conduct business as a check casher in the State after that date.

(2) The responsibility of applicants and licensees to update information in NMLSR.

(a) It shall be the sole responsibility of each applicant for a license and each licensee to keep current at all times its information on the NMLSR. Amendments to any information on file with the NMLSR must be made by the applicant or licensee within ten (10) business days of the date of the event necessitating the change. The Department shall have no responsibility for any communication not received by an applicant or licensee due to its failure to maintain current contact information on the NMLSR as required.

(b) Amendments to any responses to disclosure questions by an applicant for a license or a licensee must be made within ten (10) business days following the date of the event necessitating the change. Failure by an applicant for a license to timely update the applicant's responses to disclosure questions may result in the denial of the application. In the case of a licensee, failure to timely update any disclosure information may result in the revocation of its license.

(c) It shall be the responsibility of each applicant for a license and each licensee to ensure that its control persons keep current at all times their information on the NMLSR. Amendments to any information on file with the NMLSR must be made by the control person within ten (10) business days of the date of the event necessitating the change. For purposes of this Rule, control person means any individual that has the power, either directly or indirectly, to direct or cause the direction of management and policies of an applicant or licensee, whether through the ownership of voting or nonvoting securities, by contract, or otherwise.

(d) Amendments to any responses to disclosure questions by a control person must be made within ten (10) business days following the date of the event necessitating the change. Failure by a control person of an applicant for a license to timely update the control person's responses to disclosure questions may result in the denial of the application. In the case of a licensee, failure by a control person to timely update any disclosure information may result in the revocation of its license.

(3) A licensee may challenge information entered by the Department into the NMLSR. All challenges must be sent to the Department in writing addressed to the attention of the
Deputy Commissioner of Non-Depository Financial Institutions. Once received, the Department shall consider the merits of the challenge raised and provide the licensee with a written reply that shall be the Department's final decision regarding the challenge.

Rule 80-5-1-.08. Levy, Collection, and Remittance of Tax on Interest Paid to Installment Lenders.

(1) A tax shall be paid on a semiannual basis on all interest charged on loans made under Chapter 3 of Title 7 (Georgia Installment Loan Act). A licensee may report such tax on interest either on a "cash basis" or on an "accrual basis" as those terms are defined in subsection (b). However, once a licensee has made such an initial election, such basis shall not be changed without the prior written approval of the Commissioner, with any
such approved change becoming effective at the commencement of the next semiannual reporting period.

(2) A licensee shall report this tax by use of one of the following methods:

(a) "Cash Method" is based on actual interest charged during the month as reported in the daily cash report. The charges of interest shall be increased by recoveries of interest on accounts previously written off and the interest may be reduced by interest on accounts to be presently written off and interest being refunded on accounts prepaid by cash, renewal, and refinancing. The net interest is subject to the tax.

(b) "Accrual method" is based principally on collections during the month of accounts under the Act. An accurate percentage comparison of interest charged to the gross loan is obtained by dividing the outstanding loans at the beginning of the month into unearned interest at the beginning of the month. The percent obtained is then multiplied by the collections for the month. The total obtained is subject to be taxed.

(3) The taxes payable under the provisions of subsection (a) shall be payable to the Department by the licensee on a semiannual basis. More specifically, such taxes for the period January 1 through June 30 of each year shall be remitted to the Department no later than the first business day of September of each year and such taxes for the period July 1 through December 31 of each year shall be remitted to the Department no later than the first business day of March of each year. A return indicating the amount of the tax, the method of calculation, and such other information as may be required by the Department shall accompany the taxes remitted. The taxes and the corresponding return shall be remitted to the Department through its online reporting and payment system. In the event that any licensee fails to timely remit taxes along with the corresponding return via the online reporting and payment system, the unpaid tax shall bear interest at the rate of one percent (1%) per month from the date the tax is due until the date the tax is paid, and there shall be added to the tax a penalty equivalent to twenty-five percent (25%) of the tax, or not less than five dollars ($5). In the event that any licensee fraudulently remits the incorrect tax, there shall be added to the tax a penalty equivalent to fifty percent (50%) of the tax, or not less than five dollars ($5).

(5) If the product or program name under which an insurance contract is marketed includes the name of a financial institution or the name of a program associated with the financial institution, the product or program name must also identify the insurance company which is issuing and underwriting the insurance contract.

Rule 80-5-4-.08. Disclosures.
In order to determine what types of disclosure are required, banks must be diligent in their assessment of the nature of any nondeposit product. Products may take various forms: e.g., investment products such as mutual funds or annuities, and insurance products such as homeowners' insurance or life insurance. Hybrid products with features of more than one category will necessitate compliance with each category's requirements.

Insurance Products. Many of the concerns about customer confusion in bank sales of investment products may also be present in bank sales of insurance products. Consequently, the disclosures required for sale of insurance will be similar to those required for sale of annuities and other investment products.

(a) At the time of sale of an insurance product, the written disclosure below or one which contains all its elements shall be made, except that if a financial institution does not take deposits and is not insured by the FDIC, (i) may be omitted.

1. The insurance products described or referred to:
   (i) Are not deposits and are not insured by the FDIC;
   (ii) Are not obligations of, underwritten or guaranteed by the financial institution selling the insurance product; and
   (iii) Are not a condition to the provision or term of any banking service or activity.

(b) The disclosures given to the customer shall be conspicuous and presented in a clear and concise manner, with no qualifying remarks.

(c) The insurance agent shall deliver the written disclosure described in (a) to the customer and shall receive back from the customer a signed statement that the customer has read and understands the meaning of the disclosures. A copy of this signed statement shall be given to the customer and retained by the financial institution.

(d) In addition to paragraph (2) of this Rule, the insurance agent shall, during discussions of insurance products with the customer, make these disclosures orally.

Annuity products. Disclosures are covered in Chapter 80-5-3 of the Department of Banking and Finance's regulations.

Nondeposit Investment Products. If an insurance product contains investment features, compliance with federal law and policy, such as the Interagency Statement on Retail Sales of Nondeposit Investment Products including the disclosure requirements therein, where applicable, as well as with the Department of Banking and Finance's statement of policy for state chartered banks is required.
(5) Insurance agents shall identify themselves to the customer as being either employees of the financial institution or independent licensed insurance agents, as applicable. Business cards and stationery shall indicate the agent's status as a state licensed agent.

Subject 80-5-5. INCIDENTAL POWERS.

Rule 80-5-5-.01. Incidental Powers; Approval Procedures.
(a) The Commissioner may, by a letter opinion, grant to an institution a power which does not already have a specified application process, so long as the exercise of such power is consistent with the objectives of Chapter 1 of Title 7, provided the activity is deemed by the Commissioner to be financial in nature or incidental to the business of banking, and provided the nature of the activity does not pose significant risks to the financial institution. The Commissioner at his or her discretion may seek public comment before he or she approves such an incidental power, if the Commissioner determines that an appropriate public purpose would be served. If such a determination is made, a 30 days' notice and request for comment shall be published in the department's regular monthly bulletin and to such other parties as the Commissioner deems necessary. The Commissioner shall take any comments received into account in making the final decision.

(b) An institution seeking such a specific power shall make a written application in letter form to the Commissioner. Such application shall set out the power or activity desired, the reason for it, the safeguards or protections which will be employed to ensure the continuing sound operation of the institution, any competitive reasons for the request, such as the ability of institutions not primarily regulated by the state of Georgia to perform such an activity, the need or convenience to customers which this activity would serve, any legal justification required under state law, and the financial ability of the institution to support the activity (including compliance with any investment limitations in a separate corporation pursuant to O.C.G.A. § 7-1-288).

(c) The Commissioner shall review such requests, may request additional information, and after review of the overall economic and managerial condition of the institution, the complexity and risks involved in the activity, and the factors set out in this rule, as well as any other information deemed pertinent to the facts presented, shall reply by letter to the institution within 10 business days of receipt of complete information either granting, denying, or conditioning approval of the activity.

(d) The Department shall keep a record of all such powers granted, which shall be available at its office for review upon prior notice.

Subject 80-5-6. QUALIFIED INTERMEDIARY.

Rule 80-5-6-.01. Financial Institutions Serving as a Qualified Intermediary Related to IRS Section 1031 Like-Kind Property Exchanges.
Any financial institution authorized to exercise full trust powers is permitted to act as a qualified intermediary on an IRS 1031 property exchange. Banks meeting this requirement should have qualified and trained personnel conducting this activity and should maintain the financial records related to these transactions separate from the financial records of the bank or its subsidiaries and shall meet the agency accounting requirements of GAAP in maintaining such records.

If a bank that is not authorized to conduct full trust powers wishes to act as a 1031 qualified intermediary, either through the bank or a subsidiary of the bank, it should provide a written notification to the Department that it wishes to act in this capacity.

(a) The following should be fully documented in the notification to the Department:

1. A summary should be provided regarding the qualifications and training of the bank personnel that will be conducting this activity;

2. Written policies and procedures should be submitted to be utilized in the conduct of this activity that sufficiently mitigates risk, documents the activities of the bank and establishes proper controls over this activity;

3. The bank should provide an indication of what the impact of this activity will be on the fidelity and liability coverage of the bank, and if necessary, obtain coverage riders to protect the financial institution from liability in conducting this activity;

4. Procedures should be established for the bank, in the event of a customer default during a 1031 exchange; and

5. An indication should be given regarding the accounting for these transactions that reflects how these transactions will be segregated from the bank's records and how agency accounting in accordance with GAAP shall be maintained for these transactions.

The Department reserves the right to deny approval for any financial institution that fails to demonstrate the ability to safely and soundly conduct this activity based on the above-required documentation, or which reflected a less than satisfactory condition, or which is operating under an administrative action with the Department or Federal Regulators.

Chapter 80-6. HOLDING COMPANIES.

Subject 80-6-1. APPLICATIONS AND ACQUISITIONS.
Rule 80-6-1-.01. Holding Companies, Generally.

(1) Georgia's holding company statutes (Code Sections 7-1-605 through 7-1-612) govern all holding companies which have or wish to acquire, by purchase or formation, banks chartered by the Department. Once a holding company acquires a Georgia bank, it shall be registered annually with the Department. Subsequent acquisitions by that holding company may require approval, a letter form notification, or after the fact notification, depending upon the relationship of the acquisition to Georgia banks. The Department requires the submission of certain reports from Georgia bank holding companies and from holding companies that own Georgia banks.

(2) Interstate acquisitions by holding companies are dealt with in Part 19 of Article 2 of Title 7; related mergers of the banks in Part 20 of Article 2 of Title 7. Definitions in those Parts should be applied to interstate transactions.

(3) Expedited processing is available to holding companies which qualify under the criteria in Department of Banking and Finance Rule 80-6-1-.03 or 80-6-1-.04, depending on the transaction. A letter form application with a copy of the federal application may be used and public notice may be coordinated so long as the Department is referenced in the notice as a regulator to whom comments should be submitted. A holding company lawfully owning a bank chartered by the Department that meets the criteria in Rule 80-6-1-.04 may qualify for expedited processing for formation of a de novo bank, provided the de novo bank is to be wholly owned by the holding company.

(4) A bank holding company which acquires a bank chartered by the Department must apply and seek approval from the Department pursuant to Code Section 7-1-622. Approval to become a bank holding company of a Georgia bank as defined in Code Section 7-1-605 is similarly required. A bank holding company lawfully owning a bank in Georgia, or lawfully owning a branch of a bank in Georgia which was formed by the acquisition and subsequent merger of a Georgia bank, may form a de novo bank with Department approval pursuant to Code Section 7-1-608(b)(3).

(5) An Applications Manual and a Statement of Policies are available from the Department. Details of and policies underlying all required applications, notifications and registrations are contained in these manuals.

(6) Fees for all transactions are provided in Department and Banking and Finance Rule Chapter 80-5-1.

(7) A Georgia bank holding company for the purposes of this Chapter shall be defined as in Code Section 7-1-621.

(c) A draft copy of any proposed proxy statements or offering circulars or letters prepared in connection with the applicant's proposed bank acquisition;

(d) A copy of the most recent independent audit, if any and if not already on file with the Department, of the applicant's books and records, performed by independent public accountants; and

(2) Applicants desiring expedited processing for formation of a one-bank holding company for an existing bank with no publication requirement must meet the qualifying criteria in Department of Banking and Finance Rule 80-6-1-.03, and submit a letter application describing the transaction and support for qualification under the Department's criteria. Completed applications will be processed in 30 days.

(3) Regular applications for permission for a holding company to acquire shares of stock in a bank including a savings bank or savings and loan association which will result in the holding company having direct or indirect control of five (5) percent to twenty-five (25)
percent of the voting shares of the acquired bank shall be in letter form accompanied by the following exhibits:

(a) Material requested in subparagraphs (a) through (e) of Paragraph (1) of this Rule.

(4) Interstate and intrastate holding company acquisitions requiring approval may qualify for expedited processing. A letter form application describing the transaction shall be filed together with support for qualification under the Department's criteria and a copy of the federal form or documents. Publication may be done according to Department of Banking and Finance Rule 80-6-1-.05 or in conjunction with the federally required notice, provided the reference to the Department of Banking and Finance is included as provided in the notice regulation, Rule 80-6-1-.05.

(6) Expedited processing for acquisitions or mergers described in Paragraph (5) of this rule is available to qualifying institutions under the same terms as in Paragraph (4).

(8) No application filed pursuant to Paragraphs (3), (5) or (7) of this Rule shall request approval to acquire shares of more than one bank. In general, applications will be considered by the Department in order of receipt; simultaneous applications by a single applicant will be considered in the order requested by the applicant. No application filed pursuant to Paragraph (5) of this Rule shall request approval of more than one merger or acquisition.

(9) Final copies of written materials to be transmitted to shareholders to consummate any transaction which has been the subject of an application under this Rule, marked to indicate changes from the preliminary materials filed pursuant to Paragraphs (1)(c), (3)(b) and (5)(b) of this Rule, shall be filed with the Department prior to the actual transmission thereof to the shareholders. The Department may, in the event changes in such materials necessitate additional review, require that transmission to shareholders be delayed until such time as its review shall have been completed. This section shall not be applicable to an application which is subject to registration under the provisions of The Securities Act of 1933, as amended, or the Georgia Uniform Securities Act of 2008, as amended.

(10) Approval of an application filed pursuant to this Rule shall be valid for a period of twelve (12) months and shall expire at that time unless the acquisition has been completed prior to such expiration or unless extended by the Department.
(11) Any material additions or changes in the method of acquisition by purchase or formation or in the representations set forth in an application must be approved by the Department, and could delay processing. The Department may examine, investigate, and evaluate facts related to any filing as necessary to reach an informed decision.

Rule 80-6-1-.03. Qualifying Criteria for Expedited Processing: Acquisitions and One-bank Holding Company Formations.

(1) The qualifying criteria for a bank holding company to be eligible for expedited processing for an acquisition is as follows:
   (a) Well-capitalized organization.
      1. Bank holding company (BHC). Both at the time of and immediately after the proposed transaction, the acquiring BHC is well capitalized.
      2. Insured depository institutions. Both at the time of and immediately after the proposed transaction.
         (i) The lead insured depository institution of the acquiring BHC is well capitalized;
         (ii) Well-capitalized insured depository institutions control at least eighty (80) percent of the total risk-weighted assets of insured depository institutions controlled by the acquiring BHC; and
         (iii) No insured depository institution controlled by the acquiring BHC is undercapitalized.
      3. Well capitalized and undercapitalized shall be as defined in the appropriate capital regulation and guidance of the applicable institution's primary federal regulator.
   (b) Well-managed organization.
1. Satisfactory examination ratings. At the time of the transaction, the acquiring BHC, its lead insured depository institution, and insured depository institutions that control eighty (80) percent of the total risk-weighted assets of insured depository institutions controlled by the BHC are well managed as defined by the Board of Governors of the Federal Reserve System, and have received "satisfactory" or better composite ratings at the most recent examination.

2. No poorly managed institutions. No insured depository institution controlled by the acquiring BHC has received one of the two lowest composite ratings at the institution's most recent examination or subsequent review by the state or appropriate federal banking agency for the institution.

3. Recently acquired institutions excluded. Any insured depository institution that has been acquired by the BHC during the 12 month period preceding the date on which written notice is filed may be excluded from the preceding paragraph if:

   (i) The BHC has developed a plan acceptable to the Department for the institution to restore the capital and management of the institution; and

   (ii) All insured depository institutions excluded under this paragraph represent, in the aggregate, less than ten (10) percent of the aggregate total risk-weighted assets of all insured depository institutions controlled by the BHC.

(c) Convenience and needs criteria.

1. Effect on the community. The record indicates that the proposed transaction would meet the convenience and needs of the community standard in O.C.G.A. § 7-1-606(b) or the BHC Act; and

2. Established CRA performance record. At the time of the transaction, the lead insured depository institution of the acquiring BHC and insured depository institutions that control at least eighty (80) percent of the total risk-weighted assets of insured institutions controlled by the BHC have received a satisfactory or better composite rating at the most recent CRA examination.

(d) Public comment. No comment that is timely and substantive in response to any notice of a transaction is received by the Department or is made known to it by any other regulatory agency, other than a comment that supports approval of the proposal.
(e) Competitive criteria. Without regard to any divestitures proposed by the acquiring BHC, the acquisition does not cause:

1. Insured depository institutions controlled by the acquiring BHC to control in excess of thirty-five (35) percent of market deposits in any relevant banking market; or

2. The Herfindahl-Hirschman index to increase by more than 200 points in any relevant banking market with a post-acquisition index of at least 1800.

3. Any state or federal agency with authority to find that the consummation of the transaction is likely to have a significant adverse effect on competition in any relevant banking market.

(f) Size of acquisition.

1. Limited growth. Except as provided below, the sum of the aggregate risk-weighted assets to be acquired in the proposal and the aggregate risk-weighted assets acquired by the acquiring BHC in all other qualifying transactions does not exceed thirty-five (35) percent of the consolidated risk-weighted assets of the acquiring BHC. For purposes of this paragraph "other qualifying transactions" means any transaction approved under 12 CFR Section 225.14 or 12 CFR Section 225.23 during the 12 months prior to filing the notice; and

2. Individual size limitation. The total risk-weighted assets to be acquired do not exceed $7.5 billion;

3. Small bank holding companies. The limited growth section shall not apply if, immediately following consummation of the proposed transaction, the consolidated risk-weighted assets of the acquiring BHC are less than $300 million.

(g) Supervisory Actions. During the 12 month period ending on the date on which the BHC proposes to consummate the proposed transaction, no formal administrative order, including a written agreement, cease-and-desist order, capital directive, prompt-corrective- action directive, asset-maintenance agreement or other formal enforcement action, is or was outstanding against the BHC or any depository institution subsidiary of the BHC, and no formal administrative enforcement proceeding involving any such enforcement action, order, or directive is or was pending.

(h) Consummation of the transaction must not violate any provision of the Bank Holding Company Act.
(i) In addition, the Department may deny or remove from expedited processing, any institution's application where it finds that:

1. Safety and soundness concerns of the Department dictate a more comprehensive review;

2. Any material adverse comment is received by the Department;

3. Other supervisory concerns, legal issues, or policy issues come to the attention of the Department;

4. Any other good cause exists for denial or removal. In this event, the institution will be notified that expedited processing is not available, the reason, and instructions as to how to proceed.

(2) The qualifying criteria for a one-bank holding company formation is as follows:

(a) The shareholder or shareholders who control at least 67 percent of the shares of the bank will control, immediately after the reorganization, at least 67 percent of the shares of the holding company in substantially the same proportion, except for changes in shareholders' interests resulting from the exercise of dissenting shareholders' rights under state or federal law;

(b) No shareholder or group of shareholders acting in concert will, following the reorganization, own or control 10 percent or more of any class of voting shares of the BHC unless that shareholder or group of shareholders was authorized by the Department and the appropriate federal banking agency for the bank, to own or control 10 percent or more of any class of voting shares of the bank;

(c) The bank is adequately capitalized as defined in Section 38 of the Federal Deposit Insurance Act (12 USC § 1831o);

(d) The bank has received at least a composite "1" or "2" rating at its most recent examination, in the event that the bank was examined;

(e) At the time of the reorganization, neither the bank nor any of its officers, directors, or shareholders is involved in any unresolved supervisory or enforcement matters with any appropriate state or federal banking agency;

(f) The company demonstrates that any debt that it incurs at the time of the reorganization, and the proposed means of retiring this debt, will not place undue burden on the holding company or its subsidiary on a pro forma basis;

(g) The holding company would not, as a result of the reorganization, acquire control of any additional bank or engage in any activities other than those of managing and controlling banks; and
In addition, the Department may deny or remove from expedited processing, any institution's application where it finds that:

1. Safety and soundness concerns of the Department dictate a more comprehensive review;

2. Any material adverse comment is received by the Department;

3. Other supervisory concerns, legal issues, or policy issues come to the attention of the Department;

4. Any other good cause exists for denial or removal. In this event, the institution will be notified that expedited processing is not available, the reason, and instructions as to how to proceed.

Rule 80-6-1-.04. Qualifying Criteria for Expedited Processing: Establishment of a De Novo Wholly Owned Bank Subsidiary By a Holding Company Lawfully Operating in Georgia.

(1) Only a holding company which has lawfully purchased or acquired a bank in Georgia may qualify under this Rule to form a de novo bank, pursuant to provisions of Code Section 7-1-608(b)(3). The holding company must wholly own the proposed bank to qualify for expedited processing.

(2) An eligible holding company must have:

(a) An assigned composite rating of 2 or better at its most recent state or federal examination; and

(b) At least seventy-five (75) percent of its consolidated depository institution assets comprised of eligible depository institutions.

(3) An eligible depository institution, for the purposes of this Rule, shall be one that:
(a) Received a composite rating of 1 or 2 under the Uniform Financial Institutions Rating System (UFIRS) as a result of its most recent federal or state examination;

(b) Received a satisfactory or better Community Reinvestment Act (CRA) rating from its primary federal regulator at its most recent examination, if the depository institution is subject to such examination;

(c) Received a compliance rating of 1 or 2 from its primary federal regulator at its most recent examination;

(d) Is well-capitalized as defined in the appropriate capital regulation and guidance of the institution's primary federal regulator; and

(e) Is not subject to a cease and desist order, consent order, prompt corrective action directive, written agreement, memorandum of understanding, or other administrative agreement with its primary federal regulator or chartering authority.

(4) An application may be removed from expedited processing for reasons including the following:

   (a) Safety and soundness concerns of the Department dictate a more comprehensive review;

   (b) Any material adverse comment is received by the Department;

   (c) Other supervisory concerns, legal issues, or policy issues come to the attention of the Department;

   (d) If applicable, any acquisition of fixed assets would cause the institution to exceed the state fixed asset limitation; or

   (e) Any other good cause exists for denial or removal.

Rule 80-7-1-.04. Interpretations.

(1) The phrase "deposits subject to check or draft" as used in FIC Sections 7-1-730 through 7-1-734 shall not include deposits withdrawn by wire transfer or by check or draft where the check or draft is payable to the owner of the deposit or an affiliate of the owner and where there are five or fewer checks/drafts in any thirty-day (30) period.

(2) For purposes of distinguishing between "deposits" and "credit balances", the following guidelines shall be applicable:

   (a) The maintenance of all credit balances shall be supported by appropriate file memorandum relating to the class of credit balances generally, e.g. compensating loan balances, letter of credit transactions, or to the specific credit balance being maintained and its related exercise of lawful power. Such memorandum shall recite the terms under which the credit balance(s) is maintained, the nature of the transaction out of which the credit balance arose, and the terms under which the credit balance must be terminated.

   (b) Access to credit balance accounts (other than by internally generated entry) may be by draft or transfer. Such items should not represent any significant volume relative to the nature of the account and should be two-party items, i.e. the payee should also be either the maker, the international bank, or an affiliate of the maker or international bank.

   (c) The foregoing shall not be applicable to accounts (operating expenses) payable arising out of the operations of the International Bank Agency in the ordinary
course of business, nor shall it curtail the right of such an Agency to borrow
money and issue obligations to evidence such borrowings.

(d) Balances maintained by corporations and divisions affiliated with an International
Bank Agency shall not be considered to be deposits even though not maintained in
strict compliance with the foregoing.

(e) Balances maintained by salaried employees of an International Bank Agency shall
not be considered deposits even though not maintained in strict compliance with
the foregoing.

(3) The phrase "through its parent organization" as used in FIC Section 7-1-731 includes
funds placed with and used internally for the benefit of the parent organization.

History. Original Rule entitled "Interpretations" was filed on October 15, 1981; effective November 4, 1981.

**Rule 80-7-1-.05. Operating Restrictions.**

(1) Balances maintained in violation of restrictions against deposits shall be returned to the
owner within ninety (90) days of receipt of a notice from the Department to terminate the
account unless a review by the Department at the written request of the FBO results in a
determination that the balance should be allowed to remain on the books of the FBO.

(2) Each FBO shall maintain separate accounting records covering its assets, liabilities,
income and expenses resulting from the operations located in this State. Such records
may be reviewed by the Department to determine that the scope of the activities of the
FBO in this state are within the limitations prescribed by law. The results of the
Department review shall be maintained and treated by the Department in the same
manner as Reports of Examination and may, in the discretion of Department, be provided
to other regulatory authorities to whom the parent organization is accountable.

(3) No FBO shall be eligible to act as a fiduciary in the State or to provide fiduciary services
as a consequence of its maintaining a place of business within this State or of its licensing
or registration by the Department.

(1) For purposes of this Rule 80-7-1.06:

(a) Party "A" shall mean the customer or purchaser of lockbox services;

(b) Party "B" shall mean the Georgia depository bank or banks for items received through a lockbox service;

(c) Party "C" shall mean the lockbox operator;

(d) Party "D" shall mean the non-Georgia bank sponsor or consultant to Party A or Party C with respect to lockbox services; and

(2) A bank (whether acting as Party C or Party D) domiciled outside of Georgia shall be deemed to operate a "Business Production Office" and shall not be deemed to be engaged in the business of banking in this state relative to a lockbox service to be offered through a location in Georgia and a nonbank operator shall not be deemed to be engaged in the business of banking in this state relative to such lockbox service, provided:

(a) Each deposit account maintained with Party B shall be maintained at all times as an account of Party A, or its duly authorized agent, under the control of such Party A or its duly authorized agent for the principal purpose of providing lockbox services; provided, however, that the duly authorized agent of Party A shall not be a bank;

(b) Account balance access mechanisms shall be solely a matter of contract between Party A, or its duly authorized agent, and Party B and shall not be conditions precedent to contracting for lockbox services by and between Party A, Party C, and/or Party D.

(3) The purpose of this Rule is to separate as a matter of contract between the parties and in practice the normal bank/customer relationship from the relationship resulting from nonbanking operation of a lockbox service so that the normal operation of the separate activities can continue without contravention of statutes and regulations governing either activity through contractual or agency arrangements tying the two activities together.

(2) Reserved.

(3) A "physical place of business" in this state shall mean an enclosed room or building where a licensee alone, if it has no employees, otherwise where one or more supervised employees conduct a residential mortgage business.

(4) A location, including a personal residence, shall be considered a branch for purposes of the Georgia Residential Mortgage Act if any of the following conditions are met:
(a) The location address is printed on or contained in letterheads, business cards, announcements, advertisements, solicitations for business, flyers, brochures, or the like;

(b) Georgia consumers are received at the location or are directed to deliver any information by any means to the location;

(d) The licensee directly or indirectly reimburses for rent, utility bills or other expenses incurred for use of a location as a branch.

(5) Notwithstanding Paragraph (4) of this rule, a location, including a personal residence, will not be deemed a branch and will be required to have its own license if:

(a) It is a franchise arrangement;

(b) It is separate entity that may be referred to as a "net branch," and it is an independent business or mortgage operation which is not under the direct control, management, supervision and responsibility of the licensee;

(c) The licensee is not the lessee or owner of the branch and the branch is not under the direct and daily ownership, control, management, and supervision of the licensee;

(d) All employees exempt from individual licensing, including the branch manager, do not meet the requirements for such exemption in Article 13 and the rules of the department;

(e) All assets and liabilities of the branch are not assets and liabilities of the licensee and income and expenses of the branch are not income and expenses of the licensee and are not properly accounted for in the financial records and tax returns of the licensee; or

(f) All practices, policies, and procedures, including but not limited to those relating to employment and operations, are not originated and established by the licensee and are not applied consistently to the main office and all branches.

Rule 80-11-1-.04. Branch Managers.

(1) A "branch manager" shall mean an individual who supervises daily activities in Georgia of a licensee, whether at a main or branch location, and regardless of job title.

(2) In order to be approved as a branch manager, an individual must be licensed by the department as a mortgage loan originator.

(3) No individual shall be permitted to manage a location in Georgia without being approved by the department as a branch manager. A branch manager may be put in place subject to departmental approval, but the department must receive a complete application for approval within 15 calendar days of the placement. No individual may serve as the branch manager of more than one location of a licensee unless the licensee can demonstrate that the proposed branch manager will be able to effectively manage these locations to ensure that they operate in compliance with state and federal law, and that the manager can adequately supervise the daily functions performed by the employees at the locations. In order to qualify for the employee exemption, an employee must be supervised on a daily basis by the licensee. Considerations by the department in determining whether a branch manager may supervise more than one location will include: proximity of branches to each other, volume of business at each, experience level of proposed manager and plans to handle the supervision.

(4) The department shall conduct a background check, obtain a credit report, and require a financial statement and such other pertinent information as it may require to satisfy itself
that the location will be operated by the branch manager responsibly and in compliance with the laws and rules of this state.

(5) The applicant must submit two sets of fingerprints, along with a money order or certified check payable to the department in the appropriate amount set by the department in order for the department to cause to be administered the expanded background check as required by O.C.G.A. § 7-1-1004(k).

Rule 80-11-1-.05. Employee Background Checks; Covered Employees.

(1) As required by O.C.G.A. § 7-1-1004(k), applicants and licensees must complete background checks on all covered employees. Covered employees include those employees who physically work in the state of Georgia and who may enter, delete or verify any information on any mortgage loan application form or document. Employees of a licensee or applicant who are not involved in the mortgage loan business are not covered employees. Background checks on all covered employees must be completed and found satisfactory by the applicant or licensee within ninety (90) days of the initial date of hire. Employers should submit background information to the proper law enforcement authorities promptly upon initial hire in order to meet the ninety (90) day requirement. A background check must be initiated for a person in the employ of a licensee or applicant within ten (10) days of the date of initial hire.

(2) The term "mortgage loan application form or document" shall mean any prospective borrower's personal electronic or printed information and documents, including but not limited to bank statements, W-2 forms, income tax returns, employment records, and other personal financial information required to be submitted in the course of making an application for a mortgage loan. It also includes documents maintained and generated by the licensee in the course of the application and administration of the mortgage loan, including but not limited to electronic or printed/written information on the mortgagor and their loan, including personal and loan database information, payments and payment history information, past due reports and schedules, coupon books, information generated for tax purposes, including escrow information, and any other information generated which would include the financial and loan history of the mortgagor. Documents would also include computer displays of personal and mortgage loan information on an
individual borrower or client which may be disseminated by the licensee's personnel in the course of verifying information for customers and other business related inquiries.

(3) Applicant's and licensee's requests for background checks are handled by the Georgia Crime Information Center (GCIC) following their rules and regulations (see also O.C.G.A. § 35-3-34). Background checks must be full GCIC checks following that agency's rules and regulations and must not have any time period limitations or restrictions in the search criteria. Any fees charged by GCIC for processing background checks must be paid by the applicant or licensee. The background checks may be arranged for through a local law enforcement office, so long as the background check is done by GCIC.

(a) If the information from the background check is unclear or incomplete, appears to address or makes reference to a felony conviction, or indicates that the employee has a criminal record in any state other than Georgia ("multi-source offender"), the applicant or licensee must immediately submit two sets of fingerprints of the person, along with the applicable processing fee and any additional information the Department may require to complete an expanded background investigation. A money order or certified check in an amount as directed by the Department made payable to the Department shall be submitted with the cards in order to have the cards processed. Applicant or licensee shall discuss the Georgia Residential Mortgage Act's legal requirements for employment with the subject employee.

(b) An employee may remain employed by the applicant or licensee pending results of a fingerprint follow up investigation if no felony convictions appear on the GCIC report. If the employee is found to have disqualifying conviction data according to O.C.G.A. § 7-1-1004(h), or if the applicant or licensee knows that a disqualifying conviction is present, the applicant or licensee must immediately take action to comply with O.C.G.A. § 7-1-1004(h).

(1) The Department will take appropriate action against all persons found to be improperly engaging in mortgage brokerage or lending activities without a license or valid exemption. In accordance with O.C.G.A. § 7-1-1018(a), if proper evidence is provided to the Department within thirty (30) days of the date the Order is issued that shows the
person had the proper license or was acting pursuant to a valid exemption at the time noted in the Order, the Order shall be rescinded by the Department.

(2) The exemption from licensing provided pursuant to O.C.G.A. § 7-1-1001(14) to an employee of a licensee or exemptee applies only to natural persons who meet all of the following criteria:

(a) An employee must be employed by just one licensee or exemptee and work exclusively for that person;

(b) An employee may not solicit, process, or place loans for anyone else while claiming the exemption;

(c) An employee's procedures and activities must be supervised by the licensee or exemptee on a daily basis, and the licensee or exemptee is responsible for the actions of such employees. This requirement is intended to make it clear that employers control and are accountable for the actions of their employees; and

(d) An employee may not be paid or compensated for performance of mortgage activity as an independent contractor or on a 1099 basis, except as specifically provided for in paragraph (3) of this rule.

(3) The exemption from licensing provided pursuant to O.C.G.A. § 7-1-1001(17) only applies to a natural person acting in the capacity as an independent contractor working under an exclusive written contract for a licensee that is a wholly owned subsidiary of a financial holding company or bank holding company, savings bank holding company, or thrift holding company, under conditions and limitations as set forth in O.C.G.A. § 7-1-1001(17) and applies only if all of the following criteria are met:

(a) The independent contractor may only work in the capacity of a mortgage broker and may only broker loans to the licensed subsidiary or its affiliates;

(c) The surety bond required pursuant to O.C.G.A. § 7-1-1001(17) must be in full force and effect at all times, unless or until such time as the licensee is no longer licensed. In the event that the licensee is no longer licensed, all independent contractors brokering loans for the licensee as independent contractors under this exemption must cease all mortgage brokerage activity immediately upon termination of said license. In the event that the required surety bond coverage falls below the amounts required by O.C.G.A. § 7-1-1001(17), the licensee must
immediately provide coverage sufficient to meet the requirements as set forth therein, or the license will be subject to revocation or suspension. Adequacy of bond coverage will be determined annually by the Department based on the list of independent contractors as provided by the licensee in Rule 80-11-4-.03(3)(b).

Registrants must submit financial information as provided in O.C.G.A. §§ 7-1-1003.2 and 7-1-1010, are subject to books and records requirements as provided in O.C.G.A. § 7-1-1009, and must submit an annual fee to the Department. Rule 80-11-4-.05. Knowing Purchase, Sale or Transfer of Loan or Loan Application from Unlicensed Entity, Mortgage Loan Originator Sponsorship Excluded.

(1) It is prohibited for any person to knowingly purchase, sell or transfer a mortgage loan or loan application to or from an unlicensed mortgage loan originator, mortgage lender or broker, unless that entity is exempt from licensure or qualified to operate under the temporary authority provisions of 12 U.S.C § 5117. It is expected that all persons who
purchase loans use reasonable diligence to determine whether the entities they do business with are licensed or exempt from licensure. To that end, the department makes available through NMLS Consumer Access information as to whether an entity is licensed.

(2) Obtaining a copy of an entity's annual license shall not be sufficient evidence of a current license since revocation proceedings occur throughout the year.

(3) Failure by a licensee to exercise reasonable diligence to determine whether an entity is licensed or exempt from licensure may result in a fine or other administrative action, including, but not limited to, license revocation.

(4) The mere act of sponsoring an employee seeking licensure from the Department as a mortgage loan originator through the Nationwide Multistate Licensing System and Registry shall not be regarded in and of itself as engaging in the mortgage business with an unlicensed person as long as the applicant is not performing for the sponsoring licensee or registrant those regulated activities set forth in O.C.G.A. § 7-1-1000(22) unless qualified to operate under the temporary authority provisions of 12 U.S.C. § 5117.

Rule 80-11-4-.07. Loan Processors as Brokers.

(1) Mortgage brokers include persons who directly or indirectly solicit, process, place or negotiate or offer mortgage loans for others. A loan processor is a mortgage broker and
will require a mortgage broker license to process loans on Georgia real property that meet the definition of "mortgage loan" in O.C.G.A. § 7-1-1000(21).

(2) A loan processor employed as a W-2 employee of a Georgia Residential Mortgage Act licensee who meets all of the qualifications for exemption under O.C.G.A. § 7-1-1001 does not require a license. A loan processor who works as an independent contractor or who owns or controls a company that does loan processing is required to have a license.

(3) Generally, to process a loan means to collect and/or verify from a borrower or other person, information that is necessary to underwrite or to submit for underwriting, a mortgage loan application package. Activities including but not limited to the following may qualify as loan processing:

(a) Reviewing, and processing real estate loan applications.

(b) Ordering, obtaining and evaluating credit reports, real estate appraisals, flood certifications, location surveys, termite inspections, well/septic inspections, surveys, etc.

(c) Ordering, obtaining, and evaluating real property ownership information, including a title insurance policy insuring lender’s valid lien position. Title insurance companies that handle only title insurance for a particular loan are not loan processors.

(d) Communicating with applicants as necessary to obtain additional information needed to process a loan.

(e) Obtaining verifications of income, employment, address, etc. as requested by a broker, lender or mortgage loan originator.

(f) Performing escrow account analyses; taking steps required to establish escrow accounts.

(g) Providing certain real estate loan disclosures on behalf of lender.

(h) Compiling and transmitting completed real estate loan application packages to lenders.

(i) Maintaining, collecting, and/or reporting any data necessary to comply with applicable statutory and regulatory requirements.

(4) Persons who are otherwise exempt from licensing in O.C.G.A. § 7-1-1001, so long as they provide only the services contemplated in their exemption, will not be considered loan processors.

Rule 80-11-4-.08. Restrictions on Employment and Licensing.

(1) No person who has been an officer, director, partner or ultimate equitable owner of a licensee that has had its license revoked, denied or suspended, may perform any of those roles at another licensee or registrant for five years from the date of the final order.

(2) Felony convictions; restrictions on the employee and the licensee:
   (a) O.C.G.A. § 7-1-1004 provides that no person employed by or directing the affairs of any licensee may be a convicted felon. Licensees are obligated by that statute to do their own background checks on covered employees. Licensees, however, are responsible to see that no convicted felons are employed or direct the affairs of their business. The department administers fingerprint checks on officers and directors and others where needed.

   (b) O.C.G.A. § 7-1-1004 provides for remedies to "cure" a felony conviction. These remedies must be completed and in place prior to employment. Hiring or continuing to employ a person with an unremedied felony conviction subjects a licensee to revocation of its license.

   (c) If a licensee discovers that an employee or director/officer is a felon who has not satisfactorily "cured" the conviction, the violation of O.C.G.A. § 7-1-1004 must be immediately corrected or the license will be subject to revocation. Such individuals with felony convictions are ineligible for an employee exemption and are in violation of O.C.G.A. § 7-1-1019, also a felony, and O.C.G.A. §§ 7-1-1004 and 7-1-1002. The licensee employer is in violation of O.C.G.A. §§ 7-1-1004 and 7-1-1002.

   (d) A cease and desist order to a person for failure to meet the employee exemption due to a violation of the felony provisions of O.C.G.A. § 7-1-1004 shall become final in 30 days without a hearing. Such a person must show within those 30 days, by certified court documents that the record is erroneous, or, that the "cure" provisions in O.C.G.A. § 7-1-1004 were completed prior to employment, in order to stop the order from becoming final. In the event such proof is provided, the order will be rescinded.

(3) Cease and desist orders may be issued against persons required to be licensees or registrants or against employees of those parties. All of the provisions of O.C.G.A. § 7-1-1018, including injunction, apply to actions against all such persons.

(4) The Department may regularly publish information identifying persons and natural persons to whom final administrative actions have been issued.
Rule 80-11-4-.09. Challenges to Information Entered into the Nationwide Multistate Licensing System and Registry.

A mortgage broker or lender licensee or registrant may challenge information entered by the Department into the Nationwide Multistate Licensing System and Registry. All challenges must be sent to the Department in writing addressed to the attention of the Deputy Commissioner of Non-Depository Financial Institutions. Once received, the Department shall consider the merits of the challenge raised and provide the licensee or registrant with a written reply that shall be the agency's final decision in response thereto.

(1) Pursuant to O.C.G.A. § 50-36-1, the Department is required to obtain an affidavit verifying the lawful presence of every natural person that submits an application for a license as a mortgage broker or mortgage lender or a registration on behalf of an individual, business, corporation, partnership, limited liability company, or any other business entity. For businesses, corporations, partnerships, limited liability companies, and other business entities (collectively "company applicant"), only an owner or executive officer that is authorized to act on behalf of the company applicant is authorized to submit the required signed and sworn affidavit.

(2) In the event the individual that executed the lawful presence affidavit on behalf of the company applicant is no longer an owner or executive officer of the licensee or registrant, the licensee or registrant must notify the Department within ten (10) business days following the date of the occurrence and provide the Department with an affidavit from a current owner or executive officer verifying his or her lawful presence on behalf of the licensee or registrant. The failure to disclose within ten (10) business days that the owner or executive officer that executed the lawful presence affidavit is no longer in that position with the licensee or registrant or to timely submit a new affidavit from a current owner or executive officer shall be cause for the Department to revoke the license or registration.
owner or executive officer may subject the license or registration to revocation, suspension, or other administrative action.

(1) It shall be the sole responsibility of each applicant for a mortgage lender or mortgage broker licensee, each applicant for a registration, each licensed mortgage broker and mortgage lender, and each registrant to keep current at all times its information on the Nationwide Multi-State Licensing System and Registry ("NMLSR"). Amendments to any information on file with the NMLSR must be made by the applicant, licensee, or registrant within ten (10) business days of the date of the event necessitating the change. Failure by an applicant for a mortgage lender or mortgage broker license or an applicant for a registration to timely update the applicant's NMLSR MU-1 may result in the denial of the application. In the case of a licensed mortgage lender or mortgage broker or a registrant, failure to timely update any disclosure information on the NMLSR MU-1 may result in the revocation of its license or registration.

(3) It shall be the responsibility of each applicant for a mortgage lender or mortgage broker licensee, each applicant for a registration, each licensed mortgage broker and mortgage lender, and each registrant to ensure that its control persons keep current at all times their information on the Nationwide Multi-State Licensing System and Registry ("NMLSR"). Amendments to any information on file with the NMLSR must be made by the control person within ten (10) business days of the date of the event necessitating the change. For purposes of this rule, control person means any individual that has the power, either directly or indirectly, to direct or cause the direction of management and policies of an applicant, licensee, or registrant, whether through the ownership of voting or nonvoting securities, by contract, or otherwise.

(4) Amendments to any responses to disclosure questions on an NMLSR MU-2 by a control person must be made within ten (10) business days following the date of the event
necessitating the change. Failure by a control person of an applicant for a mortgage lender or mortgage broker license or an applicant for a registration to timely update the control person's NMLSR MU-2 may result in the denial of the application. In the case of a licensed mortgage lender or mortgage broker or a registrant, failure by a control person to timely update any disclosure information on the NMLSR MU-4 may result in the revocation of the mortgage broker or mortgage lender license or registration.

Rule 80-11-4-.12. License Renewal Periods and Requirements for Mortgage Brokers, Mortgage Lenders, and Mortgage Originators.

(a) For purposes of this rule the Nationwide Multistate Licensing System and Registry (NMLSR) is defined as a uniform multi-state administration of an automated licensing system for mortgage brokers, mortgage lenders, and mortgage loan originators. The department's participation in NMLSR is authorized by O.C.G.A. § 7-1-1003.5.

(b) All applications for new licenses or registrations must be made through NMLSR. Fees for new applications include an initial Department investigation fee and the appropriate application fee for the application type. Applications for new licenses and registrations which are approved between November 1 and December 31 in any year will not be required to file a renewal application for the next calendar year. All fees are non-refundable.

(c) All licenses and registrations issued pursuant to the Georgia Residential Mortgage Act shall expire on December 31 of each year, and an application for renewal shall be made annually between November 1 and December 31 each year. Subsequent renewal applications and/or license fees must be received on or before December 1 of each year or the applicant will be assessed a late fee as set forth in these rules by license or registration type. A renewal application is not deemed received until all required information, including documentation of any required continuing education coursework, and corresponding fees, has been provided by the licensee. A proper renewal application not received on or before the December 1 renewal application deadline of each year cannot be assured of issuance or renewal prior to January 1, at which time the license or registration will expire. Unless a proper application has been received any license or registration which is not renewed on or before December 31 will require the applicant to file a reinstatement application in order to conduct mortgage business in the State after that date.

Subject 80-11-5. MORTGAGE LOAN ORIGINATOR LICENSURE AND OTHER REQUIREMENTS.

Rule 80-11-5-.01. Mortgage Loan Originator Licensure Requirements.

(1) A mortgage loan originator may not engage in the business of mortgage loan origination for a licensed residential mortgage broker or lender without first obtaining and maintaining a current Georgia mortgage loan originator's license issued by the Department through the Nationwide Multistate Licensing System and Registry ("NMLSR") or unless qualified to operate under the temporary authority provisions of 12 U.S.C. § 5117.

(2) An applicant for mortgage loan originator's license must have a sponsor at and during the time his or her application is being considered for approval or renewal by the Department. Failure to have a sponsor at the time application for licensure is made on the NMLSR or while it is pending shall result in the application being administratively withdrawn by the Department, except that an applicant qualified to operate under the temporary authority provisions of 12 U.S.C. § 5117 shall be subject to administrative action to deny the license application. In the event the applicant wishes to submit a new application after the application has been administratively withdrawn or denied, then the applicant shall be required to submit a new application as well as pay all associated fees. For purposes of this Rule Chapter, "sponsorship" means the authorization for a properly licensed mortgage loan originator to conduct business as an employee under and on behalf of a specific mortgage broker or mortgage lender's license or registration. Sponsorship must be initiated and maintained by the licensed or registered mortgage broker or mortgage lender employing a mortgage loan originator.

(3) (a) As a continuing requirement of licensure, a mortgage loan originator must at all times have proper sponsorship on record with the NMLSR by a licensed or registered Georgia mortgage broker or mortgage lender.

(b) Sponsorship must be applied for and accepted by the Department. Once established, sponsorship can be removed by the employing licensee or registrant. It shall be the responsibility of every mortgage loan originator applicant and licensee to ensure that his or her sponsorship is correctly reflected at all times on the NMLSR.

(4) A mortgage loan originator shall have coverage under the surety bond of his or her licensed or registered mortgage broker or mortgage lender employer.

(5) An applicant for a mortgage loan originator's license will not be approved for licensure if he or she has pleaded guilty to, been found guilty of, or entered a first offender or nolo
plea for a felony. A mortgage loan originator license applicant will not be approved for licensure or reinstatement of licensure if he or she has been convicted of a felony in an instance in which a restoration of rights subsequently was issued by a state or federal pardoning authority empowered to dispense this relief.

(6) A mortgage loan originator must immediately surrender his or her license to the Department through the NMLSR once he or she leaves the employ of a licensed broker or lender and begins working as a loan officer for an exempt entity identified in O.C.G.A. § 7-1-1001.

(7) An application for a mortgage loan originator license, which is missing material information, shall be held in an incomplete status for a period of five (5) business days after the issuance of written notice by the Department or NMLSR specifying the identified deficiency. If any such deficiency remains outstanding for more than five (5) business days, the license application will be considered abandoned by the applicant and will be administratively withdrawn by the Department. Notwithstanding the foregoing, an applicant qualified to operate under the temporary authority provisions of 12 U.S.C. § 5117, or who purports to be so qualified, shall be subject to administrative action to deny the license application at any time. In the event the applicant wishes to submit a new application after it has been administratively withdrawn or denied, then the applicant shall be required to submit a new application as well as pay all associated fees.

Rule 80-11-5-.02. Books and Records Requirements; Examination.

(1) The Department may examine the mortgage related books and records of any licensed mortgage loan originator as specified in O.C.G.A. § 7-1-1009.

(2) Any person who is acting as a mortgage loan originator and is required to be licensed shall maintain a journal of mortgage loan transactions, which shall include, at a minimum, the following information:

(a) Full name of proposed borrower and all co-borrowers;

(b) Date the mortgage loan originator took application for the mortgage loan;

(c) Name and the unique identifier or Federal Regulatory Number of the mortgage licensee or registrant sponsoring the loan originator;
(d) Disposition of the mortgage loan application and date of disposition. The journal shall indicate the result of the loan transaction. The disposition of the application shall be categorized as one of the following: loan closed, loan denied, application withdrawn, application in process or other (explanation to be provided);

(e) The journal shall be kept current, updated no less frequently than every seven (7) days. The failure to initiate an entry to the journal within seven (7) business days from the date of the occurrence of the event required to be recorded in the journal shall be deemed a failure to keep the journal current.

(f) The journal shall clearly identify if the mortgage loan originator utilized temporary authority to operate at any point in the application or loan process.

(g) Failure to maintain the mortgage loan journal or to keep the journal current (incidental and isolated clerical errors or omissions shall not be considered a violation) may be grounds for suspension or revocation of the license or other appropriate administrative action and will subject the licensee to fines in accordance with regulations prescribed by the department.

(3) All books and records and accounts required by this rule shall be maintained by a mortgage loan originator for a period of five (5) years.

All licensed mortgage loan originators must maintain an office of record with the Department. If the mortgage loan originator is not domiciled in Georgia, then the main office location of the sponsoring/employing licensee or registrant shall serve as the official employment address of the loan originator. Rule 80-11-5-.04. Renewals.
(1) Mortgage loan originator licenses shall expire on December 31st of each calendar year. A mortgage loan originator must meet the following requirements in order to have his or her license renewed:

(a) A mortgage loan originator must continue to meet the minimum standards for license issuance.

(b) Timely submission of a complete renewal application and corresponding fee.

(c) A mortgage loan originator must satisfy the continuing education requirements of O.C.G.A. § 7-1-1004(g). The applicant must obtain on an annual basis eight (8) hours of approved continuing education in mortgage courses from an NMLSR approved provider. Of these eight (8) hours, seven (7) hours must be obtained in course work addressing the subjects identified in O.C.G.A. § 7-1-1004(g)(1), and at least one (1) hour of continuing education must be obtained in coursework addressing the Georgia Residential Mortgage Act, specifically any changes made to the statute and its corresponding regulations.

(d) Courses taken to meet the approved continuing education requirements of the NMLSR for any state shall be accepted as credit towards continuing education requirements in Georgia, with the exception that one (1) hour of the required courses must cover laws and regulations related to Georgia mortgage licensure, not that of another state.

(e) Continuing education credits are only valid in the calendar year in which the courses are taken. Credits earned during November 1 through December 31 will be excluded from consideration for continuing education credit hours earned for the subsequent renewal period. When continuing education hours are obtained by a mortgage loan originator, only credit hours obtained from January 1 to October 31 shall be considered for purposes of meeting the eight (8) hours of continuing education required in the subsequent renewal period.

(f) 1. Upon submitting an application to renew a license, failure to document to the Department's satisfaction proof of completion of eight (8) continuing education hours by October 31 may subject the licensee to a fine. The failure to document proof of completion of these hours and to pay any assessed fine by December 31 shall result in the expiration of the mortgage loan originator's license without notice or hearing.

2. A mortgage loan originator whose license has been inactive for less than three (3) years shall provide proof of completion of the continuing education requirements for the last year in which the license was held in order to reinstate it. Should reinstatement of an expired license be sought for a license that has been inactive for five (5) years or more, such reinstatement application will require that the applicant again meet the testing requirements set forth in O.C.G.A. § 7-1-1004(f). If a person has worked as
a registered loan originator at any time during the lapsed license period, the period of time the registered mortgage loan officer was employed in this capacity shall not count toward the calculation of the time period for the continuing education and testing requirements of this paragraph.

3. In the following circumstances the prelicensing education course will expire, which shall require the individual to complete an additional 20 hours of prelicensing education in order to be eligible for a mortgage loan originator license. An individual's prelicensing education shall expire if he/she:

(i) fails to acquire a valid license or work as a registered loan originator within three years from the date of initial completion of any approved prelicensing education course;

or

(ii) has obtained a license or worked as a registered loan originator but subsequently did not maintain an active license or work as a registered loan originator for three years or more.

Rule 80-11-5-.08. Bona Fide Nonprofit Corporations.
(1) An employee of a nonprofit corporation that the Department has determined is a bona fide nonprofit corporation pursuant to O.C.G.A. § 7-1-1001(a)(18) and this Rule is exempt from the requirement of obtaining a mortgage loan originator license for the period of time that the Department's determination is in place. This exemption from licensure does not apply if the employee originates residential mortgage loans outside the scope of the employee's duties and employment at the bona fide nonprofit corporation.

(2) A nonprofit corporation may request that the Department determine it is a bona fide nonprofit corporation for purposes of O.C.G.A. § 7-1-1001(a)(18). The nonprofit corporation shall submit to the Department a determination request in such form and manner and with such supporting documentation as required to enable the Department to conclude whether the nonprofit corporation satisfies the criteria set forth in O.C.G.A. § 7-1-1001(a)(18) and this Rule.

(3) One of the factors that the Department must consider in determining whether an entity is a bona fide nonprofit corporation is whether it complies with O.C.G.A. § 7-1-1001(a)(18)(vi) and provides loan terms that are favorable to the borrower. The Department may consider the following loan terms when determining whether a loan is made in the best interest of the borrower:

   (a) Loan terms that do not charge for the accrual of interest;

   (b) Loan terms that charge interest at below market rates;

   (c) Loan terms that require a borrower to qualify for the loan by the contribution of sweat equity; or

   (d) Loan terms that forgive repayment in whole or in part, whether over a period of time, on a specified date, or subject to ownership or occupancy conditions.

(4) After completing its review of the determination request, the Department will determine whether the nonprofit corporation satisfies the requirements of a bona fide nonprofit corporation.

(5) A nonprofit corporation determined by the Department to be a bona fide nonprofit corporation shall, between December 1 and December 31 of each year, submit a certification that the nonprofit corporation continues to meet the criteria under which the Department issued a determination that the entity is a bona fide nonprofit corporation. In addition to the annual certification, a bona fide nonprofit corporation shall give the Department thirty (30) days written notice prior to any proposed significant change to the entity's mission, policies, practices, or operations to enable the Department to consider whether the entity would still qualify as a bona fide nonprofit corporation.

(6) If the Department determines that a nonprofit corporation no longer satisfies the requirements of O.C.G.A. § 7-1-1001(a)(18), then the Department shall rescind the determination that the entity is a bona fide nonprofit corporation.
(7) In the event a nonprofit corporation no longer satisfies the requirements of O.C.G.A. § 7-1-1001(a)(18), the employees of the nonprofit corporation will no longer be exempt from the mortgage loan originator requirements.

Rule 80-12-7-.01. Minimum Capital Requirements.

(1) MALPBs must continuously maintain at least the minimum leverage capital ratio, PV capital, risk capital, and statutory capital requirements set forth in this rule. The capital standards in this part are the minimum acceptable for an MALPB whose overall financial condition is fundamentally sound, which is well-managed and which has no material or significant operational or financial weaknesses. Thus, the Department is not precluded from requiring an MALPB to maintain a higher leverage capital ratio, PV capital, risk capital, or statutory capital level based on the MALPB’s particular risk profile. The Department will evaluate the factors set forth in Rule 80-12-2-.08 in analyzing the MALPB's capital adequacy and may determine that the minimum leverage capital ratio, PV capital, risk capital, or statutory capital for that MALPB is greater than the minimum standards stated in this Rule. These same criteria will apply to any MALPB seeking authorization from the Department to engage in any activity if the Department believes the adequacy of the MALPB’s capital structure is relevant to the requested authorization.

(2) The minimum leverage capital ratio requirement for an MALPB shall not be less than ten (10) percent.

(3) The minimum PV capital requirement for an MALPB shall not be less than:

(a) 5.00 percent of the tier of PV up to $10 million, plus
(b) 3.00 percent of the tier of PV above $10 million up to $25 million, plus

(c) 1.50 percent of the tier of PV above $25 million up to $100 million, plus

(d) 0.75 percent of the tier of PV above $100 million up to $250 million, plus

(e) 0.25 percent of the tier of PV above $250 million up to $1 billion, plus

(f) 0.15 percent of the tier of PV above $1 billion up to $5 billion, plus

(g) 0.08 percent of the tier of PV above $5 billion up to $20 billion, plus

(h) 0.05 percent of the tier of PV above $20 billion.

(4) The minimum risk capital requirement for an MALPB shall not be less than the greater of the aggregate dollar volume of chargebacks for the previous six (6) months or the forecast dollar volume of chargebacks for the next six (6) months.

(5) The Department's MALPB charter approval will include a requirement to have and maintain minimum statutory capital, which in no event shall be less than $3 million.

(6) An MALPB with less than the minimum leverage capital ratio, PV capital, risk capital, or statutory capital requirement:

(a) Is operating with inadequate capital and, therefore, has inadequate financial resources. Thus, at the discretion of the Department, such MALPB may be deemed to be operating in an unsafe or unsound or unauthorized manner and subject to the Department's enforcement powers, including, but not limited to, those set forth in O.C.G.A. § 7-1-91.

(b) Must file a written capital restoration plan with the Department within thirty (30) days of the date that the MALPB knows or should have known that the MALPB is operating with an inadequate capital structure, unless the Department notifies the MALPB in writing that the plan is to be filed within a different period.

At the time of deposit into the account, the funds of the individual merchant in the account shall be deemed to be the property of the individual merchant. The MALPB shall maintain in good faith and in the ordinary course of business records with respect to the account that shall identify individual merchants in order that the total amount held in the account for each individual merchant can be readily ascertained.

(2) The agreement and related records for the account required to be maintained by Paragraph 1 of this Rule shall expressly provide that the account is maintained for the benefit of the MALPB's individual merchants.

Subject 80-12-9. RELATIONSHIPS WITH AFFILIATES AND INVESTMENTS AND DISTRIBUTIONS.

Rule 80-12-9-.01. Intercompany Dealings.

(1) All transactions engaged in by an MALPB with its holding company or an affiliate must be on terms and under circumstances, including credit standards, that are substantially the same, or at least as favorable to the MALPB as those prevailing at the time for comparable transactions with or involving nonaffiliated companies, or in the absence of a comparable transaction, on terms and under circumstances that in good faith would be offered to or would apply to nonaffiliated companies. For purposes of this Paragraph, a "transaction" includes, but is not limited to, the payment of money or the furnishing of services to or receipt from a holding company or affiliate under contract, lease or otherwise, or loans from a holding company or affiliate of the MALPB. A transaction by an MALPB with any person shall be deemed to be a transaction with an affiliate or holding company of the MALPB if any of the proceeds of the transaction are used for the benefit of, or transferred to, such affiliate or holding company. Methods for determining the propriety of a transaction shall be subject to Department oversight and review.

(2) All contracts and agreements between an MALPB and a holding company or an affiliate must be in writing and formally approved by the Board of Directors of the MALPB prior to any performance under the contract or agreement. The MALPB must maintain at its main office copies of all contracts and agreements as well as documentation evidencing their formal approval.

(3) Tax payments by an MALPB to a holding company shall generally be consistent with the payment of tax liabilities which would have been made had it filed tax returns as a
separate entity, eliminating any benefit arising from surtax exemptions. Timing of such payments should generally be in concert with tax payment dates prescribed by tax regulations for estimated tax payments and the rendering of final returns.

(4) Management fees and other charges:

(a) Management fees and other charges, other than specific charges for reimbursement of tax payments or for the purchase or lease of assets or services, payable to a holding company or an affiliate of a holding company may be paid by the MALPB provided such fees and charges do not exceed the MALPB’s pro rata share of the administrative overhead of the holding company plus any direct expenses attributable to the MALPB and it is clearly demonstrated that the MALPB has received direct benefit from its relationship with the holding company. Such pro rata share shall be determined through an equitable proration of such administrative overhead among all holding company subsidiaries and activities. The proration may be based on any reasonable formula provided such formula is justified by appropriate memorandum in the files of the MALPB and approved by the Board of Directors of the MALPB. Such formula shall be subject to Department oversight and review.

(b) Administrative overhead shall include only those expenses incurred in general support of all holding company activities and not specifically allocable to a particular subsidiary or activity.

(c) Administrative overhead shall not include net losses incurred in any holding company activity, subsidiary, or investment; nor shall the term include any closing costs, interest, service charge or other expense incurred in connection with any debt owed by the holding company. Administrative overhead shall also not include any salary or other compensation of officers, directors or shareholders which is not commensurate with duties and responsibilities performed in some official capacity with the holding company. Time devoted to performance of duties and fulfilling responsibilities at the holding company level and compensation in connection with such activity shall be considered in establishing reasonable levels of compensation from the MALPB for persons who are employed by both entities. Each entity shall pay only that portion of the total compensation as is commensurate with the duties performed on behalf of that entity.

(5) Fees and charges contemplated under this Rule may be paid after the liability therefor is incurred. Administrative overhead may be accrued or paid monthly based upon a reasonable projection of actual charges, provided such accrual or payment is adjusted to actual expenses at least annually. No such fee or charge may be paid in advance. Appropriate documentation and justification must be maintained at the MALPB for any disbursement governed by this Rule.
Rule 80-12-9-.02. Subsidiaries.

(1) An MALPB can create a separate subsidiary to only carry out such activities that fall within the authorized scope of merchant acquiring activities as set forth in Rule 80-12-4-.01. Prior to utilizing the subsidiary, the MALPB must submit an application for approval describing the activity that the subsidiary will perform, how the proposed activity relates to the MALPB, and what protections will be in place to deal with any associated risks. The Department shall request additional information, approve, conditionally or otherwise, or deny a request for authorization to utilize a subsidiary within sixty (60) days after receipt of the application. In the event the Department does not take any of the above actions within sixty (60) days of receipt of the application, then the application will be deemed approved.

(2) Subsidiaries of an MALPB are subject to the same limitations and requirements that apply to an MALPB including, but not limited to, Rule 80-12-9-.01.

(1) It shall be unlawful for:
   (a) a holding company to acquire direct or indirect ownership or control of any voting shares of any MALPB, if, after such acquisition, such holding company will directly or indirectly own or control five (5) percent or more of the voting shares of such MALPB, or
   (b) any company to become a holding company as a result of the acquisition or control of such MALPB,

   unless the MALPB has been in existence and continuously operating as an MALPB for a period of three (3) years or more prior to the date of acquisition and the company has sought and obtained written approval from the Department prior to acquiring voting shares or the control of the MALPB.

(2) Notwithstanding the express provisions of Paragraph 1, a holding company is authorized to acquire or control an MALPB through formation or chartering of an MALPB in Georgia.

(3) The Department has the discretion to waive the three (3) year minimum age requirement set forth in Paragraph 1, if it has issued a written determination, prior to acquisition, that the waiver will not adversely impact the MALPB or the merchant acquiring industry. In making such a determination the Department will take into consideration competitive, financial, managerial, safety and soundness, compliance and other concerns.

(4) No holding company shall acquire control of any MALPB if it will result in the holding company having control of more than two (2) MALPBs in a five (5) year period. The Department has the discretion to waive this restriction, if it has issued a written determination, prior to acquisition, that the additional MALPB the holding company seeks to own or control is insolvent or in an unsafe or unsound condition to conduct business.

(5) Acquisitions of ownership or control of less than twenty-five (25) percent of any voting shares of a holding company that is a public company are not subject to the requirements of this Rule if:
   (a) the company has acquired such voting shares solely for investment purposes and not with the purpose or the effect of changing or influencing the control of the holding company, nor in connection with or as a participant in any transaction having such purpose or effect, and provides written notice of the acquisition to the Department, in the form and manner prescribed by the Department, no later than
thirty (30) days following the end of the quarter in which the acquisition occurred; or

(b) the company submits a written application to the Department seeking approval of the acquisition of the shares or control no later than thirty (30) days after (i) the acquisition has occurred, if the preceding paragraph (a) does not apply, (ii) the transaction was made under the preceding paragraph (a) but no longer qualifies under such paragraph as a result of the company's change of purpose such that the company's purpose is to change or influence control of the holding company either individually or in concert with others; or (iii) the Department determines that the company is seeking to change or influence control of the holding company either individually or in concert with others and informs the company of such determination; provided that, within thirty (30) days after receiving the company's application under this paragraph (b), the Department may disapprove in writing the acquisition of shares or control, in which case the Department may require the company to unwind the acquisition, take other appropriate action to limit or otherwise restrict the ability of the company to exercise control over the holding company or, if the acquisition involves a transaction to which the holding company was a party, for the holding company to sell or surrender the charter of its MALPBs, in each case subject to a reasonable transition period determined by the Department in its discretion.

(6) Subject to Paragraph 7, the provisions set forth in Paragraph 1 shall not apply to the direct or indirect acquisition of the voting shares or control of a holding company as a result of any of the following transactions which are internal corporate reorganizations of a holding company:

(a) merger of holding companies that are subsidiaries of a holding company;

(b) the formation of a subsidiary holding company; or

(c) the transfer of control or ownership of a subsidiary MALPB or subsidiary holding company to another subsidiary company.

In addition, the failure of a control person of a licensee to update the individual's information on the NMLSR, including, but not limited to, amendments to any response to disclosure questions by the control person, within ten (10) business days of the date of the event necessitating the change, shall subject the licensee to a fine of one thousand dollars ($1,000) per occurrence.

(18) Failure to Submit to Examination or Investigation. Any licensee that refuses to permit an investigation or examination of books, accounts, and records after a reasonable request by the Department shall be subject to a fine of five thousand dollars ($5,000). Refusal shall require at least two attempts by the Department to schedule an examination or investigation.

(21) Failure to Provide Loan Contract. Subject 80-14-4. LICENSING.

Rule 80-14-4-.01. Licensing Requirements and Exemptions.

(1) The exemption from licensing provided pursuant to O.C.G.A. § 7-3-4(5) to an employee of a licensee, affiliate of a licensee, or exemptee applies only to natural persons who meet all of the following criteria:

(a) (i) An employee must be employed by only one licensee or exemptee and work exclusively for that person; or

(ii) An employee of an affiliate of a licensee if prior written approval is obtained from the Department as provided in paragraph (2);

(b) An employee may not advertise, solicit, offer, or make installment loans for anyone else while claiming the exemption;

(c) An employee's procedures and activities must be supervised by the licensee or exemptee on a daily basis and the licensee or exemptee is responsible for the actions of such employees. This requirement is intended to make it clear that
licensees, affiliates of licensees, and exemptees control and are accountable for the actions of their employees; and

(d) An employee may not be paid or compensated for the performance of installment lending activity as an independent contractor or on a 1099 basis.

(2) If a licensee wishes to utilize any employees of an affiliate to perform installment lending activities on behalf of the licensee, either presently or in the future, the licensee shall submit a written request for approval to the Department. The request shall identify the name of the affiliate that is supplying the employees and provide sufficient ownership information to establish that the entities are affiliated. In evaluating the request, the Department will take into consideration, the licensee's compliance with laws and rules, consumer complaints, and the interconnectedness of the entities. In the event the Department approves the licensee's request both the licensee and the affiliate will be responsible for the actions of the affiliate's employees while the employees are performing work on behalf of the licensee.

(3) For purposes of this rule, an "affiliate" is a person, other than an individual, where the person, or an individual owner of the person, owns, controls, or holds with the power to vote 20 percent or more of any class of voting securities or other ownership interest of the other person and is licensed by the Department as an installment lender.

(4) A natural person shall not be required to obtain a license under the Georgia Installment Loan Act if such natural person is not in the business of making installment loans or employed by a licensee or exemptee, makes five (5) or fewer installment loans in any one calendar year, and uses his or her own funds to make such loans for his or her own investment. Any unlicensed natural person who makes installment loans without meeting all of the foregoing requirements is in violation of O.C.G.A. §7-3-4 and may be subject to an order to cease and desist.

Rule 80-14-4-.02. Restrictions on Employment and Licensing.

(1) No person who has been an owner, director, trustee, or executive officer of a licensee that has had its license revoked, denied, or suspended, may perform any of those roles at another licensee for five years from the date of the final order.

(2) Felony convictions; restrictions on the employee and the licensee:
(a) Licensees are responsible for ensuring that no convicted felons are covered employees or direct the affairs of their business.

(b) O.C.G.A. § 7-3-42 provides for remedies to cure a felony conviction. These remedies must be completed and in place prior to employment. Hiring or continuing to employ a covered employee with an unremedied felony conviction subjects a licensee to revocation of its license.

(c) For purposes of O.C.G.A. §§ 7-3-31 and 7-3-42, "agent" means any person who appears to the public or to a regulatory agency as acting for or on behalf of a licensee to the extent the licensee is engaged in the business of making installment loans.

(d) If a licensee discovers that a covered employee or director/officer is a felon at the time of hire or subsequently becomes a felon and has not satisfactorily cured the conviction, the violation of O.C.G.A. § 7-3-42 must be immediately corrected or the license will be subject to revocation. Such individuals with felony convictions are ineligible for an employee exemption and are in violation of O.C.G.A. §§ 7-3-4 and 7-3-50. The licensee employer is also in violation of O.C.G.A. § 7-3-4 in such circumstance.

(e) A cease and desist order to a person for failure to meet the employee exemption due to a violation of the felony provisions of O.C.G.A. § 7-3-42 shall become final in 30 days without a hearing pursuant to O.C.G.A. § 7-3-45. Such a person must show within those 30 days, by certified court documents that the record is erroneous, or, that the cure provisions in O.C.G.A. § 7-3-42 were completed prior to employment, in order to stop the order from becoming final. In the event such proof is provided, the order will be rescinded.

(3) Cease and desist orders may be issued against persons required to be licensed or against employees of those parties. All of the provisions of O.C.G.A. §§ 7-3-45 and 7-3-46, including injunction, apply to actions against all such persons.

(4) For purposes of O.C.G.A. §§ 7-3-31 and 7-3-43(b)(1), "misrepresentation" means making a false statement of a substantive fact or intentionally engaging in any conduct which leads to a false belief which is material to the transaction.

Rule 80-14-4-.03. Verification of Lawful Presence Affidavit.
1) Pursuant to O.C.G.A. § 50-36-1, the Department is required to obtain an affidavit verifying the lawful presence of every natural person that submits an application for a license as an installment lender on behalf of an individual, business, corporation, partnership, limited liability company, or any other business entity. For businesses, corporations, partnerships, limited liability companies, and other business entities (collectively "company applicant"), only an owner or executive officer that is authorized to act on behalf of the company applicant is authorized to submit the required signed and sworn affidavit.

2) In the event the individual that executed the lawful presence affidavit on behalf of the company applicant is no longer an owner or executive officer of the licensee, the licensee must notify the Department within ten (10) business days following the date of the occurrence and provide the Department with an affidavit from a current owner or executive officer verifying his or her lawful presence on behalf of the licensee. The failure to disclose within ten (10) business days that the owner or executive officer that executed the lawful presence affidavit is no longer in that position with the licensee or to timely submit a new affidavit from a current owner or executive officer may subject the license to revocation, suspension, and other administrative action.

Rule 80-14-4-.04. Nationwide Multistate Licensing System and Registry.

1) License issuance and renewals.

   a) All applications for new or renewal licenses must be made through the Nationwide Multistate Licensing System and Registry ("NMLS R"). Fees for new applications include an initial Department investigation fee and the appropriate application fee. Applications for new licenses which are approved between November 1 and December 31 in any year will not be required to file a renewal application for the next calendar year. All fees are nonrefundable.

   b) All licenses issued shall expire on December 31 of each year, and an application for renewal shall be made annually between November 1 and December 31 each year. Subsequent renewal applications and license fees must be received on or before December 1 of each year or the renewal applicant will be assessed a late fee as set forth in Rule 80-5-1-.02. A renewal application is not deemed received until all required information and corresponding fees have been provided by the licensee. A proper renewal application not received on or before the December 1 renewal application deadline of each year cannot be assured of issuance or renewal prior to January 1, at which time the license will expire. Unless a proper renewal application has been received, any license which is not renewed on or
before December 31 will require the renewal applicant to file a new license application in order to conduct business as an installment lender in the State after that date.

(2) The responsibility of applicants and licensees to update information in NMLSR.

(a) It shall be the sole responsibility of each applicant for a license and each licensee to keep current at all times its information on the NMLSR. Amendments to any information on file with the NMLSR must be made by the applicant or licensee within ten (10) business days of the date of the event necessitating the change. The Department shall have no responsibility for any communication not received by an applicant or licensee due to its failure to maintain current contact information on the NMLSR as required.

(b) Amendments to any responses to disclosure questions by an applicant for a license or a licensee must be made within ten (10) business days following the date of the event necessitating the change. Failure by an applicant for a license to timely update the applicant's responses to disclosure questions may be considered a violation of O.C.G.A. § 7-3-43(6).

(i) It shall be the responsibility of each applicant for a license and each licensee to ensure that its control persons keep current at all times their information on the NMLSR. Amendments to any information on file with the NMLSR must be made by the control person within ten (10) business days of the date of the event necessitating the change. For purposes of this Rule, control person means any individual that has the power, either directly or indirectly, to direct or cause the direction of management and policies of an applicant or licensee, whether through the ownership of voting or nonvoting securities, by contract, or otherwise.

(ii) Amendments to any responses to disclosure questions by a control person must be made within ten (10) business days following the date of the event necessitating the change. Failure by a control person of an applicant for a license to timely update the control person's responses to disclosure questions may result in the denial of the application. In the case of a licensee, failure by a control person to timely update any disclosure information may result in the revocation of its license.

(3) A licensee may challenge information entered by the Department into the NMLSR. All challenges must be sent to the Department in writing addressed to the attention of the Deputy Commissioner of Non-Depository Financial Institutions. Once received, the Department shall consider the merits of the challenge raised and provide the licensee with a written reply that shall be the Department's final decision regarding the challenge.

(4) Each licensee shall submit to the Department on a quarterly basis, via the NMLSR or other means specified by the Department, an installment loan report in a form and manner
prescribed by the Department which shall include, but not be limited to, information regarding installment loan activity. The loan report shall be submitted to the Department forty-five (45) days after the end of each calendar quarter. Licensees submitting quarterly loan reports to the Department are certifying to the material accuracy and validity of the information as submitted.

Rule 80-14-5-.01. Loan Contract, Disclosures, and Limitations.

(1) Loan Contract; Contents.

(a) Every consumer loan transaction shall be pursuant to a written loan contract which may include a loan voucher, itemized statement of loan and charges, and disclosure statement. The loan contract shall be signed by the consumer and delivered to the consumer at the time it is executed by him or her. The loan contract shall be contained in a single document which may contain more than one page. Printed terms shall be printed in at least six-point standard type.

(b) In connection with every consumer loan transaction, the consumer shall be furnished a written itemized statement in clear terms and easily understood language which shall show the following: the transaction date, a description of the subject matter and amount of the transaction, a description of the collateral, if any, securing the consumer's obligations; the identity and address of the consumer and the identity and address of the creditor; a schedule of the payments; the amount of the actual cash advanced to or on behalf of the consumer; the amount of each class of insurance carried and the premium paid thereon, stated separately for each class of insurance; and an itemization of the exact amount of the interest, fees, and other charges, if any, showing each element thereof.

(c) The loan contract shall include immediately above the place for the signature for the parties the following notice:

NOTICE TO CONSUMER

1. Do not sign this agreement if it contains any blank spaces.

2. You are entitled to an exact copy of all papers you signed.

3. You have the right at any time to pay in advance the full amount due under this agreement and under certain conditions to obtain a partial refund of the interest charges.

4. If credit life insurance is required, you have the right to purchase either level term life insurance or reducing term life insurance coverage.

5. You are not required to purchase noncredit insurance as a condition of obtaining this loan.
(d) The creditor shall furnish the consumer with an exact copy of the loan contract including any loan voucher, itemized statement of loan charges, and disclosure statement after the agreement has been signed.

(e) With respect to every installment loan transaction, the creditor shall, at the time of the transaction, furnish to the consumer a written statement of the maximum number of payments required, the amount of such payments, and the exact due dates upon which each payment is due. The maximum number of payments and the amount and date of such payments need not be separately listed if the payments are stated in terms of a series of scheduled amounts.

(2) The following practices are prohibited in the making of an installment loan pursuant to the Georgia Installment Loan Act:

(a) Blank Agreements. Every contract evidencing an installment loan transaction shall be completed as to all essential provisions prior to the signing thereof by the parties. No licensee shall induce, encourage, or otherwise permit the consumer to sign a contract containing blank spaces. Blank spaces inapplicable to a transaction must be completed in a manner which reveals their inapplicability.

(b) Negotiable Instruments. No licensee shall take or otherwise arrange for the consumer to sign an instrument payable "to order" or "to bearer", other than a check, as evidence of the credit obligation of the consumer in an installment loan transaction.

(c) Balloon and Irregular Payments. Except for single payment loans, no licensee shall enter into a contract which contains or anticipates a schedule of payments under which the final payment exceeds the amount of any other payment by more than $1.00. A single payment loan shall be repayable on terms not to exceed ninety (90) days. All other installment payments shall be scheduled at regular intervals in equal amounts. Notwithstanding the requirement that payments be made at regular intervals for all loans except for single payment loans, the initial payment on an installment loan shall be due within a period not to exceed forty-five (45) days from the date on which the loan is made but no sooner than the regular interval for all other installment loan payments.

(d) Multiple Agreements to the following extent:

(i) No licensee shall engage in any activity in connection with an installment loan by use of multiple agreements or otherwise as a result of which the licensee charges, contracts for, or receives any other or further amount in connection with an installment loan than that authorized by law for a single loan of a comparable amount.

(ii) No licensee shall split a consumer loan into separate agreements by spouses if as a result thereof the licensee charges, contracts for, or receives
any other or further amount in connection therewith than as authorized by law for a single loan of a comparable amount; provided, however, that the licensee may make an installment loan to spouses jointly and severally if such loans do not arise out of substantially the same transaction.

(e) Non-Judicial Enforcement. Notwithstanding any other provision of law, no term of an agreement shall constitute authorization for a licensee to take possession of collateral by other than legal process unless such authorization is clearly, prominently and conspicuously disclosed to the consumer immediately above the place for his signature on the loan agreement or as an addition to the "NOTICE TO CONSUMER" specified in subsection (1)(c) of this Rule.

(3) Insurance Permitted.

(a) With respect to any installment loan transaction, the licensee shall not require any insurance other than insurance covering the loss of or damage to any property in which the creditor is given a security interest. Credit life and credit accident and sickness insurance if required by the licensee, may be provided by the licensee through an insurer authorized to issue such insurance in this State.

(b) If a licensee requires any insurance permitted under subsection (1) above in any consumer loan transaction, the consumer shall be given written notice of the option of providing such insurance through an existing policy or a policy independently obtained and paid for by the consumer. If the licensee requires credit life insurance, the licensee shall give the consumer written notice of the consumer's right to choose either level term life insurance or reducing term life insurance coverage. The licensee may for reasonable cause before credit is extended decline the insurance provided by the consumer.

(c) Any insurance offered by an installment lender licensee shall comply with any and all applicable insurance laws and regulations.

(4) Discharge of Security Interests. When the consumer is indebted to a particular licensee for two or more consumer loans, any security interest held by such licensee for any particular loan shall be discharged when the loan for which the security interest is held is paid irrespective of indebtedness to the licensee by the consumer on other outstanding installment loans. As a general rule, security interests in terms of property shall terminate as the debt originally incurred with respect to each item is paid and in the case of the consolidation of two or more installment loans or any circumstances in which the general rule is not followed, the licensee may be required by the Department to show that his conduct with respect to such loan transactions was just, fair and reasonable. For the purposes of this Rule, the renewal of a consumer loan shall not be deemed to be payment thereof.
(5) Electronic Transactions Permitted. The provisions of the Uniform Electronic Transactions Act, O.C.G.A. § 10-12-1 et seq., applies to loans made pursuant to the Georgia Installment Loan Act. Nothing in the Act or the Department's rules shall be construed as prohibiting installment loans from being originated or closed remotely by a licensee.

(6) Other Purchases. If any loan within the Act is made in conjunction with the provision of any item, service, or commodity incidental to the advancement of funds, or if any other element is introduced into the transaction at the expense of the consumer, then the licensee shall provide to the consumer a separate written disclosure statement. The disclosure statement shall disclose, in no smaller than twelve-point type, the following:

(a) That the consumer does not have to purchase any such item, service, or commodity, or pay for such element, in order to obtain the loan.

(b) The cost to the consumer of any such purchase or element.

(c) The disclosure statement shall contain the consumer's signed acknowledgement of the consumer's understanding that such purchase or element is not required and of the specific cost to the borrower for each such item, service, commodity, or element.

(d) A copy of the signed document shall be provided to the borrower, and the licensee shall retain the original in the loan file.

(7) Receipt. Each consumer shall be provided with a written receipt for each cash payment made showing the licensee's name on record with the Department, the applicable loan number, the date of the payment, and the dollar amount of the payment.

Rule 80-14-5-.02. Maintenance Charges.

(1) The following terms shall have the following meaning as used in this Rule unless a different meaning or construction is clearly required by the context:

(a) "Earned maintenance charges" shall mean those maintenance charges which are applicable to those months in the term of the loan contract in which the loan has been maintained by the licensee for a period of time of one (1) or more complete months. Such earned maintenance charges shall be determined by multiplying the total number of months in the term of the loan contract in which the loan has been
maintained by the licensee by the amount of the maintenance charge authorized under O.C.G.A. § 7-3-11.

(b) "Maintenance charges" shall mean charges by a licensee for maintaining a loan for a period of one or more months in accordance with the provisions of O.C.G.A. § 7-3-11 and this Rule.

(c) "Month" shall mean a complete calendar month for all loans whose contract begins as of the first day of the calendar month. For all other loans, the term month shall mean a period of thirty (30) consecutive calendar days and for the purpose of calculation of refunds under the provisions of Paragraph 4 of this Rule, the term "month" shall mean thirty (30) consecutive calendar days.

(d) "Unearned maintenance charges" shall mean those maintenance charges applicable to the partial month in the term of the loan contract in which the loan was maintained by the licensee for one (1) or more days but in which the loan contract was terminated prior to its scheduled maturity date on a day other than the ending day of a month as defined in this Rule.

(2) A licensee may collect from an installment loan borrower a monthly maintenance charge as specified in O.C.G.A. § 7-3-11 for each month that such loan is maintained by the licensee and such maintenance charges shall be calculated and collected as follows:

(a) The "total maintenance charges collectible" over the entire term of the consumer loan shall not exceed the amount obtained by multiplying the total number of months in the term of the loan contract by the monthly maintenance charge specified in the GILA except as provided in subsection (c) of this Rule.

(b) The "total maintenance charges collectible per installment" shall not exceed the amount obtained by dividing the "total maintenance charges collectible" as calculated in (a) above by the total number of installments contemplated in the loan contract except as provided in subsection (c) of this Rule.

(c) A borrower shall not be required by a licensee to pay an amount of maintenance charges at any one time which exceeds the "total amount of maintenance charges collectible per installment" as calculated in (b) above; provided that nothing contained herein shall be deemed to prohibit a licensee from collecting any earned but uncollected portion of such maintenance charges due and owed by the borrower to the licensee on previous installments of the same loan contract or from collecting any unearned maintenance charges which are otherwise due and owed by the borrower to the licensee by virtue of the application of the refund method prescribed in Paragraph 4 of this Rule.

(3) In no event shall a licensee charge a maintenance charge to a borrower for any month in the term of the loan contract in which the loan was not maintained by the licensee and in no event shall a licensee charge a maintenance charge for maintaining a loan contract past
the scheduled maturity date of the loan, regardless of the number of days such loan is maintained past the scheduled maturity date.

(4) In the event that a discharge, refinancing, prepayment, acceleration, or any other event occurs which causes a consumer loan to terminate prior to its scheduled maturity date, the licensee shall make a refund of the amount of any unearned maintenance charges applicable to the loan contract.

(5) Maintenance charges shall be considered as an additional charge and:
   (a) Shall not be considered in the calculation of any interest, fees, or other charges otherwise authorized by law or regulations including charges for any premiums for insurance written in connection with a consumer loan; provided, that such maintenance charges will be subject to the provisions of O.C.G.A. § 7-3-11.
   (b) A borrower's failure to pay any maintenance charges applicable to the loan when due shall not be considered by a licensee as the occurrence of an event which causes the outstanding unpaid balance of the loan contract to become immediately due and payable by virtue of any acceleration clause or other similar clause or provision contained in the loan contract.

(6) If maintenance charges are to be charged and collected by a licensee on an installment loan contract the licensee shall be required to:
   (a) Clearly, prominently, conspicuously and separately itemize in the loan contract:
      i. The face amount of the contract.
      ii. The total amount of maintenance charges collectible under the loan.
      iii. The total amount of each payment including maintenance charges.
      iv. The total of payments including maintenance charges.
   (b) Provide space for and record the actual amounts of individual charges on the account record with respect to:
      i. The face amount of the contract.
      ii. The total amount of maintenance charges collectible under the loan.
      iii. The total amount of each payment including maintenance charges.
      iv. The total of payments including maintenance charges.

Rule 80-14-5-.03. Closing, Convenience, and Other Fees.

(1) Closing Fees. In addition to any other charges authorized by the Georgia Installment Loan Act ("Act"), a licensee may collect a closing fee at the time of making a loan to the extent authorized by O.C.G.A. § 13-1-14.

(a) No licensee may collect a closing fee unless, prior to the advance of money or the extension of credit, such licensee conducted an investigation or verification of the borrower's credit history, residences, references, employment, or sources of income. Each licensee shall retain on file the procedures that the licensee uses to conduct such investigations and verifications.

(b) The amount of the closing fee shall be listed in the loan agreement after the loan fees authorized by O.C.G.A. § 7-3-11 but before the maintenance charge fee.

(2) Convenience Fees. In addition to any other charges authorized by the Act, a licensee may collect convenience fees to offset the cost of receiving payment by electronic means, to the extent authorized by O.C.G.A. § 13-1-15. If a licensee elects to calculate convenience fees based on average cost for that specific type of payment over the preceding calendar year rather than the actual cost, the licensee shall maintain documentation supporting the calculation of the average cost.

(3) Unaffiliated Third-Party Fees. Fees charged to a consumer by a third party unaffiliated with a licensee to negotiate a payment instrument, including but not limited to check cashing fees or automated teller machine fees, are not prohibited by the Act.

(4) Late Charges. O.C.G.A. § 7-3-14(4) specifically provides that a licensee may charge and collect from the borrower a late or delinquent charge of $10.00 or an amount equal to 5¢ for each $1.00 of any installment which is not paid within five days from the date such payment is due, whichever is greater, provided that this late or delinquent charge shall not be collected more than once for the same default. Therefore, a licensee is not authorized to charge and collect a late or delinquent charge from a borrower until such time as that borrower has actually failed to pay an installment within five days after the date such payment was due. Under no circumstances is a licensee authorized to charge or collect and hold any unearned late or delinquent charge in advance, to be refunded if said installment is paid on or within five days from the date such payment is due.

(5) Charges for Refinancing. When any debt is renewed or refinanced by any creditor, the consumer shall be entitled to a refund or credit of that unearned portion of the interest charge computed as of the date of such refinancing or renewal and pursuant to the methodology set forth in O.C.G.A. § 7-3-14.

which the licensee has an approved location or resides more than twenty-five (25) miles
